CABLE USA, INC. SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of the ***Cable USA, Inc. Salary Savings Plan*** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Description of the Plan

General

The Plan was a defined contribution plan covering all employees of ***Cable USA, Inc.*** (the "Company") who had worked at least 1,000 hours. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective April 1, 2012, the Plan merged into the Marmon Employees' Retirement Plan. Participants in the Plan became eligible to participate in the Marmon Plan effective April 1, 2012. The Plan will file a final Form 5500 as of March 31, 2012, and for the three-month period ended March 31, 2012.

Contributions

Participants were able to contribute annual compensation up to a maximum allowed by the Internal Revenue Code, as defined in the Plan agreement. Participants who attained age 50 before the Plan termination date were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company could elect to make a discretionary matching percentage of the participant's compensation. The percentage was determined by the Company on a uniform basis and applied to all eligible participants on December 31 (when made), provided that they had 1,000 or more hours of service for the Plan year. No such contributions were made for the three-month period ended March 31, 2012. The Company elected to contribute 50% of the employees' contribution, up to a maximum of 6% of the participants' eligible wages for the year ended December 31, 2011. The Company, at its discretion, could make an additional profit sharing contribution to the Plan in an amount equal to a percentage of the participants' annual compensation. No such contributions were made for the three-month period ended March 31, 2012. Profit sharing contributions for 2011 amounted to $466,937. Participants were able to direct the investment of contributions into various investment options offered by the Plan. The Plan offered guaranteed interest accounts and pooled separate accounts as investment options for participants. Contributions were subject to certain limitations.

Each year the Plan disbursed payments to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The Plan reimbursed these excess deferral contributions to the participants in the year subsequent to the year in which they were contributed to the Plan. These amounts are recognized in the Plan's statements of changes in net assets available for benefits as "corrective distributions."

CABLE USA, INC. SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Participant Accounts

Each participant's account was credited with the participant's contribution and the Company's discretionary matching contribution (when made) and an allocation of (a) the Company's profit sharing contribution (when made), (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Vesting in the Company matching and profit sharing contributions was based on years of continuous service. A participant was 100% vested after four years of credited service.

Notes Receivable from Participants

Participants were able to borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes receivable were secured by the balance in the participant's account with interest charged at rates ranging from 4.25% to 9.25%, which were commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest were paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant was able to elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installment payments, as defined by the Plan agreement. For termination of service or for other reasons, a participant was able to receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also permitted withdrawals of active participants' elective and rollover contributions only in amounts necessary to satisfy financial hardship as defined by the Plan agreement.

Forfeited Accounts

Forfeited nonvested accounts were first allocated to offset Plan expenses with any remaining amounts used to reduce employer cash contributions. Administrative expenses paid from forfeited funds amounted to $967 and $2,171 for the three-month period ended March 31, 2012, and for the year ended December 31, 2011, respectively. Forfeited funds amounting to $2,424 and $8,014 were used to reduce employer contributions for the three-month period ending March 31, 2012, and for the year ended December 31, 2011, respectively. Forfeited nonvested accounts in the amount of $3,986 were transferred to the new Plan. At December 31, 2011, forfeited nonvested accounts totaled $5,870.

CABLE USA, INC. SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Administrative Expenses

The Plan's administrative expenses, including an allocation of salaries, accounting, and legal, were paid by the Company and qualified as party-in-interest transactions which are exempt from prohibited transaction rules. Fees for custodial and record keeping services were paid by the Plan. Participants were charged directly for loan fees and fees related to certain distributions from the Plan.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

All Plan assets were transferred at their fair values to the Marmon Employees' Retirement Plan on March 30, 2012, and as such, there were no net assets remaining in the Plan as of March 31, 2012.

The Plan's investments at December 31, 2011, were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Net appreciation (depreciation) in aggregate fair value included the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in pooled separate and guaranteed interest accounts were deducted from income earned on a daily basis and were not separately reflected. Consequently, management fees and operating expenses were reflected as a reduction of net appreciation or an addition to net depreciation in the aggregate fair value of such investments.

Notes Receivable from Participants

Notes receivables from participants were measured at their unpaid principal balance plus any accrued unpaid interest. Delinquent notes receivable from participants were reclassified as distributions based upon the terms of the Plan agreement.

Payment of Benefits

Benefits were recorded when paid.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to March 31, 2012 (Plan termination date), the most recent statement of net assets available for benefits presented herein, through January 11, 2013, the date these financial statements were available to be issued. No such significant events or transactions were identified.

2. INVESTMENTS

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company ("Principal"), as custodian, has certified the completeness and accuracy of the investment information reflected in (1) the accompanying statements of net assets available for benefits as of March 31, 2012 (Plan termination date) and December 31, 2011, (2) the related investment activity reflected in the statements of changes in net assets available for benefits during the three-month period ended March 31, 2012 (Plan termination date), and the year ended December 31, 2011, and (3) the information presented below.

