Independent Auditor's Report

To the Plan Administrator
Horizon Hobby Retirement Plan
Champaign, Illinois

We were engaged to audit the accompanying statements of net assets available for benefits of Horizon Hobby Retirement Plan (the Plan) as of September 30, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended September 30, 2012, and the supplemental schedule of assets (held at end of year). These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (Principal), the trustee of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of and for the year ended September 30, 2012 and as of September 30, 2011.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements, but is required by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of Plan

The following description of the Horizon Hobby Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Horizon Hobby, Inc. (the Company) who have completed 30 days of service. Eligible employees are automatically enrolled at the beginning of the month following their first 30 days of service unless they specifically elect not to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up provisions. New participants are automatically enrolled at a deferral rate of 3% of compensation unless they complete an elective deferral agreement. The Plan also includes a Roth option to allow contributions to be made on a post-tax basis. Contributions are subject to certain limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). The Company can elect to make an annual discretionary matching and/or profit sharing contribution to the Plan as determined by the Company. For the plan year ended September 30, 2012, the Company made no discretionary contributions to the Plan. Participants direct the investment of their contributions into various options offered by the Plan. The Plan currently offers twenty mutual funds and one investment trust as investment options for participants.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective and, if applicable, rollover contributions and Company discretionary matching contributions and earnings thereon. Vesting in the Company's discretionary profit sharing contributions, plus earnings thereon, is based on continuous years of service and one year of service is defined as a minimum of 500 hours. The Plan's vesting provisions start after two years of service at 20% and increase ratably until six years of service when participants are 100% vested. Participants, who terminate service because of death, total and permanent disability or attainment of normal retirement age, as defined in the Plan, are automatically 100% vested in their account balances.

Participant notes receivable: Participants may borrow from their fund accounts a minimum of $500 up to a maximum of the lesser of $50,000 or 50% of their vested account balance. Loan terms shall not exceed five years, unless for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate determined by the Plan Administrator which is to be comparable to the rate charged by commercial lending institutions for similar loans. Interest rates applicable to outstanding loans ranged from 4.25% to 9.25% as of September 30, 2012. Interest received is allocated to the participants' accounts. Principal and interest are paid ratably through bi-weekly payroll deductions.

Note 1. Description of Plan (Continued)

Payment of benefits: On termination of service due to death, disability or retirement, participants may elect to receive either a lump-sum amount equal to the value of their accounts, or roll their funds into a certified retirement account in accordance with the Plan's policies. The Plan's administrator may elect to pay the entire amount of benefits due to participants who have terminated service for reasons other than death, disability or normal retirement.

Forfeitures: Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures are first used to pay administrative expenses of the Plan, and any forfeitures remaining thereafter are added to the Company's discretionary contribution and reallocated to participants.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by the Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year**.**

Payment of benefits: Benefits are recorded when paid.

Administrative fees: Certain administrative functions applicable to the Plan are performed by employees of the Company. No such employees receive compensation from the Plan. Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 2. Summary of Accounting Policies (Continued)

Recent accounting pronouncement: In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment to accounting guidance, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements* (ASU 2010-06), which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting those changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for the period beginning October 1, 2010. The guidance related to Level 3 measurements was effective and adopted for the period beginning October 1, 2011 and is reflected in Note 4 of the financial statements.

In May 2011, the FASB issued an amendment to accounting guidance, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through April 24, 2013, the date the financial statements were available to be issued.

Note 3. Information Certified by Principal

The following is a summary of the Plan's asset information as of September 30, 2012 and 2011, and for the year ended September 30, 2012, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by Principal and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears in Note 3 and throughout the financial statements and supplemental schedule related to the assets.

Note 3. Information Certified by Principal (Continued)

The following table presents the assets that were certified by the trustee. Single investments representing more than 5% of the Plan's net assets as of September 30, 2012 and 2011, are separately identified.

	2012	2011
Investments, at fair value, as determined by quoted market prices:		
Registered investment companies (mutual funds):		
Edge Asset Management, Inc. - Equity Income R3 Fund	$ 1,843,587	$ 1,380,244

Principal Global Investors - Midcap Blend R3 Fund	1,042,318	928,430
Capital Research and Mgmt Co - Europacific Growth R3 Fund	706,095	518,398
Other registered investment companies less than 5% of the Plan's net assets	2,244,689	1,592,960
Investment in Principal Life Insurance Company Fixed Income Guaranteed Option, at contract value	3,344,775	2,932,560
Participant notes receivable	284,247	231,458
	$ 12,800,265	$ 10,199,933

The trustee also certified to the completeness and accuracy of $1,613,510 of net appreciation in fair value of investments, $61,563 interest earned on guaranteed interest accounts, $104,413 in dividend income, and $9,822 interest on participant loans for the year ended September 30, 2012.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2012.

Shares of registered investment companies (mutual funds): Valued at the net asset value (NAV) of shares held by the Plan at year-end, as determined by the Plan's trustee.

Guaranteed investment account with insurance company: Valued at fair value by the amount plan sponsor would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity. This fair value represents discontinuation value or contract value times 95%. (100% minus 5% withdrawal charge).

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2012 and 2011:

	Level 1	Level 2	Level 3	Total
		2012

Note 4. Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended September 30, 2012:

	Guaranteed Investment Account with Insurance Company
Balance, beginning of year	$ 2,785,932
Purchases and issuances	489,492
Settlements	(136,901)
Fees	(1,939)
Interest credited	61,563
Unrealized losses relating to change in adjustment from fair value to contract value of fully-benefit responsive investment contracts	(20,611)
Balance, end of year	$ 3,177,536

Note 5. Guaranteed Investment Contract With Insurance Company

The Plan entered into a benefit-responsive investment contract with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 5. Guaranteed Investment Contract With Insurance Company (Continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2012
Based on actual earnings	1.85%
Based on interest rate credited to participants	1.85%

Note 6. Income Tax Status

The Plan has adopted a standardized form of a prototype plan sponsored by Principal. The prototype plan has received an opinion letter dated March 31, 2008, from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan.

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal tax authorities for years before 2009.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Party-in-Interest Transactions

Certain Plan investments are shares of registered investment companies and investment contracts managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Company did not pay any fees to Principal Life Insurance Company on behalf of the Plan.
