INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
U.S. Pole Company, Inc. Employee Stock Ownership Plan

We have audited the accompanying statement of net assets available for benefits of the U.S. Pole Company, Inc. Employee Stock Ownership Plan (the "Plan") as of June 30, 2012 and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plans' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of June 30, 2012, and the changes in net assets available for benefits for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4j – Schedule of Reportable Transactions for the year ended June 30, 2012 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE A - DESCRIPTION OF THE PLAN

The following brief description of the U.S. Pole Company, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

1. General

U.S. Pole Company, Inc. (the "Company" or "Plan Sponsor") established the U.S. Pole Company, Inc. Employee Stock Ownership Plan, effective July 1, 2011, which operates in relevant part, as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is non-participant directed and covers eligible employees of the Company. It was established to provide retirement benefits to employees primarily through capital ownership in the Company.

2. Eligibility

Employees of the Company are eligible to participate in the Plan after attaining age twenty-one and upon completion of twelve months of consecutive service and are credited with at least 1,000 hours of service, prior to the entry date of July 1. For the initial Plan year, participants over the age of twenty-one and employed on June 30, 2012 were considered eligible to enter the Plan.

3. Contributions

Under the provisions of the Plan, the Company may make a contribution to the Plan in either cash or shares of Company stock. The Plan is noncontributory for participants. The amount of the Company contribution is discretionary and is determined solely by the Company. For the Plan year ended June 30, 2012, the Company approved a contribution of $800,000.

4. Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of the Company contribution, if any, and earnings of Plan assets. Allocations of contributions are made pro rata, based on the total covered compensation of all eligible participants. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Plan earnings are allocated to each participant's account based on the ratio of the participant's balance as of the preceding valuation date to all participants' balances.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

5. Vesting

Benefits become 20% vested after two years of credited service. Vesting continues at the rate of 20% for each of the remaining years of service with 100% vesting after six years of service. A participant will automatically become 100% vested in their account if they are employed by the Company upon reaching normal retirement or death.

6. Forfeitures

Forfeitures of the unvested balances of terminated participants are first made available to reinstate previously forfeited accounts of former participants. Remaining forfeitures, if any, are then used to pay administrative expenses. Only after the preceding, any remaining forfeitures shall be added to the Company's contribution for the Plan year. There were no unallocated forfeitures at June 30, 2012.

7. Voting Rights

Each participant, or beneficiary, in the Plan is entitled to exercise voting rights attributable to the shares allocated to his or her account. Each participant instructs the Plan trustee as to how to vote the allocated shares. The trustee shall vote any unallocated shares of Employer stock and any allocated shares for which instructions are received.

8. Benefit Payments

Distributions to participants with vested account balances under $5,000 shall be made as soon as administratively feasible after the end of the Plan year in which the participant has a severance from the Company.

For participants with vested account balances over $5,000, distributions to terminated participants prior to a participant's normal retirement age will be paid in five equal annual payments no later than the end of the Plan year following the sixth year after the participant separates from service. Upon or after attaining retirement age, distributions commence no later than one year after the close of the Plan year in which the participant has a severance from the Company.

Inactive participants, or 5% owners, who reach age 70½ generally must receive a minimum distribution by April 1st of the calendar year following in which the participant attains the age 70½, in the amount of their entire vested balance or begin to receive minimum distributions over a period not extending beyond the life expectancy of the participant.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

9. Diversification

Diversification is offered to active participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period, for the first 90 days beginning on the first day of the Plan year. In each of the first five years, a participant may diversify up to 25%, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. Diversification eligibility will begin the Plan year ending June 30, 2022.

10. Put Option

Under federal income tax regulations, the Company stock which is held by the Plan and allocated to the Plan's participants, and which is not readily tradable on an established market or is subject to trading limitations, includes a put option (liquidity put). The liquidity put is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The Plan may also honor the put, although it is not required to do so. The put price is representative of the fair market value of the stock. The purpose of the liquidity put is to ensure that participants have the ability to ultimately obtain cash.

11. Administration of Plan Assets

The Plan is administered by a Plan Committee comprised of members appointed by the Company's Chief Executive Officer. The Company's owner is the Plan's trustee.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses are paid directly by the Company.

12. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Plan Administrator would direct the trustee to pay all liabilities and expenses of the trust fund.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

2. Investment Valuation and Income Recognition

Investment in the common stock of the Company will be valued at estimated fair value. The Plan's other investments will be stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities will be recorded on a trade-date basis. Interest income will be recorded on the accrual basis. Dividends will be recorded on the ex-dividend date. Net appreciation will include the Plan's gains and losses on investments bought and sold as well as held during the year.

3. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates. The Plan relies significantly on the use of estimates in determining the valuation of the Company's common stock.

4. Payment of Benefits

Benefits are recorded when paid.

5. Nature of Business of the Plan Sponsor

The Company manufactures custom light poles on a made-to-order basis for contractors and municipalities.

6. Administrative Expenses

The Company absorbs substantially all administrative expenses incurred by the Plan.

7. Subsequent Events

Plan management has evaluated subsequent events through April 24, 2013, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS

The Plan intends to invest primarily in the common stock of U.S. Pole Company, Inc., a party in interest. The Plan's administrative committee determines the investment policy of the Plan.

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, establishes a consistent framework for measuring fair value and expands disclosure requirements about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

At June 30, 2012, the Plan believed that all of its assets were measured at their approximate fair value due to their short-term nature.

NOTE E - INVESTMENT IN U.S. POLE COMPANY, INC. COMMON STOCK

At June 30, 2012, the Plan did not own any common stock of the Company.

NOTE F - TAX STATUS

The Plan has applied for tax exempt status but has not yet received its determination letter. The plan administrator and the Plan's tax counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of June 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. As this was the inception year of the Plan, the plan administrator believes it is subject to income tax examinations only for the Plan year ended June 30, 2012.

NOTE G - PARTY IN INTEREST TRANSACTIONS

The Plan's assets are composed entirely of a contribution receivable from the Plan Sponsor, a party in interest. The trustee is a party in interest with respect to the Plan.
