MH HOLDING COMPANY 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2012

NOTE 1 PLAN DESCRIPTION

The following description of the MH Holding Company 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Effective December 2009, the Plan sponsor was changed from McGuire & Hester (M&H) to MH Holding Company, Inc. (the Sponsor), which acquired 100% of the common stock of M&H and its subsidiary. The Plan is a defined contribution profit sharing plan and became effective on July 29, 1991, for the purpose of providing retirement benefits to eligible employees. Each participant directs his or her own investment into a choice of 20 funding options. A description of each fund is provided to participants by the Sponsor.

The Sponsor also administers MH Holding Company, Inc. Employee Stock Ownership Plan (MH ESOP). Certain transactions including safe harbor matching contributions, participant loans and distributions use information from both plans.

Non-union employees become eligible to participate in the Plan on the first day of the month coinciding with or following 3 consecutive months of employment. To become eligible for the employer's discretionary matching and profit sharing contributions, the employee must be an employee of the Sponsor on the last day of the Plan year and complete one year of service as defined in the plan document. To become eligible for the safe harbor matching contributions, the employee must complete one year of service as defined in the plan document.

Participants may contribute to the Plan a percentage of compensation for the Plan year. The Plan allows catch up contributions to be made by eligible participants who are 50 years or older. For any Plan year, a participant's contribution may not exceed a specific dollar amount determined annually by the Internal Revenue Service. Participants may also choose to designate all or a portion of their contribution as a Roth contribution. The Sponsor will make a safe harbor matching contribution equal to 100% of participant deferrals up to 3% of participant compensation and 50% of participant deferrals that exceed 3% but do not exceed 5% of participant compensation. There may also be a discretionary profit sharing contribution and matching contributions to employees who meet certain eligibility requirements. This contribution shall be allocated to all eligible participants in the same ratio as each participant's eligible compensation bears to the total of such eligible compensation of all participants.

Participants are immediately vested with respect to employee contribution amounts and safe harbor matching contributions. Vesting with respect to employer matching and profit sharing contributions occurs equally over 4 years. In addition, participants become fully vested in their account if the Plan terminates or if the participant becomes disabled, dies, or reaches the normal retirement age.

NOTE 1 PLAN DESCRIPTION (continued)

The non-vested portion of terminated employees' accounts is forfeited. Matching contribution forfeitures will be used to pay for administrative expenses and reduce future employer contributions to the Plan. Profit sharing forfeitures will be used to pay for administrative expenses or added to any employer discretionary contribution and allocated in the same manner. As of March 31, 2012, there was a balance of $2,686 in the forfeitures account representing matching forfeitures.

Each active participant's account is credited with (a) individual contributions, (b) Plan earnings and/or losses, and (c) the Sponsor's contributions, if any. Allocations are principally based on the participant's election. Investment income or loss is calculated based on the number of shares owned by each participant in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Certain fees are charged to the funds and are offset against Plan investment income and loss as presented on the Statement of Changes in Net Assets Available for Benefits. Participants should refer to the prospectuses of these funds for details on the various types and amounts of investment fees charged to the Plan and their individual accounts.

Upon termination of service due to death, disability, retirement, or other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in their account as soon as administratively feasible.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Plan’s investments are stated at fair value. Shares of mutual funds are at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Gains and losses on investments that were both bought and sold during the year are included in net appreciation in fair value of investments. Purchases and sales of securities are reflected on a trade-date basis. The carrying value of participant loans approximates fair value because interest rates are at the current market rates. Interest income is recorded on the accrual basis and dividends are recorded at the ex-dividend date.

Benefits paid out of the Plan are recorded when paid.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein. Actual results may differ from those estimates.

NOTE 3 PARTICIPANT LOANS

Included in assets at March 31, 2012, were 7 notes receivable from participants, collateralized by their vested account balances at the inception of the loans. The notes originally maturing in more than 5 years are for the purchase of a principal residence. The loans issued carry interest rates between 5.25% and 7.50%. Principal and interest is paid ratably through weekly payroll deductions.

Loans can be made to participants who meet certain loan qualification requirements. The maximum amount of a loan cannot exceed the lesser of fifty percent (50%) of the combined vested interest in the participant's 401(k) and MH ESOP accounts or $50,000.

NOTE 4 SEPARATED PARTICIPANTS

Included in investments at March 31, 2012, were accounts valued at $562,216, representing deferred vested benefits for 10 separated participants. The Sponsor has notified each separated participant of their deferred vested benefit.

The Plan's investments in mutual funds, including investments bought, sold, and held during the period, appreciated in value by $89,688 in the year ended March 31, 2012. All individual participant account balances are participant-directed as to investment programs. If a participant fails to direct their investment, contributions will be automatically invested according to the plan document.

NOTE 7 FAIR VALUE MEASUREMENTS

For the Plan year ended March 31, 2012, the Plan has adopted FASB's Fair Value Measurements and Disclosures Statement, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

NOTE 7 FAIR VALUE MEASUREMENTS (continued)

The following is a description of the valuation methodologies used for investments measured at fair value at March 31, 2012:

Registered investment companies – Valued at fair value of shares held by the Plan at year-end.

Common/collective trusts – Valued at fair value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with the other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of March 31, 2012 and 2011:
