INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants of
The Newark Group, Inc. Salaried Employees' Pension Plan

We were engaged to audit the accompanying statements of net assets available for benefits of The Newark Group, Inc. Salaried Employees' Pension Plan (the "Plan") as of April 30, 2012 and 2011, the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedules of assets (held at end of year) and reportable transactions as of and for the year ended April 30, 2012. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 3, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of April 30, 2012 and 2011, and for the years ended April 30, 2012 and 2011, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements, but are required by the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE NEWARK GROUP, INC. SALARIED EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED APRIL 30, 2012 AND 2011

1. DESCRIPTION OF THE PLAN

The following description of The Newark Group, Inc. Salaried Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for more complete information.

General—The Plan is a defined benefit, noncontributory pension plan established as of May 1, 1976, for certain salaried employees of The Newark Group, Inc. (the "Company," "Plan Sponsor," or "Employer") and participating affiliates. The Plan is administered by the Plan Committee (the "Committee"). Members of the Committee are responsible to, appointed by, and serve at the discretion of the Board of Directors of the Company. The Committee has the exclusive right to interpret the Plan, establish rules for administration of the Plan, and to decide any and all matters arising in connection with interpretation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility—Effective May 1, 2006, participation in the Plan was discontinued for employees hired or rehired by the Company on or after that date. Pursuant to an amendment effective December 31, 2011, benefit accruals under the Plan were frozen. Compensation earned after December 31, 2011 will not be recognized by the Plan. Service under the Plan will continue to be recognized for purposes of vesting, eligibility for an early retirement pension and eligibility for a single lump sum payment. Effective January 1, 2012, participants were eligible for an additional Company contribution in the Newark Group, Inc. 401(k) Plan for Salaried Employees.

Pension Benefits—The Plan provides for normal, early and late retirement benefits as further discussed in the Plan document. Benefits are calculated based upon compensation levels. Benefit payment options include lump sum and monthly joint or survivor installments. An employee is 100% vested in his accrued benefit after completion of five years of service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation—The accompanying financial statements have been prepared on the accrual basis of accounting.

Subsequent Events—The Plan evaluated subsequent events through February 13, 2013, which is the date the financial statements were available to be issued.

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

All security transactions are accounted for on the date the securities are purchased or sold (trade-date basis). Interest and dividend income is recorded on the accrual basis. Dividends, which include capital gain distributions, are accrued as of the ex-dividend date. The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities, and actuarial present value of accumulated Plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Benefit Payments to Participants—Benefit payments to participants are recorded upon distribution.

Expenses—Administrative expenses of the Plan are paid by the Plan to the extent not paid by the Plan Sponsor as provided in the Plan document.

3. INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, State Street Bank and Trust Company, the trustee of the Plan has certified the completeness and accuracy of all investments and related investment activity in the accompanying statements of net assets available for benefits as of April 30, 2012 and 2011, the statements of changes in net assets available for benefits for the years ended April 30, 2012 and 2011, and the accompanying supplemental schedules of assets (held at end of year) and reportable transactions as of and for the year ended April 30, 2012.

4. INVESTMENTS

For the years ended April 30, 2012 and 2011, the investments in the Plan (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$4,317,046 and \$13,671,674, respectively, as follows:

Description	2012	2011
Common collective trusts	5,633,472	11,443,801

*Investment did not represent 5% of net assets available for benefits as of April 30, 2011.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification*, (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability, or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In January 2010, the FASB issued ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. FASB ASU No. 2010-06, among other things, requires purchases, sales, issuances, and settlements be presented on a gross basis for level 3 measurements and is effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Adoption of FASB ASU No. 2010-06 did not have a significant impact on the Plan's financial statements.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2012 and 2011.

Mutual funds – Valued at the net asset value (NAV) of shares held by the Plan at year end. As these mutual funds are held in a trust, and the Plan does not directly invest these funds, they are therefore shown as a Level 2 investment.

Common collective trust – The respective fair values of the common collective trust investments are determined by reference to the funds' underlying assets. Units held in collective trusts are valued based on the market prices of the underlying investments in the funds at year-end.

Common stocks – Valued at the closing price reported on the active market on which the individual securities are traded.

