INDEPENDENT AUDITOR'S REPORT

To the Trustees
HPS Mechanical, Inc. Retirement Plan
Bakersfield, California

We were engaged to audit the accompanying statements of net assets available for benefits of the **HPS Mechanical, Inc. Retirement Plan** (the Plan), as of June 30, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended June 30, 2012, the supplemental schedules of (1) Schedule H, line 4i - Schedule of Assets Held (At End of Year), and (2) Schedule H, line 4a – Schedule of Delinquent Participant Contributions as of and for the year ended June 30, 2012. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Principal Life Insurance Company and Principal Trust Company, the custodians of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the custodians hold the Plan's investment assets and execute investment transactions. The Plan Administrator has obtained certifications from the custodians as of June 30, 2012 and 2011, and for the year ended June 30, 2012, that the information provided to the Plan Administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified or provided by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

HPS MECHANICAL, INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the HPS Mechanical, Inc. (Company) Retirement Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of HPS Mechanical, Inc. For purposes of wage rate contributions, an employee becomes eligible if they have rendered one hour of service on a prevailing wage contract job. For purposes of discretionary contributions, an employee becomes eligible if they are over 18 years of age and have completed 60 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may make salary deferral contributions in any percentage from 1% to 15% of pretax annual compensation, as defined in the Plan. For purposes of the prevailing wage employees, the Plan's provisions stipulate that the employer will contribute to the Plan on an hourly contribution rate for the classification of employees. The Company may also make discretionary matching contributions and discretionary profit sharing contributions. Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their salary deferral contributions and wage rate contributions plus actual earnings thereon. The portion of the participants' accounts attributable to the Company's discretionary contributions become 20% vested after two years of credited service as defined and continues to vest at the rate of 20% for each successive year of service until 100% vested after six years of service.

Notes Receivable From Participants: Participants may borrow from their account an amount not to exceed the lesser of: a) 50% of the un-loaned participant's vested account balance or b) $50,000. The loans are secured by the balance in the participant's account and bear interest at the rate of 5.75 percent, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits: Upon termination of service, a participant may elect to receive lump-sum payment or an annuity equal to the value of his or her account, or to have that amount rolled over into another retirement account.

Forfeitures: Forfeitures may be used first to pay administrative expenses and then to reduce employer-matching contributions and Company discretionary contributions. At June 30, 2012 there were no forfeited amounts.

Note 2. Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTES TO FINANCIAL STATEMENTS

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Expenses of the Plan, to the extent that the Company does not pay such expenses, may be paid out of the net assets of the Plan provided that such payment is consistent with ERISA.

Subsequent Events: The Plan Administrator has evaluated subsequent events through January 28, 2013, the date the financial statements were available to be issued. There were no subsequent events identified by management which would require disclosure in the financial statements.

Note 3. Information Certified by Principal Life Insurance Company and Principal Trust Company

The following is a summary of the plan's asset information as of June 30, 2012 and 2011, and for the year ended June 30, 2012, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodians and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 5, and supplemental schedules related to the following assets:

	2012	2011
Pooled separate accounts	$ 6,108,883	$ 6,379,732
Collective investment trust	3,879,159	3,858,930
Mutual funds	1,702,780	1,725,165
Participant loans	133,848	114,678
	$ 11,824,670	$ 12,078,505

Principal Life Insurance Company and Principal Trust Company also certified to the completeness and accuracy of $60,680 of net appreciation in fair value of investments and $34,966 of interest and dividends related to the aforementioned assets for the year ended June 30, 2012.

Note 4. Fair Value Measurements

The Fair Value Measurements and Disclosures topic of the AICPA Codification, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2012 and 2011.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Pooled separate accounts: Separate accounts that invest exclusively in mutual funds are valued at the net asset value ("NAV") of the underlying investments. Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities. For pooled separate accounts invested mainly in commercial real estate, the fair value is estimated based upon discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates and discount rates. In addition, each property is appraised annually by an independent appraiser.

Collective investment trust: Net asset value is based on the market value of its underlying investments. This fund contains synthetic investment contracts comprised of both underlying investment and contractual components, including quoted prices for similar assets in active or non-active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2012 and 2011. The following tables presents separately those assets that represent 5% or more of the Plan's net assets:

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended June 30, 2012, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 5. Investment Contract with Insurance Company

The Plan entered into a benefit-responsive investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a collective investment trust. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at June 30, 2012 and 2011 was $3,879,159 and $3,858,930, respectively. The average yield was approximately 1.5% and 1.99% for 2012 and 2011, respectively. The crediting interest rate averaged 1.5% at June 30, 2012.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 7. Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated November 15, 2005, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code.

The Plan was last amended on July 1, 2010 to adopt various regulatory requirements. The Plan has applied for but not yet received a determination letter from the Internal Revenue Service regarding the Plan's qualification under Section 401(a) and the related trust's tax-exempt status under the provisions of Section 501(a) of the Code. The Administrative Committee believes the Plan is currently designed and is being operated in compliance with applicable requirements of the Code. The Administrative Committee will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at June 30, 2012 and June 30, 2011 to Form 5500:

	2012	2011
Net assets available for benefits per the financial statements	$ 11,881,590	$ 12,210,917
Plus adjustment from contract value to fair value	90,631	63,726
Net assets available for benefits per the Form 5500	$ 11,972,221	$ 12,274,643

Note 10. Prohibited Transactions

During 2011 and 2010, the Plan sponsor inadvertently failed to deposit approximately $940 of participant deferrals and loan repayments within the required timeframe as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Plan sponsor will file Form 5330 and pay applicable excise tax. The excise tax payments will be made from the Plan sponsor's assets and not from assets of the Plan.
