Independent Auditor's Report

To the Plan Administrator
Modern Medical, Inc. 401(k) Plan and Trust
Lewis Center, Ohio

We were engaged to audit the accompanying statements of net assets available for benefits of the Modern Medical, Inc. 401(k) Plan and Trust (the Plan) as of July 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended July 31, 2012, and the supplemental schedule of assets (held at end of year) as of July 31, 2012. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Fifth Third Bank, the custodian of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the custodian as of and for the year ended July 31, 2012, and as of July 31, 2011.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Modern Medical, Inc. 401(k) Plan and Trust

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Modern Medical, Inc. 401(k) Plan and Trust (the Plan) is provided for general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Modern Medical, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Each full-time employee of the Company is eligible to participate in the Plan on February 1, May 1, August 1, or November 1 following their date of hire, provided that the employee is at least 21 years of age.

Contributions: Plan participants may authorize payroll deductions up to 100% of their compensation as a pretax contribution. The amount of a participant's contributions for any Plan year may not exceed certain limits set by the Plan agreement and the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company makes matching contributions equal to 50% of the first 5% of each participant's contributions. Additional discretionary profit sharing contributions may be contributed by the Company; however no discretionary amounts were contributed for the year ended July 31, 2012. Participants direct the investments of contributions into various investment options offered by the Plan.

Participant accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings and losses and charged with an allocation of administrative expenses. Allocations are based on participant's earnings or account balances, in accordance with the method described in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions along with the earnings thereon is based on years of continuous service, where a year is defined as one where an employee works 1,000 or more hours, and is as follows:

<u>Years of service</u>	<u>Vesting Percentage</u>
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Benefits: On termination of service, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. Hardship withdrawals are granted for specific reasons, are limited to a participant's account balance attributable to elective deferrals and are subject to a mandatory 20% federal tax withholding. Upon making a hardship withdrawal, a participant will lose the right to make elective deferrals for the following 6 months.

Forfeited accounts: At July 31, 2012 and 2011 forfeited nonvested accounts totaled \$7,498 and \$4,688, respectively. These accounts will be allocated to the remaining participant accounts in proportion to their account balances. During the year ending July 31, 2012, \$4,688 of forfeiture dollars were allocated to participant accounts.

Modern Medical, Inc. 401(k) Plan and Trust

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account value. Participants may only have one loan outstanding at any time. The loans are secured by the balance in the participants' accounts and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investments and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. Contract value for this common/collective trust is based on the net asset value of the fund as reported by the investment advisor. The statement of net assets available for benefits as of July 31, 2012 presents the fair value of the investment in the common/collective trust as well as an adjustment to the investment in the common/collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions: Participant contributions and Company matching contributions are recognized when the participant contributions are withheld from the participant's earnings. Company discretionary profit sharing contributions are recognized when declared.

Benefits: Benefits are recorded when paid.

Administrative expenses: The Company, at its discretion, pays significantly all Plan administrative expenses. A portion of the Plan's administrative costs are paid by the Plan.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the participants' account balances and amounts reported in the statements of net assets available for benefits.

Modern Medical, Inc. 401(k) Plan and Trust

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Recently issued accounting pronouncement: In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS)*. ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management will evaluate the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through January 21, 2013, the date the financial statements were available to be issued.

Note 3. Information Certified by Fifth Third Bank

The following is a summary of the Plan's asset information as of July 31, 2012 and 2011 and for the year ended July 31, 2012, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

Note 4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at July 31, 2012 and 2011.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Shares of common/collective trusts: Valued at the total of the NAV of the underlying investments held by the accounts at year-end. The Plan's interest in the common/collective trusts is valued based on the information reported by the investment advisor.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(a) This category is a stable value fund whose objective is to provide principal preservation and a competitive interest rate. The trustee invests principally in guaranteed investment contracts primarily issued by insurance companies, banks and other financial institutions.

(b) This category is an equity index fund whose objective is to seek long-term capital appreciation, with current income as a secondary objective. Under normal circumstances, the trustee will invest substantially all of the fund assets in common stock of companies that make up the Standard & Poor's 500 Composite Stock Price Index.

Note 4. Fair Value Measurements (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended July 31, 2012, there were no significant transfers in or out of Levels 1, 2, or 3.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note 6. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC and is, therefore, not subject to federal income taxes under present tax laws.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. As of July 31, 2012 and 2011, management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain income tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. Generally, the statute of limitations restricts federal and state examinations by tax authorities to three to five years from the date of filing. When and if applicable, potential interest and penalty costs are accrued as incurred, with expenses recognized in income taxes in the statement of changes in net assets available for benefits.

Note 7. Related Party Transactions

Certain plan investments are shares of common/collective trusts and registered investment companies managed by Fifth Third Bank. Fifth Third Bank is the custodian as defined by the Plan; and therefore, these transactions qualify as party-in-interest transactions.