Massachusetts Fidelity Trust Company is the trustee of the common collective trust investments. Pursuant to the trust agreement for the common collective trust, withdrawals from the Plan will be made no later than 5 business days for single sum withdrawals, 31 days for periodic benefit payments and 31 days for withdrawing the Plan's entire interest following the trustee's receipt of the written withdrawal request.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the fair value hierarchy for the balances of the assets of the Plan measured at fair value as of April 30, 2012 and April 30, 2011:

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan Administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended April 30, 2012, there were no significant transfers in or out of levels 1, 2 or 3.

6. FUNDING POLICY

All contributions to the Plan are made by the Company acting upon the advice of the actuary for the Plan. The Company intends to make contributions in an amount determined by actuarial calculations, which are at least sufficient to meet the minimum funding requirements of ERISA. For 2012 and 2011, the Company met the minimum funding requirements of ERISA.

7. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their estimated accrued benefits as of the valuation date. Benefits payable under all circumstances--retirement, death, disability, and termination of employment--are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Diversified Retirement Corporation ("Diversified") (formerly, Diversified Investment Advisors, Inc.), and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of the latest valuation date is presented below:

	<u>April 30,</u> <u>2011</u>
Vested benefits:	
Participants currently receiving payments	\$ 36,993,867
Other participants	<u>54,020,849</u>
Total vested benefits	91,014,716
Nonvested benefits	<u>318,061</u>
Total	<u>\$ 91,332,777</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended April 30, 2011, are as follows:

Actuarial present value of accumulated plan benefits – April 30, 2010	<u>\$ 86,775,716</u>
---	----------------------

Increase (decrease) during the year attributable to:	
Interest accumulated	5,106,782
Benefits paid	(3,374,523)
Benefits accrued and actuarial experience	2,629,516
Assumption changes	<u>195,286</u>
Net increase	<u>4,557,061</u>
Actuarial present value of accumulated plan benefits – April 30, 2011	<u>\$ 91,332,777</u>

The significant assumptions underlying the actuarial computations at April 30, 2011 are as follows:

- a. Discount Rate— 6.00%.
- b. Rates of mortality— Static Mortality Table.
- c. Rates of turnover—T-1 turnover rates.
- d. Retirement—Normal age of retirement - Age 65.
- e. Salary increases—2.5%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

8. FEDERAL INCOME TAX STATUS

Subsequent to year end, the Internal Revenue Service has determined and informed the Company by a letter dated November 7, 2012, which was issued subject to an amendment executed November 21, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of April 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. RELATED PARTY TRANSACTIONS

The Plan's investments primarily consist of mutual funds and common collective trusts. State Street Bank and Trust Company is the trustee of the Plan's assets, Diversified Retirement Corporation is the Plan's recordkeeper and actuary, Massachusetts Fidelity Trust Company is the trustee of the common collective trust investments and is an affiliated company of Diversified Retirement Corporation, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the Plan's

trustee, recordkeeper and actuary were \$164,430 and \$220,189 for the Plan years ended April 30, 2012 and 2011, respectively.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at April 30, 2012 may not necessarily be indicative of amounts that could be realized in a current market exchange.

11. MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity and thus not separately identifiable as an expense.

12. PENSION PROTECTION ACT

The Pension Protection Act (the "Act") included many provisions and numerous revisions to rules surrounding funding for defined benefit plans that may significantly increase required contributions for underfunded plans. The Act established new minimum funding standards and limited benefit increases and accruals for underfunded plans. Plans with a funding percentage below 80% are required to implement certain benefit limitations such as restricting lump-sum payments and restricting the plan from amending the plan to enhance benefits. Further limitations such as freezing the accrual of all future benefits is required for plans with a funding percentage below 60%. Additionally, pursuant to the Act, each year actuaries are required to certify to a plan's funded percentage. The Plan received such certification for the Plan's Adjusted Funding Target Attainment Percentage ("AFTAP"), which is one way of measuring the funded status of a plan using actuarial assumptions mandated by the IRS, and the actuary determined that the AFTAP for the Plan year beginning May 1, 2011 is 91.49%.

13. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document. To the extent that any assets remain after satisfying all benefit obligations under the Plan, such excess assets will revert to the Company.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination, subject to a statutory ceiling on the amount of an individual’s monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Upon termination of the Plan, participants would be 100% vested.

14. SUBSEQUENT EVENT

Historically, Diversified has been part of the Transamerica family of companies. In December 2012, the Plan Sponsor was notified that Diversified will be changing its name to Transamerica Retirement Solutions.

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return (at the valuation interest rate) over the actual return on the market value (including employer contributions receivable for any given year).

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).
