REPORT OF INDEPENDENT AUDITORS

To the Administrator and Participants of
Allied Philadelphia Union Pension Plan
Harvey, Illinois

We were engaged to audit the financial statements of the Allied Philadelphia Union Pension Plan (the "Plan") as of December 31, 2011 and for the year then ended, as listed in the accompanying contents page. These 2011 financial statements are the responsibility of the Plan's management. The statement of net assets available for benefits of the Plan as of December 31, 2010 and the related statement of changes in net assets available for benefits for the year then ended, was reported on by other auditors whose report dated October 13, 2011, disclaimed an opinion for the same reasons described in the following paragraph.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the 2011 financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2011 and for the year then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2011 financial statements as a whole. The form and content of the information included in the 2011 financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's funding target is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

The cushion amount is based on the funding target for minimum funding calculations.

Schedule SB, Part V — Summary of Plan Provisions**Plan Provisions****Benefits included or excluded**

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **IRC Section 436 benefit restrictions:** Not applicable for this valuation.
- **Late retirement increases:** Participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.

ALLIED PHILADELPHIA UNION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Allied Philadelphia Union Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined benefit pension plan covering substantially all eligible union employees of Philadelphia Plant of Allied Tube and Conduit Corporation (the "Company") who have met certain requirements as to length of service and age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective September 30, 2006, in anticipation of the plan to separate Tyco International Ltd. ("TIL") into three separate, unrelated publicly traded companies consisting of Covidien Ltd. ("Covidien"), TE Connectivity (formerly Tyco Electronics Ltd.), and TIL (the "Separation"), the Plan was amended to change the Plan Sponsor from Tyco International (US) Inc. to Citrine Management Corp. ("CMC"). On February 8, 2007, CMC changed its name to Tyco International Management Company ("TIMCO"). On June 29, 2007 TIL was separated into three unrelated publicly traded companies. TIMCO converted on August 13, 2010, from a Nevada corporation to a Nevada limited liability company. TIMCO's new legal name is Tyco International Management Company, LLC ("TIMCO LLC" or "Tyco"). TIMCO LLC was the Plan Sponsor of the Plan up to December 22, 2010.

On November 9, 2010, TIL announced that it entered into an investment agreement (the "Agreement") to sell a majority interest in its Electrical and Metal Products business to an affiliate of the private equity firm Clayton, Dubilier & Rice, LLC (the "Investor"). TIL formed a newly incorporated holding company, Atkore International Inc. ("Atkore"), to hold the Company's Electrical and Metal Products business. On December 22, 2010, the transaction closed and the Investor acquired shares of a newly-created class of cumulative convertible preferred stock of Atkore (the "Preferred Stock"). The Preferred Stock initially represented 51% of the outstanding capital stock (on an as-converted basis) of Atkore. The assets and liabilities relating to the participants of the Allied Harvey Union Pension Plan, the Allied Philadelphia Union Pension Plan, the T.J. Cope Pension Plan and the Unistrut Pension Plan, which were sold in the transaction above, continued to be a part of the master trust sponsored by Tyco ("Tyco Master Trust") as of December 31, 2010. On April 1, 2011, \$59,741,070 of assets relating to Atkore participants was transferred to a master trust established by Atkore ("Atkore Master Trust"). Accordingly, Atkore (the "Plan Sponsor") is currently the Plan Sponsor of the Plan.

Pension Benefits: Employees who are members of the United Steel Workers of America Local Union 404-38 formerly 7737-18, are 21 years of age and have completed the later of age 65 or five or more years of continuous service are entitled to annual pension benefits beginning at normal retirement age of 65 equal to the amount of their monthly benefits (based on their retirement date) multiplied by their credited service to their normal retirement date. The Plan permits early retirement at ages 55 through 64 for participants who have completed 15 years of service. Upon retirement, participants will receive their pension benefits in the form of a life annuity for single participants or a joint and survivor annuity for married participants. Participants may elect to receive a life annuity with a 5 or 10-year certain payment annuity.

Death and Disability Benefits: Participants who terminate employment due to total and permanent disability or spouses of vested participants who die may be entitled to receive benefits under this Plan.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Administrative and Investment Management Expenses: The Plan's trustee fees, insurance premiums, audit fees, and certain administrative and actuarial fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

Plan Administration: From January 1, 2010 to December 22, 2010, the Plan had an Administrative Committee and an Investment Committee. The Administrative Committee acts in the capacities of Plan administrator and Plan fiduciary. The Investment Committee acts in the capacity of Plan fiduciary. Committee members are appointed by the Board of Directors of TIMCO LLC. The Investment Committee appoints the investment managers to manage the assets of the Tyco Master Trust. After December 22, 2010 the Plan was administered by the Atkore Board of Directors.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's interest in the Tyco Master Trust and the Atkore Master Trust (collectively, the "Master Trusts") are reported at fair value. The Plan's allocated share of the Master Trusts' net assets is reflected in the statements of net assets available for benefits. Investment income (loss) from the Master Trusts reflected in the statement of changes in net assets available for benefits represents the Plan's allocated share of the Master Trusts' interest and dividend income, net appreciation (depreciation), in the fair value of the investments, and expenses.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded when earned on an accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits and the fair values of the Plan's interest in the Master Trusts.

Risks and Uncertainties: The Plan invested solely in the Master Trusts which invested in various investments. The underlying investments of the Master Trusts are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain underlying investments of the Master Trusts, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of certain underlying investments of the Master Trusts will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefit Payments: Benefits are recorded when paid.

NOTE 3 – INVESTMENTS – UNAUDITED INFORMATION

The Northern Trust Company, the trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to the Plan's investments included in the financial statements has been certified by them. This information has not been audited by independent accountants.

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits.

	<u>2011</u>	<u>2010</u>
Investments at fair value		
Interest in the Tyco Master Trust	\$ -	\$ 11,379,494
Interest in the Atkore Master Trust	11,749,285	-

During 2011 and 2010, the Plan's net investment gain in the Tyco Master Trust (including gains and losses on investments bought and sold, as well as held during the year and interest and dividend income) was \$412,623 and \$1,288,354, respectively. During 2011, the Plan's net investment loss in the Atkore Master Trust (including gains and losses on investments bought and sold, as well as held during the year and interest income) was \$255,333.

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. Transfers between hierarchy measurement levels are recognized by the Plan as of the beginning of the reporting period.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Master Trusts.

Plan interest in Tyco Master Trust: The fair value of the Plan's interest in the Tyco Master Trust reflects the Plan's interest in the fair value of the underlying net assets of the Tyco Master Trust.

Plan interest in Atkore Master Trust: The fair value of the Plan's interest in the Atkore Master Trust reflects the Plan's interest in the fair value of the underlying net assets of the Atkore Master Trust.

Cash and cash equivalents: Cash and cash equivalents primarily consists of a money market mutual fund. The fair value of the money market mutual fund is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Common stocks: The fair values of common stock investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Registered investment companies: The fair values of registered investment company investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs). Some registered investment companies have private open-ended mutual funds which are valued based on their net asset values, as reported by custodians of the registered investment companies and as supported by actual redemption prices (Level 2 inputs).

Corporate bonds: Corporate bonds represent corporate investment grade and high yield credit bonds ("Corporate credits"), as well as Asset Backed Securities ("ABS"). The Corporate credits are generally priced using the most recent bid prices or the average of recent bid and asked prices when available (Level 2 inputs). ABS are generally valued using matrix pricing through recognized financial models such as a single cash flow model, that incorporate data on interest rate movements, pass-thru securities markets, bid evaluations, and other pertinent data (Level 2 inputs).

U.S. Government securities: U.S. Government securities represent direct obligations of the U.S. government or its agencies. These securities are generally priced using recent bid prices or the average of recent bid and asked prices when available (Level 2 inputs). This category also includes mortgage backed securities ("MBS") issued by U.S. government agencies that are valued through matrix pricing models developed by sources considered by management to be reliable. Matrix pricing, which is a mathematical technique commonly used to price debt securities that are not actively traded, values debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs).

103-12 investment entities: The underlying assets in this pooled investment are valued individually by the custodian except that income and expenses are valued on the accrual basis. The value of the underlying assets are net of any expenses, charges, or other liabilities incurred or accrued by the pooled fund in accordance with procedures consistently followed and uniformly applied. The net value of the pooled fund assets are divided by the total number of units of the pooled fund in existence as of the relevant valuation date. The values are supported by actual redemption prices (Level 2 inputs).

