Lexi-Comp, Inc. 401(k) Plan

Notes to Financial Statements April 16, 2012 and December 31, 2011 and 2010

Note 1 - Plan Description

The following description of Lexi-Comp, Inc. 401(k) Plan (the "Plan") provides only general information prior to termination. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Termination - On May 27, 2011, the plan sponsor (Lexi-Comp, Inc.) was acquired by a strategic buyer. On April 16, 2012, the Plan was merged into the buyer's plan, the remaining plan assets were transferred out, and then the Plan was terminated. Participants with nonvested account balances as of the termination became 100 percent vested.

General - The Plan is a defined contribution plan covering all full-time employees of Lexi-Comp, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 100 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

On January 1, 2011, the Company amended the Plan to allow automatic employee deferrals of 3 percent of compensation upon meeting eligibility requirements to participate in the Plan unless the participant elects otherwise. Further, if elected, the automatic employee deferral percentage will increase annually by 1 percent and is not to exceed 10 percent of compensation.

The Plan provides employer-matching contributions of 100 percent of the participant's contribution not to exceed 1 percent of the employee's compensation deferred plus 50 percent up to an additional 5 percent of the employee's compensation. Participants are eligible for the matching contribution if they have worked at least 1,000 hours during the plan year, are employed at the end of the plan year, and make salary deferrals into the Plan during the year.

The Company remitted certain 2010 contributions to the Plan after the Department of Labor's required timeframe. The Company remitted these contributions in 2010 and 2011; however, lost earnings related to the late contributions have not been remitted.

There were no employee and employer contributions into the Plan during 2012.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Lexi-Comp, Inc. 401(k) Plan

Notes to Financial Statements April 16, 2012 and December 31, 2011 and 2010

Note 1 - Plan Description (Continued)

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions, employer-matching contributions, and any income or loss thereon.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan. Due to plan termination, the forfeited account balance was \$0 at April 16, 2012. At December 31, 2011, forfeited account balances totaled \$1,420.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. In-service distributions from a participant's account are available to employees over the age of 59 1/2.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by ING Life Insurance and Annuity Company or its affiliates. ING Life Insurance and Annuity Company is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for its unallocated investment contract, which is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the unallocated investment contract is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. All other investments are valued based on quoted market prices. See Note 7 for additional information.

Lexi-Comp, Inc. 401(k) Plan

Notes to Financial Statements April 16, 2012 and December 31, 2011 and 2010

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

New Accounting Pronouncement - In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. The standard clarifies existing fair value measurement and disclosure requirements and changes existing principles and disclosure guidance. Clarifications were made to the relevancy of the highest and best use valuation concept and measurement of an instrument classified in an entity's stockholder's equity. Changes to existing principles and disclosures included measurement of financial instruments managed within a portfolio, the application of premiums and discounts in fair value measurement, and additional disclosures related to fair value measurements. The updated guidance and requirements are effective for financial statements issued for the first annual period beginning after December 15, 2011. The adoption of this standard did not have a material effect on the Plan's financial statements.

Administrative Expenses - Various administrative costs are paid by the Company.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including February 8, 2013, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

ING Life Insurance and Annuity Company (the "Custodian") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 5 - Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Form 5500:

	2011	2010
Net assets available for benefits per the financial statements	\$ 6,056,010	\$ 5,946,290
Excess participant contributions to be refunded	-	30,201
Contribution receivable	(321,263)	(263,430)
Net assets available for benefits per Form 5500	<u>\$ 5,734,747</u>	<u>\$ 5,713,061</u>

There was no difference in net assets available for benefits per the financial statements and Form 5500 at April 16, 2012.

The following is a reconciliation of contribution revenue per the financial statements at April 16, 2012 and December 31, 2011 to Form 5500:

	April 16, 2012	December 31, 2011
Contribution revenue per the financial statements	\$ -	\$ 1,119,320
Add (subtract) contribution receivable at December 31, 2011	321,263	(321,263)
Add contribution receivable at December 31, 2010	-	263,430
Subtract rollover contributions at December 31, 2011	-	(69,075)
Contribution revenue per Form 5500	<u>\$ 321,263</u>	<u>\$ 992,412</u>

The 2011 rollover contributions noted above totaling \$69,075 were recorded as other income on the 2011 Form 5500.

