KEYSTONE-SENECA WIRE CLOTH COMPANY PENSION PLAN
FOR HOURLY EMPLOYEES AT BROOKHAVEN, MISSISSIPPI PLANT
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2012 AND 2011

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Keystone-Seneca Wire Cloth Company Pension Plan for Hourly Employees at Brookhaven, Mississippi Plant (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General - The Plan is a defined benefit plan established for the principal purpose of providing hourly employees of Keystone-Seneca Wire Cloth Company (the Company) at Brookhaven, Mississippi, with supplemental income upon retirement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 31, 2003, the Board of Directors of the Company froze participation and further accrual of benefits under the Plan.

Vesting - All participants are fully vested in their benefits.

Pension Benefits - Participants are entitled to monthly pension benefits beginning at normal retirement age (the later of age 65 or the fifth anniversary of joining the Plan) equal to the participant's years of credited service multiplied by an amount set forth in the plan agreement. This amount ranges from \$2 for certain participants who terminated prior to April 1, 1980, to \$14 for participants who retire after December 31, 1997. The normal form of benefit is a joint and 50% survivor annuity (life annuity for unmarried participants). Participants may elect to waive the 50% surviving spouse option and receive their pension benefits in the form of a straight-line annuity or a 100% surviving spouse option. If the present value of the participant's vested accrued benefit does not exceed \$5,000, such amount may be distributed in a lump-sum.

Participants are eligible for early retirement upon attaining age 55 with 10 years of credited service. Early retirement benefits are equal to the accrued normal retirement benefit reduced for retirement prior to age 65.

Death Benefits - If a vested participant dies before commencement of retirement benefits, the participant's surviving spouse will receive a death benefit in the form of a pre-retirement survivor annuity.

Disability Benefits - If an active participant with 15 or more years of service becomes totally and permanently disabled prior to age 65, the participant will receive a disability pension calculated in the same manner as a normal retirement pension.

Plan Termination - The Company intends to continue the Plan as long as necessary to pay accumulated plan benefits. However, the Company reserves the right to modify, amend or terminate the Plan at any time.

If termination of the Plan occurs, the rights of each participant to benefits accrued, to the extent funded, become non-forfeitable. Plan assets, after providing for expenses of administration, would be allocated to pay benefits to retirees or their surviving spouses, and vested former employees pursuant to applicable law. Any residual assets would be distributed to the Company.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Plan Termination (Continued)

The Plan is insured by the Pension Benefit Guaranty Corporation (the PBGC). In the event of Plan termination, the PBGC generally guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Should the Plan terminate, the payment of certain benefits not covered by the PBGC would depend on the sufficiency of the Plan's assets.

Party-in-Interest Transactions - The collective trust funds and certain mutual funds are managed by affiliates of The Northern Trust Company (Northern Trust). Northern Trust is the trustee of the Plan and, therefore, transactions related to these investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. At June 30, 2012 and 2011, the Plan held investments with a fair value of \$1,714,697 and \$1,455,790, respectively, in securities offered by parties related to Northern Trust.

Administrative expenses related to the Plan are paid from plan assets or by the Company at the discretion of the plan administrator. Fees paid for actuarial, auditing, investment advisory, and other services were paid by the Plan in 2012 and 2011. These fees rendered by parties-in-interest are based on customary and reasonable rates for services and are included as administrative expenses in the statements of changes in assets available for benefits.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accounts of the Plan are maintained on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Valuation of Investments and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan utilizes fair value measurements to record fair value adjustments to its investments and to determine fair value disclosures. Collective trust funds and mutual funds are recorded at fair value on a recurring basis. There were no other assets measured at fair value at June 30, 2012 or 2011.

The Plan classifies its investments at fair value in three levels based on the markets in which the investments are traded and the reliability of the assumptions used to determine fair value. Level 1 refers to securities valued using quoted prices in active markets for identical assets. Level 2 refers to securities not traded in an active market but for which observable market inputs are readily available. Level 3 refers to securities valued based on significant unobservable inputs. See Note 5 for more information regarding fair value of the Plan's investments.