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Collective trusts: Fair values of shares of collective trusts are based upon the net asset values of the funds reported by the fund managers as of the Plan's financial statement dates and recent transaction prices (Level 2 inputs). The investment strategies of the collective trusts held in the Master Trusts vary, with some holding money market funds, some holding diversified portfolios of domestic stocks and/or international stocks, and some holding short-term and/or medium-term corporate, government and government agency bonds. The various collective trusts seek to track or exceed various indices including the Barclays Aggregate Bond Index, Barclays U.S. Aggregate Government/Credit Long Index, Russell 1000 U.S. Equity Index, and the broad non-U.S. equity market. Each collective trust provides for daily or bi-monthly redemptions by the Plan with 1 to 2 day advance notice requirements, and has redemption prices that are determined by the fund's net asset value per share or per unit, as applicable. Included in the collective trusts are money market funds which are valued at the net asset value per share as quoted by such companies or funds as of the valuation date. The money market funds are institutional commingled funds. Although not traded on active markets the net asset value per share is observable. Cash is valued at the amounts deposited in the fund plus accrued interest (Level 1 inputs).

Partnerships/joint ventures: Partnership/joint venture interests are valued by the custodian based on the underlying assets which includes publicly traded common stock, commercial paper, futures, foreign exchange forwards and money market funds. Redemption value is based on current ownership percentage at the end of the calendar month. Redemption frequency is on a monthly basis, upon 15 days advance notice (Level 2 inputs).

Other investments: Includes swaps, municipal bond, and non-U.S government bonds, and sundry assets which are valued either by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or by third party pricing sources obtained by the custodian which may utilize models that incorporate pertinent data to determine pricing and non-U.S. sovereign debt securities, where the custodian will utilize available broker/dealer quotes (Level 2 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – MASTER TRUST (UNAUDITED)

As of December 31, 2010 and for the period January 1, 2011 through March 31, 2011 the Plan's sole investment was the Tyco Master Trust which was established for the investment of assets of the Plan and several other TIMCO LLC and affiliated companies' sponsored retirement plans. Each participating retirement plan has an undivided interest in the Tyco Master Trust. The assets of the Tyco Master Trust are held by Northern Trust Company ("Trustee") in one master trust investment account. At December 31, 2010, the Plan's interest in the net assets of the Tyco Master Trust was approximately 2%. Investment income and losses and administrative expenses relating to the Tyco Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

NOTE 6 – FUNDING POLICY

The Company's funding policy is to make all required contributions to the Plan in accordance with applicable pension laws and regulations. Such contribution amounts must adhere to or exceed the minimum funding requirements under ERISA, as determined by the Plan's actuary. Additional voluntary contributions (in excess of required minimum amounts) are periodically considered based on their individual merits. The Company's contributions to the Plan for the year ended December 31, 2011 satisfied the minimum funding requirements of ERISA. No Company contributions were necessary during 2010 in order to meet the minimum funding requires of ERISA. Participant contributions are not permitted under the Plan.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

ALLIED PHILADELPHIA UNION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 7 – PLAN TERMINATION (Continued)

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 8 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' years of service. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from the Mercer and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2010 were as follows:

Mortality: IRC Section 430(h)(3) prescribed separate static annuitant and non-annuitant mortality tables

Retirement age: Graded from age 55 to 65

Benefit settlement interest rate: 6.07% effective interest rate based on funding segment rates: 2.94% for first 5 years, 5.82% for next 15 years, and 6.46% for years after 20 years

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Total actuarial present value of accumulated plan benefits	<u>\$ 14,173,963</u>

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2010, is as follows:

Actuarial present value of accumulated plan benefits	
as of December 31, 2009	\$ 11,966,139
Increase (decrease) during the year attributable to:	
Change in actuarial assumptions	1,189,132

Net increase	<u>2,207,824</u>
Actuarial present value of accumulated plan benefits	
as of December 31, 2010	<u>\$ 14,173,963</u>

The changes in actuarial assumptions for the year ended December 31, 2010 are due to the use of the updated funding segment rates and IRS Prescribed Mortality table for 2011.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the plan, any party rendering service to the plan, the employer, and certain others. Amounts paid by the Plan to parties in interest included fees paid for investment management and actuarial services. Certain professional fees for the administration and audit of the Plan were paid by the Trust. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan holds a portion of its investments in collective trusts managed by the trustee of the Plan and Master Trust.

NOTE 10 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated December 12, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, Plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