In addition to the difference between contribution revenue per the financial statements and Form 5500 noted above, the net increase in net assets available for benefits for the year ended December 31, 2011 per the financial statements differs from the amount reported on Form 5500 by \$30,201. This represents the 2010 excess participant contributions to be refunded that have been recorded on an accrual basis for financial statement purposes and on a cash basis for Form 5500.

Lexi-Comp, Inc. 401(k) Plan

Notes to Financial Statements April 16, 2012 and December 31, 2011 and 2010

Note 6 - Investment Contracts

The Plan invests in a benefit-responsive insurance contract with ING Life Insurance and Annuity Company (ING). ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The insurance contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 2 percent. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision, (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan, or (iv) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The insurance contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the nondefaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract, a material misrepresentation, or a material amendment to the Plan agreement. The issuer may be in default if it breaches a material obligation under the insurance contract, makes a material misrepresentation, has a decline in its long-term credit rating below a threshold set forth in the contract, or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement insurance contract, withdrawing plans may experience losses if that value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an insurance contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each issuer.

Lexi-Comp, Inc. 401(k) Plan

Notes to Financial Statements April 16, 2012 and December 31, 2011 and 2010

Note 6 - Investment Contracts (Continued)

Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If an insurance contract terminates due to a decline in the ratings of the issuer, the issuer may be required to pay to the Plan the cost of acquiring a replacement contract (i.e., replacement cost) within the meaning of the contract. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

As described in Note 2, because the insurance contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the insurance contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

	April 16, 2012	December 31, 2011	December 31, 2010
Average yields for the insurance contract:			
Based on actual earnings	2.03%	1.93%	2.15%
Based on interest rate credited to participants	2.03%	2.00%	2.15%

Note 7 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2011 and 2010 and the valuation techniques used by the Plan to determine those fair values. The Plan had no assets outstanding at April 16, 2012.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Lexi-Comp, Inc. 401(k) Plan

Notes to Financial Statements April 16, 2012 and December 31, 2011 and 2010

Note 7 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs for the unallocated insurance contract include specific terms and contractual provisions outlined in the contracts including the effective interest rate and crediting rate of issuer.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2011

Note 7 - Fair Value Measurements (Continued)

Changes in Level 3 assets measured at fair value on a recurring basis for the period from January 1, 2012 through April 16, 2012 and for the year ended December 31, 2011 are as follows:

	Unallocated Insurance Contract
Balance at January 1, 2012	\$ 142,059
Purchases	14,422
Total realized gains	2,561
Sales	(29,744)
Transfers out of the Plan	(129,298)
Balance at April 16, 2012	<u>\$ -</u>
	Unallocated Insurance Contract
Balance at January 1, 2011	\$ 25,975
Purchases	112,940
Total realized gains	1,783
Sales	(3,704)
Total unrealized gains	5,065
Balance at December 31, 2011	<u>\$ 142,059</u>

For the Level 3 assets held by the Plan from January 1, 2012 through April 16, 2012, realized gains recognized in the statement of changes in net assets relate to interest totaling \$2,571. For Level 3 assets held by the Plan from January 1, 2012 through April 16, 2012, no unrealized gains or losses were recognized.

Of the Level 3 assets still held by the Plan at December 31, 2011, the unrealized gains for the year ended December 31, 2011 were \$5,065, which represents the adjustment between contract and fair value. Realized gains recognized in the statement of changes in net assets relate to interest totaling \$1,783.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets. As a result, the unrealized gains and losses for these assets presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Notes to Financial Statements April 16, 2012 and December 31, 2011 and 2010

Note 7 - Fair Value Measurements (Continued)

The Plan's policy is to recognize transfers in and transfers out of the Level 1, 2, and 3 fair value classifications as of the end of the reporting period. During the period from January 1, 2012 through April 16, 2012 and the year ended December 31, 2011, there were no significant transfers between Levels 1, 2, and 3.
