(1) Description of plan

The following description of the Renal CarePartners, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan was a defined contribution plan sponsored by Renal CarePartners, Inc. ("Renal") through November 30, 2011, and by Ambulatory Services of America, Inc. ("Ambulatory") (with Renal, collectively, the "Company") effective December 1, 2011 at which time Renal was acquired by Ambulatory (the "Acquisition"). The Plan was originally established for the benefit of employees of Renal (and employees of various participating employers, all of whom were related entities under Renal's direct or indirect common ownership) who had one year of service, were at least twenty-one years of age, and were not excluded by certain provisions outlined in the plan document. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

As a result of the Acquisition, the Plan's management voted to merge the Plan effective March 2, 2012 into Ambulatory's defined contribution plan (the "Successor Plan"). Participants were credited with prior service time with Renal for purposes of eligibility and vesting under the Successor Plan.

Plan amendments - Effective January 1, 2011, the Plan was amended and restated to provide that the Company's discretionary matching contributions, if any, were to be made on an annual basis.

Effective December 1, 2011, the Plan was amended and restated to replace Renal as the plan sponsor with Ambulatory, and to amend the trustees of the Plan. Participants' benefits under the Plan were not affected by this amendment.

Contributions - Participants were permitted to contribute up to 100% of pretax annual compensation, as defined in the plan document, subject to limitations established by law. Participants were also permitted to contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who were making contributions to the Plan, were allowed to make catch-up contributions, as defined in the plan document.

Each year, the Company was permitted to make discretionary matching contributions to the Plan. During the period January 1, 2012 through March 2, 2012 and the year ended December 31, 2011, the Company made matching contributions equal to 25% of the first 4% of participants' compensation that was contributed to the Plan. The Company's matching contributions aggregated $6,041 and $44,971, for the period January 1, 2012 through March 2, 2012 and the year ended December 31, 2011, respectively. The Company's matching contributions were invested within each participant's account in accordance with the participant's investment elections.

Additionally, the Company was permitted to make profit sharing and/or qualified non-elective contributions ("QNEC") to the Plan. During the period January 1, 2012 through March 2, 2012 and the year ended December 31, 2011, the Company did not make any profit sharing or QNEC contributions to the Plan.

(1) Description of plan (continued)

Participant investment account options - Participants directed the investment of all contributions into various investment options offered by the Plan. The Plan offered various pooled separate accounts and other funds as investment options for participants.

Participant accounts - Each participant's account was credited with the participant's contributions and allocations of (a) the Company's contributions and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant account balances, as defined in the plan document. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting - Participants were immediately vested in their own contributions and QNEC contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions, plus actual earnings thereon, was subject to the following vesting schedule:

Years of Service	Vested %
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of benefits - On termination of service due to death, disability, retirement, attainment of 59 ½ years of age, or other reasons, or qualifying under certain "hardship" rules as prescribed by the Internal Revenue Service ("IRS"), a participant may have elected to receive distributions in the form of a lump sum payment from the Plan.

Forfeited accounts - Forfeitures were retained in the Plan and were to be used to reduce future Company contributions or to pay the Plan's administrative expenses. Forfeitures during the period January 1, 2012 through March 2, 2012 and the year ended December 31, 2011, and unapplied forfeitures at March 2, 2012 and December 31, 2011 were not significant.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan were prepared using the accrual method of accounting.

(2) Summary of significant accounting policies (continued)

Basis of accounting (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable. The statements of changes in net assets available for benefits were prepared on a contract value basis.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles required management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value at the dates stated. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the period/year.

Unit values - Individual participant accounts for the pooled separate accounts were maintained on a unit value basis. Participants did not have beneficial ownership in the specific underlying securities or other assets in the funds, but participants did have an interest therein represented by units valued daily. The funds earned dividends and interest which were automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund were converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts were charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits were recorded when paid.

Administrative expenses - Certain expenses of the Plan were paid by the Company and were not included in the statements of changes in net assets available for benefits.

(3) Investments

The following investments represented 5% or more of the Plan's net assets at the measurement dates:

	March 2, 2012	December 31, 2011
John Hancock Lifestyle Growth	$ -	$ 291,817
John Hancock Lifestyle Balanced	-	271,776
John Hancock Lifecycle 2020	-	82,746

During the period January 1, 2012 through March 2, 2012 and the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as investments held during the period/year) appreciated (depreciated) in value as follows:

	Period January 1, 2012 through March 2, 2012	Year Ended December 31, 2011
Pooled separate accounts	$ 125,093	$ (37,509)
Other funds	(92)	-
	$ 125,001	$ (37,509)

(4) Information prepared and certified by the custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company (U.S.A.) ("John Hancock"), the custodian of the Plan, has certified that the following data included in the accompanying financial statements are complete and accurate:

- Investments at fair value
- Net appreciation (depreciation) in fair value of investments
- Interest income

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

(5) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820*, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques should maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used during the period January 1, 2012 through March 2, 2012 and during the year ended December 31, 2011.

Pooled separate accounts: Valued at fair value. The fair value of shares of an underlying fund equaled the number of shares of the respective underlying fund multiplied by the net asset value per share quoted by the fund.

Other funds: Represented the value at which shares of these funds may be purchased or redeemed.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value. Furthermore, although the Plan's management believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting dates.

(5) Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011:

	Investments at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total

Total investments at fair value	$ 1,420,003	$ -	$ -	$ 1,420,003

(6) Net asset value (“NAV”) per share

In accordance with Accounting Standards Update No. 2009-12, the Plan has disclosed the category, fair value, unfunded commitments, redemption frequency, and redemption notice period for those assets whose fair value was estimated using the NAV.

The following table sets forth a summary of the Plan’s investments with a reported NAV:

	Fair Value * 3/2/2012	Fair Value * 12/31/2011	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	$ -	$ 1,403,319	$ -	Daily	None

* Fair value has been estimated using the NAV of the investments.

Certain events may have resulted in a value less than NAV per share. Such events included the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (ii) changes to the Plan’s prohibition on competing investment options of deletion or equity wash provisions, (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan, or (iv) the failure of the master trust to qualify for exemption under ERISA. The plan administrator does not believe that any such event, which would have limited the Plan’s ability to transact at contract value with participants, has occurred.

(7) Party-in-interest transactions

The Plan's investments were in pooled separate accounts and other funds managed by John Hancock. John Hancock was the custodian as defined by the Plan; therefore, these transactions qualified as party-in-interest transactions. Administrative expenses paid by the Plan to John Hancock and another service provider aggregated $1,030 and $14,764 during the period January 1, 2012 through March 2, 2012 and the year ended December 31, 2011, respectively.

(8) Transfers out of Plan

On March 2, 2012, as a result of the Acquisition and subsequent decision to merge the Plan into the Successor Plan, Plan assets aggregating $1,524,145 were transferred to the Successor Plan.

(9) Tax status

The IRS has determined and issued an opinion letter dated March 31, 2008 that the prototype plan adopted by the Company was designed in accordance with the applicable sections of the Internal Revenue Code (the "Code"). Although the Plan had been amended since receipt of this letter, the plan administrator believes that the Plan, as amended, continued to qualify and operate in compliance with the applicable requirements of the Code through March 2, 2012, the date the Plan's assets were transferred to the Successor Plan.

U.S. generally accepted accounting principles required the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan had taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of March 2, 2012 there were no uncertain positions taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(10) Subsequent events

The Plan has evaluated subsequent events through January 11, 2013 which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
