Note 1 - Description of Plan

The following brief description of the Tendril Networks, Inc. 401(k) Plan (Plan) is provided for general information purposes only. Participants and all others should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering qualified employees of Tendril Networks, Inc. (Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

All employees, except for union employees and nonresident aliens, as defined, are eligible to participate in the Plan if they have completed one month of service and are 18 years of age.

Entry Date

Employees may enter the Plan on the first day of the month coinciding with or following the date that eligibility requirements are satisfied.

Contributions

Participants may contribute up to 75% of their annual pretax compensation, as defined in the Plan Document. Contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows participants to designate contributions as Roth 401(k) contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Company may elect to make a discretionary profit sharing contribution as outlined in the Plan Document. However, no such discretionary contributions were made for the year ended September 30, 2012.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's discretionary profit sharing contribution, and charged with an allocation of Plan earnings or losses and expenses. Allocations are based on participant’s earnings or account balances, as defined by the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investment Options

Upon enrollment into the Plan, a participant may direct deferrals and Company contributions in any of the funds offered by the Plan. Participants may change their investment options daily.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Vesting is based on years of credited service as set forth in the following table. There have been no Company contributions since inception of the Plan.

Participant's Years of Service	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000, reduced by the highest outstanding loan balance in the previous twelve months, or 50% of their vested account balance. A participant may not have more than two outstanding loans at any one time. The loans are secured by the balance in the participant's account and bear interest at a rate of prime plus one percent at the time funds are borrowed. Principal and interest is paid ratably through payroll deductions over a period not to exceed five years, unless proceeds of the loan were used to acquire the participant's residence, in which case the loan may have a longer repayment term. A participant may have no more the two outstanding loans at any one time.

Payment of Benefits

Participants may elect to receive either a lump-sum amount equal to the value of their vested account balance or partial withdrawals or installments, as defined in the Plan Document upon retirement, termination, death or disability. For termination of service before retirement, the Plan distributes to the participant the entire vested benefit of less than $5,000 in a lump sum payment as soon as administratively practicable after the date of termination. Participants may make withdrawals from their elective accounts at age 59 1/2 or upon notice of hardship, subject to certain restrictions.

Death Benefits

The designated beneficiary is entitled to a death benefit distribution equal to 100% of the participant's account balance.

Other

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, no further contributions will be made to the Plan and all amounts credited to participant accounts will become 100% vested.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as those held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan Document.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Fees

Administrative expenses are paid by the Plan or the Plan Sponsor as provided in the Plan document.

Note 3 - Investments

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of September 30, 2012 and 2011 are as follows:

	2012	2011 (compiled)
American Funds American Balanced R2	$ 444,731	$ 301,675

American Funds Europacific R2	*	81,938

* Investment balance less than 5% of the Plan's net assets for the applicable year

During the year ended September 30, 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	2012
Mutual funds	$ 26,983

The classification of investment earnings reported above and in the statement of changes in net assets may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Note 4 - Fair Value Measurements

Topic ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the authoritative guidance are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2012 and 2011.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Money market mutual fund: Valued at NAV of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of September 30, 2012 and 2011:

	2012			
	(Level 1)	(Level 2)	(Level 3)	Total
Money market mutual fund	$ 150,496	$ -	$ -	$ 150,496

Total assets at fair value	$ 1,396,103	$ -	$ -	$ 1,396,103

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classifications of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended September 30, 2012, there were no significant transfers in or out of levels 1, 2, or 3.

Note 5 - Information Certified by the Plan Custodian

The Plan Administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified by MG Trust Company, LLC.

The Plan custodian has certified its statement of accounts as of September 30, 2012 and for the year ended September 30, 2012. The statement of accounts includes beginning and ending balances of investments held, notes receivable from participants, and detail of all transactions during the period, including investment earnings and interest income on notes receivable from participants.

Note 6 - Tax Status

The Plan uses a prototype plan document sponsored by Sungard Business Systems LLC. Sungard Business Systems LLC received an opinion letter from the IRS, dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS and the prototype has been amended since receiving the opinion letter. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the plan, and has concluded that as of September 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by MG Trust Company, LLC. MG Trust Company, LLC is the custodian as defined by the Plan, and therefore, related transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan to MG Trust Company, LLC for investment management services were included as a reduction of the return earned on each fund.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 - Nonexempt Party-in-Interest Transaction

The Company remitted participant contributions in the amount of $36,099 to the custodian during the year later than required by the Department of Labor (DOL) Regulation 2510.3-102. The Company corrected the full amount outside of the VFCP (Voluntary Fiduciary Compliance Program). Affected participant accounts were credited with the amount of investment income that would have been earned had the participant contributions been remitted on a timely basis.

Note 10 - Subsequent Events

In December 2012, the Company reduced their work force by approximately 50%. The Plan will evaluate the reduction of the workforce for a partial plan termination during the year ending September 30, 2013. The Plan has not had employer contributions since inception, therefore, all participants are already 100% vested in their respective accounts.

The Plan sponsor has evaluated subsequent events through January 16, 2013, the date which the financial statements were available to be issued.