The Plan's investment income is recorded as earned on the accrual basis, with dividend income recorded on the ex-dividend date. Net realized and unrealized gains include the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2012 AND 2011

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contributions - The employer makes minimum contributions in amounts sufficient to fund the Plan's target normal cost, any shortfall amortization payment and interest on both until the final contribution deadline. The minimum required contribution preserves any carryover or prefunding balance reported at the prior year-end if quarterly contributions are made when due. The Company contributes such amounts as are deemed necessary on an actuarial basis (based on the unit credit cost method) to provide assets sufficient to meet the benefits to be paid to plan participants. The Company has met the minimum funding requirements of ERISA and the Pension Protection Act of 2006 (the PPA) for the years ended June 30, 2012 and 2011. Contributions are recorded in the period in which they become a liability of the Company.

Benefit Payments - Benefit payments to participants or their beneficiaries are recorded when paid.

Income Tax Status - The Plan has received a determination letter from the Internal Revenue Service (IRS), dated November 10, 1998, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate income tax positions taken by the Plan and recognize a liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years ending prior to June 30, 2009.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the values of these securities, it is at least reasonably possible that changes in values will occur in the near term and that these changes could materially affect the amounts reported in the Plan's financial statements.

Subsequent Events - The Plan's management has evaluated subsequent events through December 21, 2012, the date the financial statements were available to be issued.

See Independent Auditors' Report

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2012 AND 2011

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates and Assumptions - The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect the recorded amounts of assets, liabilities and changes therein, the disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results could differ from those estimates.

Minimum required contributions and the actuarial present value of accumulated plan benefits are calculated based on certain actuarial assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimations and assumptions in the near term could be material to the financial statements.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments to which participants are entitled under the Plan's provisions based on services rendered to the date that accrual of benefits under the Plan was frozen. Accumulated plan benefits include benefits expected to be paid to (a) retired, disabled or terminated vested participants and (b) beneficiaries of vested participants who have died.

The Plan's actuary, McCready and Keene, Inc., estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements for death, disability, or retirement) between the valuation date and the expected date of payment. The calculation of the actuarial present value of accumulated plan benefits attributable to participants in the Plan, which was made as of July 1, 2011, the most recent actuarial valuation available, is as follows:

Actuarial Present Value of Accumulated Plan Benefits

Vested benefits

Participants currently receiving benefit payments	\$ 1,435,242
Other vested participants	<u>650,115</u>

Total Actuarial Present Value of Accumulated Plan Benefits	<u>\$ 2,085,357</u>

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2012 AND 2011

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

Changes in the actuarial present value of accumulated plan benefits are as follows for the year ended July 1, 2011:

Actuarial Present Value of Accumulated Plan Benefits at Beginning of Year	\$ 1,914,377
Increase (decrease) during the year attributable to	
Change in assumptions	189,732
Actuarial gain	(19,375)
Interest due to the decrease in the discount period	122,903
Benefits paid	<u>(122,280)</u>
Net Increase	<u>170,980</u>
Actuarial Present Value of Accumulated Plan Benefits at End of Year	<u>\$ 2,085,357</u>

The significant actuarial assumptions used in the valuation of the Plan as of July 1, 2011 are summarized as follows:

Actuarial cost method	Accrued benefit (unit credit)
Discount Rate	Three segment yield curve as required by the PPA (2.18%, 5.36%, 6.33%)
Mortality basis	2011 Combined Mortality Table
Retirement age	At normal retirement age (65)

The actuarial assumptions are the same in 2011 as in the prior year, except that the 2011 Combined Mortality Table was used for participants' rates of mortality versus the 2010 Combined Mortality Table and the discount rate assumption has been changed to use the three segment yield curve applicable for the July 1, 2011 valuation.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 5 - FAIR VALUE MEASUREMENTS

The Plan has classified its investments in the fair value hierarchy as follows:

Level 1 Fair Value Measurements: The fair value of mutual funds is based on the quoted net asset values of shares held by the Plan at year-end.

Level 2 Fair Value Measurements: Collective trust funds are investment vehicles valued using the unit values provided by the sponsors of the funds. The unit values are based on the fair value of the underlying net assets owned by the funds, divided by the number of units outstanding.

The tables below present, by level within the fair value hierarchy, the recorded amount of the Plan's investments measured at fair value on a recurring basis.
