NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Retail Concepts, Inc. 401(K) Plan (the Plan) was adopted effective January 1, 1986 to establish a savings and investment plan for the exclusive benefit of the employees of Retail Concepts, Inc. (the Company) and their beneficiaries. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Presentation - The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States (GAAP). Interest and dividend income are recognized when earned.

Estimates - The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for several investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Valuation of Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statement of changes in net assets available for plan benefits.

The investment contracts included in common collective trust funds are presented at fair value on the statements of net assets available for benefits. The investments in fully benefit-responsive investment contracts are stated at contract value which is equal to the principal balance plus accrued interest. An investment contract is generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. The fair value of fully benefit-responsive investment contracts is calculated using a discounted cash flow model which considers recent bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio securities. The statements of net assets available for plan benefit present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Benefit-Responsive Fund - The Invesco Stable Asset Fund invests primarily in investment contracts that are fully benefit-responsive and provide that Plan participant-initiated withdrawals permitted under the Plan will be paid at contract value. These investment contracts have two components: (1) a portfolio of securities or underlying assets and (2) a wrap contract. Pursuant to the contract, the issuer of the contract (wrap provider) undertakes to repay the principal amount deposited plus accrued interest less expenses to fund participant-directed withdrawals, transfers and loans. The crediting rate of the investment contract is a function of the relationship between the market value, yield and duration of the underlying assets versus the contract value. If the positive adjustment for the portion of net assets attributable to fully benefit-responsive investment contracts from fair value to contract value increases, the crediting rate at the next reset date will be negatively impacted and vice versa. Interest rate change is a key factor that can influence future crediting rates because it impacts the value, yield and duration of the underlying securities.

The net weighted average yield earned, which is different from the interest rate credited to participants, by the entire fund was 2.04% and 3.74% for the years ended July 31, 2012 and 2011, respectively. The net weighted interest rate credited to participants in the funds was 1.62% and 1.08% for the years ended July 31, 2012 and 2011, respectively.

Investment contracts held by the Invesco Stable Asset Fund and SSGA Stable Asset Fund are fully participating contracts. In a fully participating contract, the asset and liability risks may be transferred from the wrap provider to the Invesco Stable Asset Fund and SSGA Stable Asset Fund in the event of a termination or non-participant directed withdrawal, transfer or loan, or the occurrence of certain contract-specific termination provisions. The risk of these events happening is not probable.

Notes Receivable from Participants - GAAP requires that loans to participants be reported as a receivable from participants at the unpaid principal balance plus any accrued but unpaid interest.

Federal Income Tax - The Company adopted a non-standardized prototype 401(k) and profit sharing plan (the "Prototype Plan") with deferral arrangements. The Prototype Plan received a favorable opinion letter from the Internal Revenue Service on November 6, 2001, which stated that the Prototype Plan and related trust constitutes a qualified trust under Section 401(b) of the Internal Revenue Code and is therefore, exempt from federal income taxes. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, the Plan Administrator believes the Plan was qualified and the related trust was tax-exempt as of July 31, 2012.

NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of July 31, 2012, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the fiscal year 2009 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

Subsequent Events - The Company has evaluated subsequent events through January 30, 2013, the date the financial statements were available to be issued. No subsequent events occurred, which require adjustment or disclosure to the financial statements at July 31, 2012.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation - An employee is eligible to become a participant in the Plan after completing 800 hours of service within the first six months of employment and having attained the age of 21 or after being credited with one year of service and having attained the age of 21. Upon becoming eligible, the employee is automatically enrolled in the Plan with 2% of compensation deferred from each payroll.

Contributions - Participants may elect to make contributions to the Plan in an annual amount ranging from 0% to 90% of their compensation. Contributions are made through authorized payroll reductions. These contributions by individual employees are limited to $16,500 in fiscal 2012. This limitation is adjusted periodically to reflect cost-of-living increases. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions ($5,500 for fiscal 2012).

For each Plan year, the Company may elect to contribute a matching contribution equal to a certain percentage of each participant's contribution. For the year ending July 31, 2012, the employer elected to make a matching contribution amounting to 50% of each participant's deferral up to 6% of each participant's compensation. The Company may also make an additional contribution, in an amount determined solely at the discretion of the Directors. Such additional discretionary contributions, if any, are allocated pro rata to all participants who fulfill the participation eligibility requirements at the Plan year end based upon the proportion of the participant's compensation to the total compensation of all eligible participants. There was no additional discretionary contribution for the year ended July 31, 2012.

NOTE B PLAN DESCRIPTION (CONTINUED)

Vesting - A participant is immediately fully vested with respect to the portion of his or her account attributable to participant contributions. A participant becomes fully vested in Company contributions upon the earlier of: (1) six years of service or (2) attainment of age 65. Vesting of 20% of Company contributions occurs upon two years of service, 40% upon three years of service, 60% upon four years of service, 80% upon five years of service and 100% upon six years of service.

Forfeitures of account balances not fully vested are applied to reduce Company matching contributions. Forfeitures amounting to $6,130 were used to reduce Company matching contributions during the year ended July 31, 2012. For the year ended July 31, 2012, forfeitures amounting to $5,828 will be carried forward to reduce future employer contributions.

Forms of Benefits - Distributions from the Plan will generally be made in one lump-sum payment. If the amount payable is $1,000 or less, the participant may receive a lump sum distribution as soon as feasible following the date of termination. If the amount payable is greater than $1,000 but less than $5,000, the participant's vested account balance will be directly rolled over as soon as practical after notice to the participant into an individual retirement account maintained by an entity selected by the Company. If the amount payable is greater than $5,000, the participant must give written consent before the distribution can be made. Participants may elect to receive installments over a period of not more than his or her assumed life expectancy.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 limited to 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund and participant loans receivable. Loan terms range from 1 to 5 years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. Interest rates on loans outstanding at July 31, 2012 range from 4.25% to 9.25%. Principal and interest is paid ratably through monthly payroll deductions.

Investments - Each participant directs the investment of their account into any of the investment options designated by the Plan Administrator. Each participant account is credited with the participant's contribution, the Company's contributions, and a pro rata share of the earnings of each fund in which the participant has invested.

Administration - The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses were paid by the Company for the year ended July 31, 2012.

Plan Termination - The Company has the right under the Plan to terminate the Plan subject to provisions set forth in ERISA. Upon termination, all participants would become fully vested in their accrued benefits as of the date of termination.

NOTE D FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices in active or inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during fiscal 2012 and 2011.

Registered investment companies are valued at the net asset value of shares held by the Plan at year end.

The fair value of the investments in common/collective trusts is determined by each fund's trustee based on the fair value of the underlying securities within the fund, which represents the net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D FAIR VALUE DISCLOSURES (CONTINUED)

The fair values of investments are categorized as follows at July 31, 2012 and 2011:

NOTE E PARTIES-IN-INTEREST

The Plan invests in various funds managed by State Street Global Advisors. The Plan Sponsor has approved of these investment options.
