To the Trustee of
Boltex manufacturing Co. 401(k) Profit Sharing Plan

We were engaged to audit the accompanying statement of net assets available for benefits of Boltex manufacturing Co. 401(k) Profit Sharing Plan (the "Plan") as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Ascensus, Inc., as agent for Frontier Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the agent for the custodian as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the agent for the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the agent for the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

General

The Plan is a defined contribution plan covering all employees of Boltex Manufacturing Company, L.P. (the "Company"). Employees are eligible to participate in the Plan on the first day of January or July following the completion of one year of service and attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Unless a participant affirmatively elects otherwise, the Company will automatically contribute to the Plan on behalf of each participant as a pre-tax deferral contribution a minimum of 3% of that participant's eligible compensation. Participants may elect to contribute up to 15% of their annual eligible compensation, subject to certain limitations, deferred on a pre-tax basis. Participants who have attained the age of 50 before the end of the Plan year may make additional catch up contributions.

The Company may make a discretionary matching contribution to the Plan to be determined each plan year. During the year ended December 31, 2010, the Company matched 75% of each participant's pre-tax contribution, up to a maximum of \$5,000. Matching contributions are calculated annually. The Company may also make a discretionary profit sharing contribution to be determined each plan year. The profit sharing contribution is allocated to participants who have attained age 21 and completed one year of service in the ratio that each participant's eligible compensation for the plan year bears to the total for the plan year. There was no discretionary profit sharing contribution made during the year ended December 31, 2010.

The Plan allows certain rollover contributions for employees from eligible retirement plans qualified under the appropriate sections of the Internal Revenue Code (IRC). The Plan is participant directed. Participants may change their salary deferral contribution rates and investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. In addition, participants are charged with any applicable administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Participants are at all times fully vested in their contributions and the appreciation or depreciation thereon. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of continuous service. Participants vest 20% per year after two years of service and are 100% vested after six years of service. A participant shall be immediately vested upon death, disability, or retirement.

Forfeitures

Forfeitures of nonvested Company matching contributions will be used to pay administrative expenses. Forfeitures of Company profit sharing contributions are allocated to participants in accordance with profit sharing allocations in the year of forfeiture. Forfeitures of excess aggregate contributions will be used to reduce Company contributions. The forfeitures balances at December 31, 2010 and 2009 were \$7,124 and \$4,785, respectively. There were no forfeitures utilized or allocated to participants during the year ended December 31, 2010.

Payment of Benefits

Upon a participant's termination, disability, death, or retirement, the vested funds in the participant's account are distributed in a lump-sum or partial payment as elected by the participant or beneficiary. Normal retirement age under the Plan is 60. The Plan also allows for in-service and hardship distributions from a participant's vested account balance.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are maintained on the cash basis of accounting; however, the financial statements have been prepared on the accrual basis of accounting.

Administrative Expenses

Administrative expenses of the Plan are paid by the Company or the Plan.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust fund (the "Trust"). Effective October 6, 2010, the Trust changed from a stable value fund to a short-term bond fund and all of the Trust's investment contracts were terminated. At December 31, 2010, the Trust was no longer considered fully benefit-responsive. As required, the statement of net assets available for benefits as of December 31, 2009 presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncement

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820 to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan's management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

*Includes adjustment to contract value of \$11,881 for interest in common/collective trust fund relating to fully benefit-responsive investment contracts at December 31, 2009.

During the year ended December 31, 2010, the Plan's investments in mutual funds (including gains and losses on investments bought, sold, and held during the year) appreciated in fair value by \$210,469.

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures* (ASC 820), clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Mutual Funds: Valued at net asset value (NAV) of shares held by the Plan at year-end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

BOLTEX MANUFACTURING CO. 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
December 31, 2010

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Common/Collective Trust Fund: The Plan's interest in the Merrill Lynch Retirement Preservation Trust (Trust) is valued based on the net asset values reported by the trustee of the Trust. The fair value for the underlying assets of the investment is based on either quoted prices in active markets or observable inputs used to value certain securities and contracts. The underlying investments at December 31, 2009 are primarily pools of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by the general account assets of the insurance company or bank that writes the investment contract. The Trust seeks to provide preservation of capital, liquidity, and current income at levels that are typically higher than those provided by money market funds and similar to short- or intermediate-term bond funds without the volatility, before deduction of expenses.

Effective October 6, 2010, a resolution was approved to terminate the Trust and commence liquidation of its assets. The Trust was terminated on February 28, 2011 and the investment was transferred to a money market mutual fund. In conjunction with this resolution, the Trust changed from a stable value fund to a short-term bond fund and all investment contracts were terminated. Short-term fixed income investments are stated at amortized cost, which approximates fair value. Investments in regulated investment companies are valued at the NAV on the valuation date. Debt securities are valued on the basis of valuations using methods based on market transactions for comparable securities and various relationships between securities that are generally recognized by institutional traders. Securities for which market quotations are not readily available, or have quotations which management believes are not appropriate, are valued at fair value as determined in good faith by the trustee. The Trust seeks to preserve principal, maintain high liquidity, and earn an appropriate market return. The Trust also seeks to maintain a \$1.00 NAV per unit, although achievement of that objective cannot be assured.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2010 and 2009.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009:

NOTE 5 - INFORMATION CERTIFIED BY AGENT FOR THE CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, Inc. as agent for Frontier Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments reflected in the accompanying statement of net assets available for benefits as of December 31, 2010 and 2009 and the schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2010, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Merrill Lynch and entities affiliated with Merrill Lynch. Merrill Lynch is the Plan's broker/dealer. Therefore, these investments qualify as party-in-interest transactions. These transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 7 - TAX STATUS

The Plan has adopted a standardized prototype plan through Ascensus, Inc., which obtained its latest opinion letter dated March 31, 2008, in which the Internal Revenue Service (IRS) stated that the prototype document satisfies the applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

The Company has become aware of certain operational failures concerning plan administration during the years ended December 31, 2010 and 2009. The effect of these operational errors on the Plan is not known at this time; however, will most likely result in additional employer contributions. The Company will take the necessary steps required to maintain the Plan's qualified status. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 9 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through January 31, 2013, the date the financial statements were available to be issued.
