Independent Auditor's Report

To the Finance Committee
401(k) Profit-Sharing Plan for Employees of
Goodwill Industries Vocational Enterprises, Inc.
Duluth, Minnesota

We were engaged to audit the accompanying statements of net assets available for benefits of 401(k) Profit-Sharing Plan for Employees of Goodwill Industries Vocational Enterprises, Inc. (Plan) as of June 30, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended June 30, 2012, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of June 30, 2012. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Mutual of America Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the custodian as of and for the year ended June 30, 2012, and as of June 30, 2011.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of the 401(k) Profit-Sharing Plan for Employees of Goodwill Industries Vocational Enterprises, Inc. (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all qualified employees of Goodwill Industries Vocational Enterprises, Inc. (Company). Employees are immediately eligible to participate in the Plan on the first day of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing certain distributions from other qualified plans. The Company contributes four percent of each participant's eligible compensation as defined in the Plan. Participants are eligible to receive Company contributions the first day of the month following one year of employment service, which consists of 1,000 hours. The Company may, at its discretion, make an additional employer contribution to the Plan. Participants who are eligible to receive Company contributions and are employed on the last day of the Plan year are eligible to receive discretionary employer contributions. The Company declared a two percent discretionary contribution for the 2012 plan year, which was paid subsequent to year-end. Contributions are subject to certain limitations.

Participant accounts: Each participant account is credited with the participant's contribution and an allocation of the Company's contribution, Plan earnings and charged with an allocation of administrative fees. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants' investment options: Participants direct their salary deferral and Company contributions to selected investments as made available and determined by the Plan Custodian. Participants may change their investment options any time throughout the year.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants vest 20 percent per year and are 100 percent vested after five years of credited service, attainment of normal retirement age, death or total and permanent disability during the term of employment, or termination of the Plan.

Notes receivable from participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a market rate. Loan terms range from 1 to 5 years or not to exceed 10 years for the purchase of a primary residence. Principal and interest are paid ratably each month through payroll deductions.

Payment of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the vested balance in his or her account or installment payments over a specified period of time in accordance with Plan provisions. Upon termination, participants may elect to hold their investments in the Plan, unless the investment is less than $1,000, in which case the investment is automatically distributed. A participant may elect to receive an in-service distribution if certain conditions are met.

Forfeited accounts: Forfeited nonvested accounts will be used to reduce future employer contributions. Forfeitures of $5,957 were used to reduce the Company's contributions during the 2012 Plan year.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contract, as well as any adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Administrative expense: Except for fees associated with benefit payment administration and certain investment options, all administrative expenses of maintaining the Plan are paid by the Plan Sponsor.

Current accounting developments: In January 2010, Financial Accounting Standards Board (FASB) issued an amendment, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurements disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances and settlements instead of netting these changes. With respect to matters related to Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2010. The Plan Administrator has determined the adoption of this pronouncement did not have a significant impact on financial statement disclosures.

In May 2011, FASB issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, (ASU 2011-04).* ASU 2011-04 amended Accounting Standards Codification (ASC) 820*, Fair Value Measurements and Disclosures*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan Administrator is evaluating the effect that the provision of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events: The Plan has evaluated subsequent events through January 17, 2013, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Mutual of America Life Insurance Company

The following is a summary of the Plan's asset information as of June 30, 2012 and 2011, and for the year ended June 30, 2012, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified or provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule relating to the following assets:

	2012	2011
Investments:		
Pooled separate accounts	$ 735,409	$ 707,624
Investments in funds held in insurance company general account	420,336	310,051

Mutual of America also certified to the completeness and accuracy of $10,767 of net appreciation in fair value of pooled separate accounts, $6,989 of interest related to the interest accumulation account, and $713 of interest from notes receivable from participants for the year ended June 30, 2012.

The following presents investments that represent five percent or more of the Plan's net assets as of June 30, 2012 and 2011.

	2012	2011
Investments, pooled separate accounts at fair value:		
Mutual of America:		
All America Fund	$ 152,224	$ 144,285
Bond Fund	78,239	62,475
Composite Fund	173,280	154,095
DWS Capital Growth	65,626	59,368
Investments, at contract value:		
Interest accumulation account (general account)	420,336	310,051

Note 4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures,* provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2: Inputs to the valuation methodology include:

    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability;
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

    If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2012 and 2011.

Shares of pooled separate accounts: Pooled separate accounts invest in single mutual funds. The fair values of these pooled separate accounts are primarily based on quoted market prices for the underlying securities or similar instruments.

Investment in funds held in insurance company general account: Investment contracts are reported at contract value, which approximates fair value (see Notes 5 and 9). This determination is based on Mutual of America's credit rating and yield during 2012 and 2011 being comparable to similar alternative investments and also because the interest rate resets quarterly.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The significance of transfers between levels is evaluated based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended June 30, 2012, there were no transfers in or out of Levels 1, 2, or 3.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2012 and 2011.

(a) The pooled separate accounts in this category seek current income and capital appreciation. Selected funds within this category may invest in fixed income funds of the investment company or equity funds of the investment company. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.

(b) The pooled separate accounts in this category seek competitive total return through an actively managed portfolio of stocks, bonds and money market instruments that offer income and capital growth opportunity. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.

(c) The pooled separate accounts in this category seek reasonable income and capital appreciation with a portfolio that has a goal to achieve a yield similar to or exceeding the S&P 500. Selected funds within this category may invest in equity securities (common stocks) of U.S. Companies. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.

(d) The pooled separate accounts in this category provide as high a level of current income over time as is believed to be consistent with prudent investment risk. Selected funds within this category may invest in investment-grade, publicly traded debt securities, mortgage- or asset-backed securities or securities issued or guaranteed by the U.S. Government or its agencies. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets.

(e) The pooled separate accounts in this category seek current income and capital appreciation appropriate for the assets allocation associated with its target retirement date. Selected funds within this category may invest in fixed income investment company funds and equity investment company funds.

Note 5. Investment Contract with Insurance Company

The Plan has entered into a fully benefit-responsive investment contract (Interest Accumulation Account) with Mutual of America. Mutual of America maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The contract is included in the financial statement at contract value, as reported by Mutual of America. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Mutual of America indicates that contract value approximates fair value for these investments at June 30, 2012 and 2011. The crediting interest rate is based on a formula agreed upon with the issuer and may not be less than 1 percent nor greater than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

The contract does not contain a scheduled maturity date.

Average Yields	2012	2011
Based on actual earnings	1.91%	2.28%
Based on interest rate credited to participants	1.90%	2.00%

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to change or to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 9, 2008, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes the Plan is designed and being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods under progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 8. Related Party Transactions

Certain Plan investments are in a general account and in pooled separate accounts managed by Mutual of America Life Insurance Company. Mutual of America Life Insurance Company is a custodian as defined by the Plan, and, therefore, these transactions qualify as party-in-interest.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities in its pooled separate accounts. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Approximately 36 percent and 30 percent of the Plan's investments are held in a guaranteed interest account with Mutual of America at June 30, 2012 and 2011, respectively, as disclosed in Note 5. As such, this is considered to be a concentration of credit risk.

Generally accepted accounting principles require the financial statements to present the fair value of investments. The above investments have been presented at contract value, which approximates fair value, as reported to the Plan by Mutual of America. This determination is based on Mutual of America's credit rating and yield during 2012 and 2011 being comparable to similar alternative investments. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at June 30, 2012 and 2011, to Form 5500:

	June 30,	
	2012	2011
Net assets available for benefits, as presented in these financial statements	$ 1,229,714	$ 1,081,749
