Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment Income: Investment income consists of interest, dividends, income from partnerships and net realized and unrealized gains and losses on investments.

Net Appreciation (Depreciation) in Fair Value of Investments: The net appreciation or deprecation in the fair value of investments consists of the change in the market value of investments.

Payment of Benefits: Benefits are recorded when paid.

Use of Estimates: The preparation of the Plan's financial statements requires the Plan administrator to make estimates and judgments that affect the reported statements of net assets and changes available for benefits. Such estimates relate primarily to the valuation of investments not traded on an established market. Actual results could differ from those estimates.

Reclassifications: Certain prior year amounts have been reclassified for comparative purposes.

NOTE D – FAIR VALUE MEASUREMENTS

The Plan has adopted FASB ASC 820-10, *Fair Value Measurements.* ASC 820-10 provides a framework for measuring fair value and expands required disclosure about fair value measurements of certain assets and liabilities. ASC 820-10 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820-10 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value, whereby level 1 uses quoted prices and active markets for identical assets or liabilities when determining fair market value; level 2 uses non active quoted prices for similar assets and liabilities that can be corroborated with market data; and level 3 uses unobservable information with little or no market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D – FAIR VALUE MEASUREMENTS-Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Cash and cash equivalents: Valued at the net asset value (NAV).

Securities, bonds and mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Partnership interest and real estate: Valued at the fair market value based on third party appraisal.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the investments at December 31, 2011 based on the inputs used to value them:

	Level 1	Level 2	Level 3	Total

NOTE E - TAX STATUS

The Plan has been reviewed by the Internal Revenue Service under their volume submitter program and has been determined to be acceptable under Section 401(a) of the Internal Revenue Code. The trustees of the Plan believe that the Plan is being operated in compliance with the applicable provisions of the Internal Revenue Code; therefore, no provision for income taxes has been included in the accompanying financial statements.

NOTE F - LOANS TO PARTICIPANTS

Loans to participants are limited to the lesser of (a) $50,000, or (b) one-half the balance of a participant's account. Interest is charged on all loans at the rate of five to nine and one quarter percent per annum. The repayment terms depend upon the amount originally borrowed, but in no event are they longer than five years. Upon a participant's termination, the full amount of the loan is due and payable.

NOTE G - ADMINISTRATION

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses for the Plan were paid directly by the Company during the years ended December 31, 2011 and 2010.

NOTE H - SUBSEQUENT EVENTS

In preparing the financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through July 31, 2012 and April 1, 2013 with respect to the Schedule of Assets Held for Investment, the date that the financial statements were available to be issued. The financial statements were re-issued on April 1, 2013 to provide additional detail for the participant and non-participant directed investments in the Schedule of Assets Held for Investment.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The Plan maintains operating cash accounts at one financial institution in the name of the plan and participant directed cash accounts are maintained at various institutions in the names of the participants.

Accounts are generally insured by the Federal Deposit Insurance Corporation (FDIC insured) up to $250,000. The Plan has not experienced any loss in such accounts. As of December 31, 2011, the uninsured balances were $1,803,053. The Plan believes it is not exposed to any significant credit risk on its cash balances.
