To the Participants and Administrative Committee
First Empire CD Management Inc. Employee 401(k) Profit Sharing Plan

We were engaged to audit the accompanying statements of net assets available for benefits of First Empire CD Management Inc. Employee 401(k) Profit Sharing Plan (the "Plan") as of June 30, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended June 30, 2012, and the supplemental schedule H, line 4i – schedule of assets (held at end of year) as of June 30, 2012. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of June 30, 2012 and 2011, and for the year ended June 30, 2012, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements
June 30, 2012 and 2011

1. Description of Plan

The following description of the First Empire CD Management Inc. Employee 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of First Empire CD Management Inc. and related entities (the “Company”) (other than interns, seasonal, and temporary employees) who have attained the age of twenty and a half years and have completed six months of service. Covered employees may defer a percentage of their wages as a contribution to the Plan with a portion matched by the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Each year, participants may contribute up to the lesser of either 40% of eligible compensation or the dollar limitation provided by Section 402 (g) of the Internal Revenue Code (“IRC”) in effect at the beginning of such year. Participants who were at least age 50 by June 30, 2012, were able to make an additional “catch-up” contribution up to a maximum of \$5,500 in 2012. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans with the exception of Roth contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. As of June 30, 2012, the Plan offered one money market fund and thirty-three mutual funds as investment options for participants. The Company adopted a provision for a discretionary match of the elective contributions made by the participant. For the year ended June 30, 2012, the Company made matching contributions in the amount of \$395,949.

Vesting

Participants are immediately vested in their elective contributions plus actual earnings thereon. Participant vesting in the Company’s matching contributions plus actual earnings thereon is based on years of continuous service. A participant is 20% vested after two years of service, 40% after three years of service, 60% after four years of service, 80% after five years of service, and 100% after six years of service.

Participant Accounts

Each participant’s account is credited with the (a) participant’s contributions and (b) the Company’s matching contributions for such participants and (c) earnings thereon. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Forfeitures

Forfeited non-vested funds may be utilized by the Company to pay administrative expenses or reduce future matching contributions. For the year ended June 30, 2012, forfeited funds in the amount of \$1,618 were available to pay administrative expenses or offset future matching contributions.

Notes to Financial Statements
June 30, 2012 and 2011

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of either (a) \$50,000 reduced by the excess of the highest outstanding balance of all other loans from the Plan during the one-year period before the loan was made, or (b) 50% of the non-forfeitable amount of the participant's account balance. Participants may only have two loans outstanding at any given time. The loans are collateralized by up to 50% of the vested balance in the participant's account and bears interest at a rate commensurate with prevailing rates as determined by the Plan administrator. As of June 30, 2012 and 2011, participant notes receivable were \$183,514 and \$135,989, respectively, at interest rates ranging from approximately 5.25% to 7.00% per annum. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, or retirement at normal retirement age, a participant with a vested account balance may elect to receive a lump-sum amount equal to the value of the vested interest in his or her account or delay the distribution until required by law to receive minimum required distributions. Amounts are not distributed except by reason of retirement, death, disability, hardship, or the attainment of age 59 ½. However, a single lump-sum distribution will be made immediately upon termination if the Participant's vested account balance is less than \$1,000.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies, excluding money market funds, are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Money market funds are valued at their stated balances at June 30, 2012 and 2011, which are considered to be fair value. The principal of all participant outstanding loans is valued at estimated fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses on investments sold during the year and the unrealized appreciation (depreciation) on investments held at year end.

Benefit Payments

Benefit payments are recorded when paid.

Concentrations of Credit Risk

Financial instruments which potentially subject the Plan to concentrations of credit risk are investments. The Plan invests its assets in money market and mutual funds (see Note 1). A single investment company manages twenty eight of the thirty three mutual funds. The Plan holds no collateral for these financial instruments.

Notes to Financial Statements
June 30, 2012 and 2011

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for investment options as described in Note 1. Mutual funds are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with those investment options, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

3. Information Certified by the Trustee (Unaudited)

As permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, all of the investment and investment income information in the accompanying financial statements as of June 30, 2012 and 2011, and for the year ended June 30, 2012, was derived from information certified as complete and accurate by Fidelity Management Trust Company as trustee, and was not subject to audit.

The following table presents a summary of investments at fair value as of June 30, 2012 and 2011. Investments that represent 5% or more of the net assets available for benefits in each respective year are identified by an asterisk:

Notes to Financial Statements
June 30, 2012 and 2011

During the year ended June 30, 2012, investment income from the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) amounted to \$268,402 as follows:

Investment income

Mutual funds	268,105
Money market funds	<u>297</u>
Total investment income	<u>\$ 268,402</u>

4. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. Tax Status

In 2008, the Plan obtained a general Internal Revenue Service ("IRS") Approval Letter for the Prototype Non-Standardized 401(k) Profit Sharing Plan. The IRS Approval Letter precludes the necessity for the Plan to file for an individual Letter of Determination with the IRS. Plan management believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes due from the Plan has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of June 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years ending prior to June 30, 2009.

6. Administrative Expenses

The Company pays all administrative costs of the Plan. Loan fees are deducted directly from the participants' accounts.

7. Party-in-Interest Transactions

Certain plan investments are comprised of funds which are managed by Fidelity Investments Institutional Operations Company, Inc., a related party of Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

8. Fair Value of Investments

FASB Authoritative Guidance establishes a framework for measuring fair value under accounting principles generally accepted in the United States of America and expands the disclosure about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB Authoritative Guidance are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable for the asset or liability. Inputs reflect the assumptions made by the Plan's management about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk) and are developed based on the best information available in the circumstances. Unobservable inputs include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value require significant management judgment or estimation.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at June 30, 2012 and 2011:

- Money market fund – valued at cost plus accrued interest which approximates fair value
- Mutual funds - valued at quoted market prices which represent the net asset value of the shares held by the Plan at year-end
