ILLINOIS EYE CENTER 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
September 30, 2012 and 2011

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Illinois Eye Center 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all eligible employees of Illinois Eye Center (Company). Eligible employees may join the Plan if they are at least age 21, have completed six months of service with the Company, and worked 498 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(b) Contributions

Participant contributions are made through a pre-tax compensation deferral (elective contribution) as elected by the participants. Participants can also elect to make post-tax compensation deferrals (Roth contribution) to the Plan. The combined amount of elective and Roth contributions are subject to certain limitations set by the Internal Revenue Code.

The Company may match the participant's elective contribution at its discretion. Matching contributions of one half of a participant's elective contributions up to 6 percent were made during the plan year ended September 30, 2012. The Company may also make discretionary contributions to the Plan. Discretionary contributions of $283,691 were payable to the Plan for the year ended September 30, 2012.

Participants direct the investment of their elective and Roth contributions and Company matching and discretionary contributions into various investment options offered by the Plan as discussed in Note 3.

The Plan allows for rollover contributions from other retirement plans.

(c) Participant Accounts

Each participant's account is credited with the participant's voluntary contributions, the Company's discretionary and matching contributions, allocations of Plan earnings, forfeitures of terminated participants' nonvested accounts, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan allocates participant forfeitures of terminated participants' nonvested accounts as if the forfeitures were the Company's contribution.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

(d) Vesting

Participants are immediately vested in their voluntary contributions and rollover contributions, plus actual earnings thereon. Vesting in Company contributions plus actual earnings thereon is based on years of service as indicated by the following schedule:

Years of Service	Vested Percentage
Less than two years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

In the event of a participant's death, permanent disability, or cessation on or after the normal retirement date, the participant's share in the Plan becomes fully vested and nonforfeitable.

(e) Forfeitures

If a participant terminates employment before having a fully vested interest in his/her account, the nonvested balance of the account will be forfeited upon the earlier of the fifth anniversary of the participant's termination or the date on which the participant receives a distribution of the vested portion of his account. Forfeitures are used by the Sponsor to reduce the amount it would otherwise contribute to the Plan. A participant who returns to employment within five years of termination will obtain in his or her account the amount previously forfeited if the participant contributes the amount previously distributed to him from his account.

Forfeitures available to be used to reduce employer contributions were $9,755 and $3,773 at September 30, 2012 and 2011, respectively. During the year ended September 30, 2012, forfeitures of $3,773 were used to reduce employer contributions.

(f) Notes Receivable From Participants

Participants may borrow from their account balances a minimum of $1,000 up to a maximum equal to the lessor of $50,000 or 50 percent of their vested balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25 percent, which is commensurate with local prevailing rates as determined by the Plan administrator. Loan terms shall not exceed 5 years, unless the loan qualifies as a "home loan." Repayments, including interest, are made through after-tax payroll deductions and are credited to the individual participant's account balance.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

(g) Payment of Benefits

Participants who terminate employment, retire or become disabled are entitled to a withdrawal of 100 percent of their vested account balance as a single lump-sum payment. Participants also have the option to leave their vested account balance in the Plan, subject to certain limitations. Penalty-free withdrawals are allowed prior to these events only for participants with qualified financial hardship needs or upon death of the participant. The Plan requires withdrawals for participants upon retirement or upon reaching age 70-1/2, whichever is later.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are valued at fair value as determined by quoted market prices, except for its investment in the Vanguard Retirement Savings Account, which is a collective trust and valued at contract value. The contract value of the Vanguard Retirement Savings Account approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Expenses

A portion of administrative and operating expenses are paid by the Company; the remaining expenses are paid for by the Plan.

NOTE 3 - INVESTMENTS

The Plan currently offers various mutual funds, including several target date funds, a collective trust, and participant directed brokerage accounts as investment options for participants.

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, other than the brokerage accounts, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Investments of $8,152,099 and cash of $23,574 as of September 30, 2012 and investments of $6,505,469 and cash of $18,833 as of September 30, 2011 as shown in the accompanying statement of net assets available for benefits. Investments in the brokerage accounts of $2,151,178 and cash of $31,122 as of September 30, 2012 and investments in brokerage accounts of $1,703,732 and cash of $845 as of September 30, 2011 were not certified by the custodian.

b. Notes receivable from participants as shown in the accompanying statements of net assets available for benefits of $137,286 and $137,396 as of September 30, 2012 and 2011, respectively.

c. Investment income as shown in the accompanying statement of changes in net assets available for benefits of $1,230,943 for the year ended September 30, 2012. Investment income for the brokerage accounts of $382,437 for the year ended September 30, 2012 was not certified by the custodian.

d. Interest income from notes receivable from participants as shown in the accompanying statements of changes in net assets available for benefits of $5,472 for the year ended September 30, 2012.

