Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to the Plan’s financial statements or a determination of the type of auditor’s opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

In the normal course of our professional association with the Plan, we generally discuss a variety of matters, including the application of accounting principles and auditing standards and plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition of our retention as the Plan’s auditors.

Other Information in Documents Containing Audited Financial Statements

Our responsibility for other information in documents containing the Plan’s financial statements and report does not extend beyond the financial statements. We do not have an obligation to determine whether or not such other information is properly stated. However, we read the Plan’s 5500 filing and nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information or manner of its presentation appearing in the financial statements.

This information is intended solely for the use of the trustees of the plan and management of Axios International, Inc. Employee Stock Ownership Plan and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Independent Auditor's Report

To the Trustees of the Plan
Axios International, Inc. Employee Stock
Ownership Plan

We have audited the accompanying statement of net assets available for benefits of Axios International, Inc. Employee Stock Ownership Plan (the "Plan") as of December 31, 2011 and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2011 financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2011 and the changes in net assets for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Note 1 - Plan Description

The following description of Axios International, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - Effective January 1, 2011, Axios International, Inc. (the "Company") established the Axios International, Inc. Employee Stock Ownership Plan. The Plan is a noncontributory, leveraged employee stock ownership plan with a cash or deferred arrangement as described by Internal Revenue Code Section 401(a), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (the "Code") of 1986, as amended. The Plan consists of two portions, a profit sharing portion and an employee stock ownership portion. Employer securities held by the Plan are deemed to be held in the employee stock ownership portion. An employee becomes a participant in the Plan on the date of execution of the Plan document, January 1, 2011. Thereafter all employees who have attained the age of 21 and have completed at least 1 year of service and 1,000 hours of service are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Subsequent to year end, the Plan purchased 187,647 shares of the Company's common shares from existing stockholders using \$2,200,000 of plan assets and \$200,000 contributed from the Company. The Plan also purchased an additional 813,252 shares of the Company's common shares from the Company using \$1,500,000 borrowed from the Company. The borrowings are to be repaid in annual principal installments of \$100,000, plus interest at 2.65 percent over a period of 15 years by fully deductible Company contributions to the trust fund. The note is guaranteed by the Company and the shares held in trust established under the Plan. As the Plan repays the note, a percentage of stock is allocated to eligible employees' accounts, in accordance with applicable regulations under the Code.

Contributions - Contributions to the Plan are at the discretion of the Company's board of directors, provided that such contributions shall be sufficient to cover principal and interest on the exempt loan, if any.

Participant Accounts - Each participant's account is credited with the allocations of the Company's contributions, plan earnings, and forfeitures of terminated participants' nonvested accounts. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Plan Description (Continued)

Vesting - Vesting is based on years of continuous service. Participants vest 20 percent per year beginning in year two, and are fully vested after six years of credited services or upon normal retirement age if employed by the employer on or after such date. Normal retirement age as outlined in the Plan document is 65 years of age.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Benefit Payments - Distributions are payable upon retirement, death, disability, termination of service, or diversification. Distributions are made in cash. A participant who is eligible to receive the distribution of his or her account balance may receive a lump-sum amount, unless the Plan elects to distribute the account balance in five equal installments, plus one year for each \$195,000 in excess of \$985,000, or fraction thereof. Account balances less than \$1,000 are paid in a single lump sum upon termination.

Forfeitures - If a participant is not fully vested on their termination date, the nonvested amount of the account is forfeited. The Company allocates forfeitures to participants based on participant compensation, as defined. Allocation of forfeitures are considered additional Company contributions and are subject to the vesting provisions of Company contributions. At December 31, 2011, there were no forfeited account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The common shares of Axios International, Inc. are valued at fair value as determined by an annual independent appraisal.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Administrative expenses of approximately \$69,000 for the year ended December 31, 2011 were paid by the Company.

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including April 8, 2013, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan has requested a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been made in the accompanying statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.
