NOTES TO FINANCIAL STATEMENTS

**FOR THE PERIOD ENDED APRIL 30, 2012 AND
THE YEAR ENDED DECEMBER 31, 2011**

A. DESCRIPTION OF THE PLAN:

The following description of the Cryogenic Transportation, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan was a defined contribution plan covering substantially all full-time employees of Cryogenic Holdings, Inc. and Cryogenic Transportation, Inc. (collectively, the "Company") who were age 21 or older. It was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Merger - On December 1, 2010, the Company was acquired by The Kenan Advantage Group, Inc. and now operates as their subsidiary. The Plan was merged into the Kenan Advantage Group, Inc. 401(k) Plan effective May 1, 2012.

Contributions - Each participant was permitted to make a pretax or an after tax basis (Roth) contribution deferring a percentage of total compensation, subject to Internal Revenue Service ("IRS") regulations. A Company discretionary matching contribution equal to a percentage of participant contributions was determined annually. Effective August 31, 2009 the Company matched 25% of the participant contribution up to 6% of compensation. Effective May 1, 2011, the Company match increased to 50% of the participant contribution up to 6% of compensation. In addition, the Company could make discretionary contributions called non-elective contributions to the Plan. No non-elective contribution was made in 2012 or 2011.

Participant Accounts - Each participant's account was credited with the participant's contributions including elective deferrals and rollover contributions and allocation of (a) the Company's contributions, and (b) Plan earnings, and was charged with (c) certain administrative expenses and (d) allocation of Plan losses. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account. As of April 30, 2012, no amount had been allocated to accounts of persons who have withdrawn from future contributions to the Plan.

Forfeitures - Forfeitures were used to reduce future Company contributions or fees. Forfeitures of \$6,336 and \$4,914 were used to reduce Company contributions in 2012 and 2011, respectively. In 2012 forfeitures of \$849 were used to reduce expenses. At April 30, 2012 and December 31, 2011, forfeited nonvested accounts totaled \$-0- and \$8,691, respectively.

Vesting - Participants were immediately vested in their contributions (including rollover contributions) plus the actual earnings thereon. The Company's contributions and the earnings vested as follows:

<u>Years of Service</u>	<u>Percentage</u>
1	25%
2	50%
3	75%
4	100%

A. DESCRIPTION OF THE PLAN (CONTINUED):

Investment Options - Upon enrollment in the Plan, a participant was able to direct participant contributions in 1% increments in any of the Plan's thirty fund options. In addition to these fund options, participants could also elect to invest up to 50% of their account balance in a self-directed brokerage account which allowed participants to expand their investment options to funds not offered by the Plan.

Payment of Benefits - On attaining age 59-1/2, retirement, death or disability, the account balance was payable to the participant (or beneficiary, if participant was deceased) in the form of a lump-sum equal to the value of the participant's vested interest in his or her account, or monthly, quarterly or annual installments over a period of not more than the recipient's life expectancy (participant or beneficiary's life expectancies). Non-terminated employees could make withdrawals from their elective deferral account balance as a hardship withdrawal prior to reaching age 59-1/2. Hardship withdrawals were subject to additional rules and conditions as outlined in the Plan agreement. Participants who terminated employment with vested account balances greater than \$1,000 but less than \$5,000, if not electing a distribution paid directly to an eligible retirement plan specified by the Participant in a direct rollover or to receive the distribution directly, had their account distributed in a direct rollover to an individual retirement plan designated by the administrator. Participants with less than \$1,000 were paid in a lump sum distribution.

Notes Receivable from Participants - Participants could borrow from their accounts in accordance with the Plan document. All loans to participants were considered notes receivable of the trust fund and bear interest of 1% above the prime rate. Under the plan, participants could borrow up to one-half of their vested account balance up to \$50,000. All loans were to be repaid within five years unless the loan was used to acquire a principal residence, in which case the term may have been longer.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Reporting - The accompanying financial statements and the Annual Return/Report of Employee Benefit Plan – Form 5500 have been prepared using the accrual basis of accounting.

Valuation of Investments and Income Recognition - The plan's investments were stated at fair value as determined by the custodian, Ameritas Life Insurance Corporation using quoted market prices and other available information. The Plan's fully benefit responsive investment contract was valued at contract value (Note F). Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest income was recorded on the accrual basis. Net appreciation / depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Notes Receivable from Participants - Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits - Benefits were recorded when paid.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Administrative Expenses - Certain administrative expenses of the Plan were paid by the Company; therefore, they were not reflected in the accompanying financial statements. Investment expenses were deducted by Ameritas Life Insurance Corporation and were reflected in the calculation of the annuity unit value. Fees associated with participant loans and certain other investment transactions were charged directly to the participant accounts.

