APPLIED PRECISION, INC. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 22, 2012, DECEMBER 31, 2011 AND 2010

Note 1 - Description of Plan

The following description of the Applied Precision, Inc. 401(k) Savings Plan (the Plan) for employees of Applied Precision Acquisition Corporation (the Company) provides general information only. Participants should refer to the Plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

General - The Plan is a defined contribution plan, which includes a 401(k) and a profit sharing provision, that was established effective January 1, 1992. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. All non-union employees are eligible to participate in the Plan on the first day of employment with the Company.

Plan Merger - Effective December 31, 2011, the Plan was frozen to new participants and further contributions by the employer and participants. On June 22, 2012, the Plan was effectively merged into the Asset Management Plan for Affiliated GE Companies (AMP) and assets totaling \$12,453,334 were transferred to Frontier Trust, the trustee for AMP. The transferred benefits are no longer subject to the provisions of the Plan and are governed by the terms of the AMP after this date.

The following description of the Plan was effective prior to the merger.

Contributions - Contributions to the Plan are made through voluntary employee deferrals of earned compensation. Eligible employees may contribute up to 100% of their eligible compensation to the Plan, not to exceed annual limitations prescribed by the Internal Revenue Service (IRS). The Plan allows participants to make pre-tax 401(k) deferral contributions and after-tax "Roth" deferral contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch up contributions. All employee contributions are eligible for employer matching. Contributions are subject to statutory limitations.

The Company will match 50% of each participant's contribution to the Plan to the extent the aggregate deferral contribution by the participant does not exceed 6% of compensation. Profit sharing contributions may be made for each Plan year, at the Company's discretion, in an amount determinable by the Company. To be eligible for this contribution, an employee must have completed one year of service (1,000 hours) and be actively employed on the last day of the Plan year. The Company has elected to not make a profit sharing contribution for the period and year ended June 22, 2012 and December 31, 2011.

As noted above, no contributions were allowed in the Plan after December 31, 2011.

Vesting - On December 31, 2011, the Plan was amended so all participants became 100% vested on that date. Participants were immediately vested in their voluntary contributions plus actual earnings thereon. Prior to the December 31, 2011 amendment, participants became vested in the Company's matching and profit sharing contributions according to the years of service at 25% each year from year one to year four.

NOTES TO FINANCIAL STATEMENTS
JUNE 22, 2012, DECEMBER 31, 2011 AND 2010

Note 1 - Description of Plan (Continued)

Payment of Benefits - Upon retirement, disability, termination or death, participants or their stated beneficiary may elect to receive a distribution of their vested account balance. The distribution may be in the form of a lump sum payment, or substantially equal installments. A lump sum cash distribution will be made for all terminated participants with account balances less than \$1,000. A terminated participant's account balance is automatically rolled over into an individual retirement plan if the account balance is greater than \$1,000 but less than \$5,000, unless otherwise elected.

Hardship distributions are available in the event of qualifying financial hardship circumstances as specifically described in the Plan document. A hardship distribution shall be for no more than the participant's vested account balance less any interest earned on elective contributions after the end of the last Plan year.

Participant Accounts - Each participant's account is credited with the participant's contribution, the employer matching contribution and increases or decreases in the market value of investments and other earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may transfer all or a portion of their account among the various investment options of the Plan without restriction.

Forfeitures - Forfeitures of terminated participants' non-vested accounts are used to reduce the Company's matching contribution following the year in which the forfeiture occurs. In 2012 and 2011, forfeitures totaling \$0 and \$50,659 were used to reduce employer matching contributions. As of June 22, 2012, December 31, 2011 and 2010, the Plan held \$0, \$500 and \$1,388, respectively, in unallocated assets resulting from forfeited accounts.

Notes Receivable from Participants - The Plan allows participants to borrow from their accounts using their vested balance as collateral for loans. The maximum amount that a participant may borrow is equal to the lesser of 50% of their entire vested account balance or \$50,000. The minimum amount required to be borrowed is \$1,000. The interest rate on such borrowings is equal to prevailing rates as determined quarterly by the Plan administrator. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. Each loan is repaid ratably through monthly payroll deductions and the balance of the loan can be paid in full at any time. At December 31, 2011 notes receivable from participants bear interest at 3.25% and mature at various dates through 2020.

Expenses - Administrative expenses are paid by the Company. Certain transaction fees are paid by the Plan.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent Accounting Pronouncements

ASU No. 2011-04 - In May 2011, the FASB issued ASU No. 2011-04, Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. ASU No. 2011-04 requires disclosure of valuation techniques for Level 2 and Level 3 measurements and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. The new guidance is effective for reporting periods beginning after December 15, 2011. Plan management does not expect the adoption of ASU No. 2011-04 to have a material effect on the statement of net assets available for benefits and statement of changes in net assets available for benefits.

Investment Valuation - Investments are stated at fair value as certified by TD Ameritrade Trust Company (TDA) at June 22, 2012 and December 31, 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Income Recognition - Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on an accrual basis. The net appreciation (depreciation) in fair value of investments consists of both the realized gains or losses and the unrealized appreciation and depreciation of those investments.

Notes Receivable from Participants - Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Events - The Plan has evaluated subsequent events through October 8, 2012, which is the date the financial statements were available to be issued.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2** Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.
- Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 - Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 22, 2012, December 31, 2011 or 2010.

Registered Investment Companies (Mutual Funds) - Shares of registered investment company funds (or mutual funds) are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Collective Trust - Units held in collective trusts are valued using the NAV of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a collective investment is calculated based on a compilation of primarily observable market information. The number of units of the trust that are outstanding on the calculation date is derived from observable purchase and redemption activity in the trust. Accordingly, the unit value for a collective investment is classified within level 2 of the valuation hierarchy. The Plan has investments in the Wells Fargo Stable Value Fund M which is a collective investment trust fund that invests entirely in the Wells Fargo Stable Return Fund G (Fund G). Fund G invests in investment contracts and security-backed contracts issued by financial institutions in order to provide a stated rate of return to the investor. There are no restrictions to redemption at December 31, 2011 or 2010.

The following table discloses by level, the fair value hierarchy:

NOTES TO FINANCIAL STATEMENTS
JUNE 22, 2012, DECEMBER 31, 2011 AND 2010

Note 5 - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 7 - Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by a qualifying institution need not be subjected to independent audits. The Plan's management has obtained certifications from the Trustee, TDA, that the following information by the trustee and information included in the Plan's financial statements and supplemental schedule is complete and accurate:

1. Fair value of registered investment companies and collective trust as of June 22, 2012, December 31, 2011 and 2010;
2. Contract value of collective trust at June 22, 2012, December 31, 2011 and December 31, 2010;
3. Investment income earned for the period and year ended June 22, 2012 and December 31, 2011.