As of March 31, 2012, all assets had been transferred into the Marmon Employees' Retirement Plan. Investments representing 5% or more of the Plan's net assets available for benefits were as follows at December 31, 2011:

3. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan had the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

ETEM20130117EAAM13017000531PFGDSMEXPAPP117

CABLE USA, INC. SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

The following is a description of the valuation methodologies used for assets measured at fair value. As previously disclosed, in connection with the merger of the Plan, all assets were transferred to the Marmon Employees' Retirement Plan prior to March 31, 2012; accordingly the Plan had recorded no assets as of March 31, 2012. For financial assets recorded at fair value at December 31, 2011, the description includes an indication of the level of the fair value hierarchy in which the assets are classified.

Guaranteed interest accounts: Valued at the amount that would be paid when funds are withdrawn prior to maturity based on current market rates of similar instruments compared to the composite rates of amounts invested in the account. Such instruments were considered Level 3.

Pooled separate accounts: These investments are valued using the net asset value ("NAV") of units held by the Plan at year-end as provided by Principal and were classified as Level 2. The NAV is based on the fair value of the underlying assets owned by the account net of investment management fees.

The preceding methods described may have produced a fair value calculation that may not have been indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments may have resulted in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2011:

	Level 1	Level 2	Level 3	Total

Balanced/Asset Allocation	$ -	$ 653,988	$ -	$ 653,988

CABLE USA, INC. SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

The following tables set forth a summary of changes in the fair value of the Plan's Level 3 assets for the three-month period ended March 31, 2012, and the year ended December 31, 2011:

	Guaranteed Interest Accounts	
	Three-Month Period Ended March 31, 2012 (Plan Termination Date)	Year Ended December 31, 2011
Balance, beginning of period	$ 382,750	$ 362,855
Interest credited	1,427	7,528
Unrealized gains relating to instruments still held at the reporting date	-	2,267
Purchases	60,645	145,288
Sales	(46,881)	(135,188)
Transfer due to Plan merger	(397,941)	-

	U.S. Property Pooled Separate Account for the Year Ended December 31, 2011
Balance, beginning of year	$ 171,664
Realized gains or losses	4,743
Purchases, sales, issuances, and settlements (net)	109
Transfer to Level 2	(176,516)
Balance, end of year	**$ -**

Effective March 25, 2011, the U.S. Property Pooled Separate Account, previously classified as Level 3, was transferred to Level 2 based upon management's evaluation and additional information. Prior to March 25, 2011, to allow for orderly administration and management benefiting all separate account investors, Principal implemented a pre-existing contractual limitation to delay certain withdrawal requests. The fair value of the underlying real estate was estimated using discounted cash flow valuation models. The withdrawal restriction ended March 25, 2011, which allowed the use of NAV. According to ASC 820, if the reporting entity has the ability to redeem the investment at NAV as of the measurement date, that investment can be categorized as Level 2. Management determined that classification as Level 2 was appropriate as of December 31, 2011.

NOTES TO FINANCIAL STATEMENTS

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2011:

Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts				
Balanced/Asset Allocation	$ 653,988	$ -	Daily	Daily
Fixed Income	740,590	-	Daily	Daily
International Equity	452,923	-	Daily	Daily

Short-Term Fixed Income	2,012,225	-	Daily	Daily
Small/Mid U.S. Equity	791,217	-	Daily	Daily

The following is a description of the investment strategies for pooled separate accounts at December 31, 2011:

Balanced/Asset Allocation: This asset class was generally comprised of a combination of fixed income and equity investment options. These investment options may have included balanced, asset allocation, target-date, and target-risk investment options and typically had lower risk than investment options that invest solely in equities.

Fixed Income: This asset class was generally comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.). It may also have included real estate investment options that directly own property. These investment options typically carried more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities.

International Equity: This asset class was comprised of investment options that invest in stocks, or shares of ownership in companies with their principal place of business or office outside the United States. These investment options often carried more risk than U.S. equity investment options but may have had the potential for higher returns.

Large U.S. Equity: This asset class was generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carried more risk than fixed income investment options but had the potential for higher returns over longer time periods.

Short-Term Fixed Income: This asset class was generally comprised of short-term, fixed-income investment options that are largely liquid and are designed to sustain their value. These investment options may have included stable value, money market, short-term bond, and guaranteed interest accounts. They were considered to be among the least risky forms of investment options. However, they typically had a lower rate of return than equities or longer-term fixed income investment options over long periods of time.

ETEM20130117EAAM13017000531PFGDSMEXPAPP117

CABLE USA, INC. SALARY SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Small/Mid US Equity: This asset class was generally comprised of investment options that invest in stocks, or shares of ownership in small to medium-sized U.S. companies. These investment options typically carried more risk than larger U.S. equity investment options but had the potential for higher returns.

4. RELATED PARTY TRANSACTIONS

Certain Plan investments were managed by Principal. Principal was the custodian as defined by the Plan and, therefore, these transactions qualified as party-in-interest. Fees paid by the Plan for the custodial and record keeping services to Principal amounted to $11,822 and $27,070 for the three-month period ended March 31, 2012, and the year ended December 31, 2011, respectively.

5. INCOME TAX STATUS

The Company's Board of Directors adopted the Principal Financial Group Prototype 401(k) plan document. The Plan document had received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the written form of the underlying prototype plan document was qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the Plan would be considered to have a plan qualified under Section 401(a) of the Code. The Plan was required to operate in conformity with the Code to maintain its qualification. The Plan's Administrator believes the Plan operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan was qualified and the related trust was tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.
