INDEPENDENT AUDITORS' REPORT

The Board of Directors
Remke Markets, Incorporated Employee Stock Ownership Plan

We have audited the accompanying statements of net assets available for benefits of Remke Markets, Incorporated Employee Stock Ownership Plan as of June 30, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended June 30, 2012. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of June 30, 2012 and 2011, and the changes in net assets available for benefits for the year ended June 30, 2012, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of June 30, 2012 and schedule of reportable transactions for the year ended June 30, 2012 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF PLAN:

The following description of the Remke Markets, Incorporated ("Company") Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan documents for a more complete description of the Plan's provisions.

General

The Company established the Remke Markets, Incorporated Employee Stock Ownership Plan effective December 29, 1995. The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Company.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock forfeited from terminated participant's non vested accounts. Only those non-highly compensated participants who are eligible employees of the Company who worked at least 500 hours during the plan year, who have an account balance and are employed on the last day of the plan year, will receive an allocation. If a participant dies, becomes disabled or reaches normal retirement age during the year, these minimum requirements are waived. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after six months of service, providing they worked at least 250 hours during such plan year, and have attained age sixteen.

Vesting

Participants are 100% vested when the age of normal retirement has been attained, or they die or become disabled while still an employee of the Company. Prior to normal retirement age, vesting in the remainder of their accounts is based on years of continuous service in accordance with the plan document. Participants become 100% vested after three years of service in shares contributed on or after July 1, 2007.

Voting rights

Each participant is entitled to exercise certain voting rights attributable to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. These voting rights are limited to corporate matters which involve the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of the Company, or such similar transaction. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant.

Payment of benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to the beneficiary or legal representative), becomes disabled or otherwise terminates employment with the Company. A participant may also take an in-service withdrawal once they reach normal retirement age. Distributions are made in cash.

Put option
Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put option price is representative of the fair market value of the stock.

The Employer will issue a "put option" to the Plan permitting the Plan to sell the Employer Securities to the Employer, at any time during two option periods, at the current fair market value. The first put option period runs for a period of at least 60 days commencing prior to the date of a distribution to a Participant. The second put option period runs for a period of at least 60 days commencing after the new determination of the fair market value of Employer Securities by the plan administrator. If the Plan exercises its put option, the Employer must purchase the Employer Securities at fair market value and make payment in a lump sum.

Diversification
Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Forfeitures
The Plan allocates participant forfeitures in the same ratio that each eligible non-highly compensated participant's compensation for the plan year bears to the total compensation of all eligible non-highly compensated participants for the plan year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates
The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment valuation and income recognition
The common shares of the Company are reported at fair value, which is determined by an annual independent appraisal. See Note 4 for discussion of fair value measurements.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade date basis. The Plan presents in its statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Payment of distributions
Distributions are recorded when paid.

Operating expenses
The Company pays all Plan administrative expenses.

Subsequent events
The Plan has evaluated subsequent events through March 15, 2013, the date the financial statements were available to be issued.

3. INVESTMENTS:

The Plan's investments, at June 30, are presented in the following table:

	2012	2011
Remke Markets, Inc. common stock shares	159,918	178,415
Cost	$ 3,422,457	3,956,860
Estimated fair market value	$ 2,777,768*	3,909,077*

* Exceeds 5% of net assets.

4. FAIR VALUE MEASUREMENTS:

Generally accepted accounting principles provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other that quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at June 30, 2012 and 2011.

Common stock: Valued at the year end price as determined by an annual independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of the company assets and liabilities.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2012 and 2011:

	Investments at fair value as of June 30, 2012			
	Total	Level 1	Level 2	Level 3
Remke Markets, Inc. common stock	$ 2,777,768	-	-	2,777,768
Total investments at fair value	$ 2,777,768	-	-	2,777,768

	Investments at fair value as of June 30, 2011			
	Total	Level 1	Level 2	Level 3
Remke Markets, Inc. common stock	$ 3,909,077	-	-	3,909,077
Total investments at fair value	$ 3,909,077	-	-	3,909,077

The following table sets forth a summary of changes in the fair value of the Plan's level 3 investments for the year ended June 30, 2012.

Beginning balance, July 1, 2011	$ 3,909,077
Realized gains/(losses), net	(129,122)
Unrealized gains/(losses) relating to instruments still held at the reporting date, net	(596,904)
Sales	(405,283)
Ending balance, June 30, 2012	$ 2,777,768

5. PARTY-IN-INTEREST TRANSACTIONS:

Administrative fees of the Plan are paid by the Company. The Company provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

6. PLAN TERMINATION:

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the plan trustee shall pay all liabilities and expenses of the trust fund.

7. INCOME TAX STATUS:

The Plan obtained its latest determination letter on June 14, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable sections of the Code. Although the Plan has been amended and restated since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of June 30, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for periods for years prior to 2008.

8. RISKS AND UNCERTAINTIES:

The Plan invests in common stock of the Company. This common stock is exposed to various risks, including a variety of risks associated with investing in an operating entity and the liquidity risk associated with investing in a private company. Due to the level of risk associated with the common stock, it is at least reasonably possible that changes could materially affect participants' account balances and amounts reported in the statements of net assets available for benefits.
