Community Care Network, Inc. Retirement Plan

Notes to Financial Statements

June 30, 2012 and 2011

Note 1: Description of Plan

The following description of Community Care Network, Inc. Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Community Care Network, Inc. (the “Organization”). For the purposes of elective deferral contributions, an employee shall become eligible to participate in the Plan on the participant’s hire date. For the purposes of the Organization’s discretionary employer matching contributions, an employee becomes eligible after completing one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan also allows certain participants with 15 or more years of service to make special section 403(b) catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers shares of registered investment companies as investment options for participants. The Organization contributes the lesser of the employee contribution or up to 5% of annual compensation for all unionized employees. For all non-unionized employees, the Organization may contribute a matching contribution calculated as a percentage of the participant’s annual compensation. Matching contributions will not be made to any employee participating in the defined benefit plan sponsored by the Organization. Contributions are subject to certain limitations.

Participant Accounts

Each participant’s account is credited with the participant’s contribution and allocations of (a) the Organization’s contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions and the Organization’s contributions plus actual earnings thereon.

Note 1: Description of Plan (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments.

Forfeited Accounts

At June 30, 2012 and 2011, there were no forfeited nonvested accounts. These accounts may be used to first offset plan expenses and will then be used to reduce future employer contributions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Basis of Presentation

The Plan follows authoritative guidance issued by the Financial Accounting Standards Board ("FASB") which established the FASB Accounting Standards Codification ("ASC") as the single source of authoritative accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2: Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The administrative expenses of the Plan are paid by the Plan or the Organization, as determined by the Organization.

Subsequent Events

The Plan has evaluated subsequent events through February 18, 2013, the date the financial statements were available to be issued.

Note 3: Custodian Certification

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Principal Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of June 30, 2012 and 2011, Note 4, the supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of June 30, 2012, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended June 30, 2012.

Community Care Network, Inc. Retirement Plan

Notes to Financial Statements

June 30, 2012 and 2011

Note 4: Investments (Unaudited)

The following presents investments that represent 5% or more of the Plan's net assets at June 30:

	2012	2011
MFS Total Return Fund	\$ 87,764	\$ 127,795
American Funds Money Market Fund	213,697	236,337
Russell FX Inc. Fund	229,208	351,303
American Funds Capital World Growth & Income Fund	115,585	163,225
Neuberger Berman Socially Resp Inv Fund	**	138,347
T. Rowe Price Growth Stock Fund	**	105,190
The Principal SmallCap Value II Fund	103,588	177,387
American Funds Washington Mutual Investors Fund	153,527	240,931

**Did not represent greater than 5% of net assets for the respective year.

During fiscal year 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$31,023, which is attributable to the registered investment companies.

Note 5: Fair Value Measurements

The "Fair Value Measurements and Disclosures" topic of the FASB ASC provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Community Care Network, Inc. Retirement Plan

Notes to Financial Statements

June 30, 2012 and 2011

Note 5: Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2012 and 2011.

Shares of registered investment companies: Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at June 30, 2012:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Participant directed funds:

Note 5: Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at June 30, 2011:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Participant directed funds:				
Registered investment companies:

	\$ <u>1,980,405</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>1,980,405</u>

Note 6: Related-Party Transactions

Certain Plan investments are shares of registered investment companies managed by The Principal Trust Company. The Principal Trust Company is the custodian, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net depreciation in fair value of investments

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the employer contribution portion of their account.

Note 8: Tax Status

There is no requirement for 403(b) plans to receive a favorable determination letter from the Internal Revenue Service indicating that the Plan is qualified under Section 403(b) of the Internal Revenue Code (the "IRC") and is tax-exempt under present income tax law. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Community Care Network, Inc. Retirement Plan

Notes to Financial Statements

June 30, 2012 and 2011

Note 8: Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for Plan years prior to June 30, 2009.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