NOTE 3 - INVESTMENTS (CONTINUED)

The fair value of individual investments that represent 5 percent or more of the Plan's net assets as of September 30 are as follows:

	2012	2011
Vanguard Retirement Savings	$ 1,149,386	$ 1,066,087
Vanguard Inflation Protected Securities	685,249	954,013
Vanguard 500 Index Fund - Signal	955,949	684,874
Vanguard Mid-Cap Index	903,262	699,768
Vanguard Small Cap Index	777,548	547,274
Vanguard Developing Markets Index	608,250	476,619

Investment income was comprised of the following at September 30, 2012:

Net investment income in mutual funds	$ 1,059,334
Net investment income in brokerage accounts	342,437
Interest and dividends in mutual funds	144,069
Interest in collective trust	27,540
Interest and dividends in brokerage accounts	40,000
	$ 1,613,380

The Plan has a benefit-responsive collective trust with Vanguard, which is maintained in the Vanguard Retirement Savings Account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Fund issuer is contractually obligated to repay the principal and a specified rate that is guaranteed to the Plan.

As the collective trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective trust. Contract value, as reported to the Plan by Vanguard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 3 - INVESTMENTS (CONTINUED)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event which would limit the Plan's ability to transact at contract value with participants is probable of occurring.

The crediting interest rate of the contract is based on a formula agreed upon with the issuer. The average yields of the contract are as follows:

	2012	2011
Based on actual earnings	2.56%	3.09%
Based on interest rate credited to participants	2.49%	2.68%

Other than for the brokerage accounts, the Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 - FAIR VALUE MEASUREMENTS

In determining fair value, the Plan uses various valuation approaches within the fair value measurement framework. Fair value measurements are determined based on the assumptions that market participants would use in pricing an asset or liability.

Generally accepted accounting principles (GAAP) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2012 and 2011.

Common stocks: Valued at quoted market price on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Collective trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. There are no unfunded commitments to any collective trusts or the underlying portfolios. There are no stated restrictions on redemptions other than the ability of the underlying portfolios to sell liquid investments in order to meet redemption requests.

Alternative investments: Valued at quoted prices for similar assets in active markets.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a brief description of the nature and significant investment strategies of the major categories of the mutual funds, collective trust, alternative investments, and convertible securities fund:

Mutual Funds:

Large/Mid Cap U.S. equity funds: This asset class is generally comprised of equity investment options that invest in shares of large and mid-capitalization domestic companies. Management seeks growth of capital and income.

Small Cap U.S. equity funds: This asset class is generally comprised of equity investment options that invest in shares of small-capitalization domestic companies. These funds seek long-term growth of capital.

International equity funds: This asset class is generally comprised of equity investment options that invest in shares of international companies. Management seeks long-term growth of capital when selecting these funds.

Balanced funds: This asset class is generally comprised of investment options that may invest in a combination of fixed income, money market, and growth investments.

Fixed income funds: This asset class is generally comprised of investment options in bonds, or debt of a company or governmental entity, that seek maximum total return.

Specialty funds: This asset class is generally comprised of investment options that invest in equity securities of real estate companies.

Collective trust: The trust provides for the collective investment of assets of tax-exempt pension and profit-sharing plans, primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by bond trusts that are selected by the trustee.

Alternative investments: This asset class invests in precious metals and currency markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended September 30, 2012 and 2011.

	2012 Level 3 Assets	2011 Level 3 Assets

Purchases, sales, issuances, and settlements	-	-

NOTE 5 - TAX STATUS

The Plan's service provider obtained an IRS "prototype" letter dated March 31, 2008 stating that the Plan instrument, as originally written, was subjected to IRS review and stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. An IRS "prototype" letter is not the same as an IRS determination letter addressed directly to the Plan. However, the employers believe that the Plan instrument as adopted from the "prototype" is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan. The effects of an uncertain tax position are recognized in the financial statements when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 - PENDING BENEFIT PAYMENTS

At September 30, 2012, there were no net assets available for benefits that were pending payment.

NOTE 10 - SUBSEQUENT EVENTS

Management evaluated subsequent events through April 24, 2013, the date the financial statements were available to be issued.