Use of Estimates - In preparing financial statement in conformity with accounting principles generally accepted in the United States of America, Plan management was required to make estimates and assumptions that affect reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events - The Company has evaluated subsequent events through February 11, 2013, which was the date the financial statements were available to be issued.

C. INVESTMENTS:

The Plan's custodian, Ameritas Life Insurance Corporation, was a party-in-interest of the Plan as defined by ERISA Section 3 (14) and accordingly, investment transactions in the respective funds were party-in-interest transactions. The Plan administrator has obtained certification from the custodian that the information in such statements was complete and accurate. Financial information relating to those investments was included in the accompanying financial statements based on information provided by the custodian. Information which has not been examined by the independent auditors and represent 5% or more of Plan assets, follows:

E. FAIR VALUE MEASUREMENTS:

The authoritative accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the authoritative accounting literature were described as follows:

Level 1 - Inputs to the valuation methodology were unadjusted quoted prices for identical assets or liabilities in active markets that the plan had the ability to access.

Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets or for identical or similar assets or liabilities in inactive markets. Inputs other than quoted prices that were observable for the asset or liability and inputs that were derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology were unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

E. FAIR VALUE MEASUREMENTS (CONTINUED):

Following was a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2012 or December 31, 2011.

Pooled separate accounts - Valued at the unit value at year/period-end, based on the fair value of the underlying investments.

Guaranteed investment account - Valued at fair value by discounting the related cash flows based on current market yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Self-directed brokerage accounts - A money market fund and the financial instruments of partnerships and commodity trust funds made up the balance in these accounts at year/period-end. The fair values of these investments were based on observable market quotations and were valued at the closing price reported on the active market on which the individual securities were traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of April 30, 2012 and December 31, 2011.

Assets Measured at Fair Value at April 30, 2012 and December 31, 2011:

Total realized and unrealized gains included in changes in net assets available for benefits	<u>22,257</u>

Gains and losses included in changes in net assets available for benefits for the period ended April 30, 2012 and for the year ended December 31, 2011 were reported in net appreciation in fair value of investments.

The Plan's policy was to recognize transfers in and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the period ended April 30, 2012 and for the year ended December 31, 2011, there were no significant transfers into or out of Level 3.

NOTES TO FINANCIAL STATEMENTS

F. GUARANTEED INVESTMENT ACCOUNT:

The Plan had a fully benefit-responsive investment contract with Ameritas Life Insurance Corporation (“Ameritas”), which maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and specified interest rate that was guaranteed to the Plan.

Because the guaranteed investment contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract was presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Ameritas Life Insurance Corporation, represented contributions made under the contract, plus earnings, less participant withdrawals or transfers of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer.

Certain events limited the ability of the Plan to transact at the contract value with the issuer. Such events included the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan’s prohibition on competing investment options or deletions of equity wash provisions, (3) bankruptcy of the plan Sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction under the Employee Retirement Income Security Act of 1974. The plan administrator did not believe that the occurrence of any such valuation event, which would limit the Plan’s ability to transact at contract value with participants, was probable.

The guaranteed investment contract did not permit Ameritas Life Insurance Corporation to terminate this contract and settle at an amount different than contract value.

	<u>2012</u>
Average yields:	
Based on actual earnings	1.20%
Based on interest rate credited to participants	3.65%

G. PLAN MERGER:

As noted in footnote A, the Plan merged into the Kenan Advantage Group, Inc. 401(k) Plan effective May 1, 2012. As a result, all investments were transferred into the Kenan Advantage Group, Inc. 401(k) Plan on that date.

401(k) PROFIT SHARING PLAN
(Employer Federal ID #42-1174543, Plan #001)

NOTES TO FINANCIAL STATEMENTS

H. INCOME TAX STATUS:

The Plan had received a letter of determination dated March 31, 2008 on the prototype plan, upon which the Plan was based, from the Internal Revenue Service which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code, and will not be receiving a separate determination letter. However, the plan administrator and the Plan's custodian believe that the Plan was designed and operated in compliance with the applicable requirements of the Internal Revenue Code.

The authoritative accounting guidance requires the plan administrator to evaluate uncertain tax positions taken by the Plan. The plan administrator had concluded that as of April 30, 2012, there were no uncertain income tax positions taken by the Plan. The Plan did not recognize any interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there were currently no audits for any tax periods in progress. Currently, the 2009, 2010 and 2011 tax years were open and subject to examination by the Internal Revenue Service.

I. TRANSACTIONS WITH PARTIES-IN-INTEREST:

Certain administrative expenses relating to the maintenance of participant eligibility records and asset management fees were absorbed by the Company, while other administrative expenses including legal and accounting fees were paid out of Plan assets. Other than as described above or pursuant to a certain trust agreement (See Note C), the Plan had no agreements or transactions with a party-in-interest.

J. RISKS AND UNCERTAINTIES:

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the value of investment securities could occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
