NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Accra Manufacturing, Inc. 401(k) Plan ("the Plan") provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan established for the benefit of eligible employees of Accra Manufacturing, Inc. ("the Company"). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective June 30, 2012, the Plan merged into another defined contribution retirement plan, the Precision Castparts Corp. 401(k) Retirement Savings Plan, which is sponsored by Precision Castparts Corp, ("PCC"). PCC acquired the Company in 2011 and the Company's Board of Directors approved the Plan's merger into PCC's plan. Assets related to accounts of participants that had been included in the Plan were fully transferred into the Precision Castparts Corp. 401(k) Retirement Savings Plan on June 30, 2012, which effectively terminated the Plan.

Eligibility and Vesting

Prior to termination of the Plan, employees who were not covered under a collective bargaining agreement that had attained age 18 and completed six months of service were eligible to participate in the Plan. Employee contributions and related net earnings were 100% vested at all times. Employer contributions and related net earnings became vested to the participant based on the following schedule of years of service:

Completed Years of Service	Percentage Vested
Less than 2	0%
2	20
3	40
4	60
5	80
6 or more	100

Additionally, a participant became 100% vested when the participant reached normal retirement age (65), died or became disabled while in the service of the Company.

Participants were immediately vested (100%) in employer contributions when the Plan merged into the PCC plan.

Contributions

Prior to termination of the Plan, participants could voluntarily elect to defer up to 100% of eligible annual compensation to the Plan, subject to the applicable limits of the Internal Revenue Code. Participants could also contribute amounts representing distributions from other qualified plans ("rollovers from other qualified plans").

Prior to termination of the Plan, the Company made matching contributions to the Plan equal to 50% of the participant's contribution up to 10% of their compensation. The Company had the option to make additional discretionary contributions. All contributions made by the Company for the period from January 1, 2012 to June 30, 2012, were matching contributions.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of the Company's contribution, Plan earnings and losses, and administrative expenses. Allocations of earnings and losses were based on a participant's account balance. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Participants directed their proportionate share (vested and non-vested) of Plan assets to a variety of investment funds.

Notes Receivable from Participants

Prior to termination of the Plan, participants could borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans were secured by the balance in the participant's account and bore interest at a rate commensurate with local prevailing rates determined by the Plan administrator on the date of the loan (resulting in rates that ranged from 4.25% to 7.00% at December 31, 2011). Loan terms could not exceed five years unless the loan was for the purchase of a primary residence. Loan repayments were generally required through payroll deductions each pay period.

As of December 31, 2011, loans outstanding to three participants comprised 48% of total loans to participants.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant or his/her designated beneficiary could elect to withdraw his/her entire account balance, but the withdrawal could only be in the form of a lump sum payment. Distributions could also be made during a participant's employment upon attainment of age 59 1/2 or under certain hardship provisions as defined within the Plan document.

Forfeitures

Provisions of the Plan provided that upon termination of employment, participants were entitled to receive their vested portion of the net assets of the Plan. Any amounts not vested at the time of termination were forfeited and available to reduce future employer contributions or to pay administrative expenses of the Plan. Forfeitures were \$1,518 for the period from January 1, 2012 to June 30, 2012. No forfeitures were used to reduce employer contributions or to pay administrative expenses for the period from January 1, 2012 to June 30, 2012. Forfeitures totaling \$5,840 were included in the transfer of Plan assets into PCC's plan on June 30, 2012.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan's management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Contributions

Contributions from participants are recorded in the period in which they are withheld from the participant's compensation. Matching contributions from the Company are recorded in the period in which the related participant contributions are recorded.

Notes Receivable from Participants

Notes receivable from participants are stated at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Administrative expenses relate to Plan administration and custodianship of investments. The majority of administrative expenses are paid by the Company as allowed by the provisions of the Plan.

Investment Valuation and Income Recognition

Investments are stated at fair value. Pooled separate accounts consist of a wide variety of underlying investments (primarily mutual funds). They are valued using the Net Asset Value ("NAV") provided by administrators of the pooled separate accounts. The NAV is based on the fair value of the underlying assets, less any liabilities, then divided by the number of shares outstanding. The underlying investments of the pooled separate accounts are generally determined based on quoted prices in an active market. Investments in insurance company general accounts are valued by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Fair Value Measurements

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement determined based on assumptions that market participants would use in pricing an asset or liability. There are three levels which prioritize the inputs used in measuring fair value as follows:

- Level 1: Observable market inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Observable market inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs where there is little or no market data, which require the reporting entity to develop its own assumptions.

An asset's or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following table presents information about the Plan's assets that have been measured at fair value on a recurring basis as of December 31, 2011 (none at June 30, 2012), and indicates the classification by level of input within the fair value hierarchy described above:

None of the Plan's investments had any funding commitments. All Plan investments could be redeemed on a daily basis.

The table below is a summary of changes in the fair value of the Plan's Level 3 assets (insurance company general accounts) for the period from January 1, 2012 to June 30, 2012:

Subsequent Events

The Plan has evaluated subsequent events through the date the financial statements were available to be issued, which was the same date as the independent auditors' report.

Note 3. Plan Tax Status

The Plan adopted a non-standardized prototype sponsored by its third party administrator. The prototype received a favorable determination from the Internal Revenue Service dated January 15, 2010. The Company had not received a determination letter as to the qualified status of the Plan's adoption agreement. However, the Plan administrator believed the Plan was designed and being operated in compliance with the applicable requirements of the Internal Revenue Service.

The Plan's Form 5500 returns for the last four years are subject to examination by federal authorities.

Note 4. Investments

The following pooled separate account investments at December 31, 2011 (none at June 30, 2012), represent 5% or more of the Plan's net assets available for benefits at that date.
