INDEPENDENT AUDITOR'S REPORT

To the Trustees of the
First Command Financial Planning, Inc. 401(k) - Employee Stock Ownership Plan:

We were engaged to audit the financial statements of First Command Financial Planning, Inc. 401(k) - Employee Stock Ownership Plan (Plan) as of September 30, 2012 and 2011 and for the year ended September 30, 2012 and the supplemental schedule as of and for the year ended September 30, 2012 as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Principal Trust Company, the trustee of the 401(k) profit sharing portion of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the 401(k) Plan investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended September 30, 2012 and 2011, that the information provided to the plan administrator by the 401(k) trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FIRST COMMAND FINANCIAL PLANNING, INC.
401(k) - EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS
September 30, 2012 and 2011

NOTE 1 - PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following brief description of the First Command Financial Planning, Inc. 401(k) - Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for complete information.

First Command Financial Planning, Inc. (Company) established the Plan effective as of November 5, 1964. The Plan is designed to comply with Section 401 (a) of the Internal Revenue Code (Code) and the Trust associated with the Plan is intended to be exempt from tax under Section 501 (a) of the Code. A portion of the Plan is intended to be a stock bonus plan qualified under Section 401 (a) of the Code and a 401(k) Employee Stock Ownership Plan that meets the requirements of Section 4975 (e) (7) and Section 54.4975-11 of the Regulations of the Internal Revenue Code and the other portion of the Plan is intended to be a profit sharing plan. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). An independent third-party serves as Trustee and has exclusive authority and discretion to manage and control the assets of the ESOP, except to the extent the Plan document expressly provides that the Trustee is subject to the direction of the ESOP Committee. The ESOP Committee consists of officers or other employees who serve at the request of the board of directors of the Company. The Plan is administered by a Plan Administrator appointed by the Advisory Committee.

The profit sharing portion of the Plan is held in a self-administered trust wherein the Trustees, who are officers of the Company appointed by the Board of Directors, act as administrators. The custodian of those assets is a trust company appointed by the Plan Trustees.

The Plan purchased common shares of First Command Financial Services, Inc. (FCFS), parent of the Company, using the participants' proceeds from transferring funds from the Company's Profit Sharing Plan. Accordingly, the shares in the Plan were all allocated to participants' accounts as of September 30, 2003.

Merger and Plan Amendment

Effective September 30, 2006, First Command Financial Planning, Inc. which sponsor's both this plan, the "First Command Financial Planning, Inc. Employee Stock Ownership Plan" (the ESOP), and the former "First Command Financial Planning, Inc Profit Sharing Plan" (the Profit Sharing Plan), merged the Profit Sharing Plan into the ESOP in accordance with Internal Revenue Code Sections 401(a) (12), and 414(l) and Section 208 of ERISA. The name of the ESOP was changed simultaneously to the First Command Financial Planning, Inc. 401(k) - Employee Stock Ownership Plan. Under the terms of the merger, each participant in the Profit Sharing Plan and the ESOP would receive a benefit immediately after the merger which is equal to the benefit he or she would have been entitled to receive immediately before the merger. Additionally, the ESOP plan was amended to accept the transfer of all trust assets from the Profit Sharing Trust as of September 30, 2006.

NOTE 1 - PLAN DESCRIPTION AND BASIS OF PRESENTATION (continued)

Amendments were made to the First Command Financial Planning, Inc. 401(k) – Employee Stock Ownership Plan to be effective as of October 1, 2006. The Plan was amended to allow participants to make a separate deferral election under the Plan with respect to any bonus payments that are not currently available as of the time of the deferral election and the eligibility age was lowered from age 21 to age 18. Effective on or after October 1, 2007, an eligible employee shall become a participant for purposes of elective contributions and safe harbor contributions as of the first day of employment. In the event an eligible employee has not completed a salary reduction agreement, effective for the first paycheck issued after July 1, 2009, such eligible employee shall be deemed to have made an election to reduce his or her compensation by 1% for each payroll period and shall be automatically enrolled in the Plan. The automatic contributions deferred shall be pre-tax elective contributions. Effective August 1, 2010, the Plan was amended to permit participants to change their salary reduction elections and investment elections each pay period.

The administration committee of the Plan amended and restated the Plan effective October 1, 2011. As a result of the amendment, for Plan years commencing on or after October 1, 2011, no safe harbor contributions shall be made with respect to compensation earned on or after October 1, 2011, by any eligible or short-term employees. Beginning October 1, 2011, all new employees who do not make a contribution election will enter the automatic enrollment feature of the Plan at a 2% contribution rate. For initial automatic (enrolled) participants, their salary reduction agreement shall be next adjusted on January 1, 2013, by 1.5% and shall continue to be adjusted on the subsequent anniversaries of such date by 1.5% per year until their election to reduce reaches 10% or until such initial automatic participant makes an affirmative election by executing a salary reduction agreement.

Eligibility

Employees of the Company and its participating subsidiaries, age 18 or older, are generally eligible to participate in the Plan as of the first day of employment for purposes of elective contributions and safe harbor contributions. After one year of service, which is defined as a 12-consecutive month period during which the employee is credited for at least 1,000 hours of service, and after attainment of age 18, an eligible employee shall become a participant for purposes of eligibility to receive allocations of Company contributions allocated to profit sharing accounts and ESOP accounts. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of the Company profit sharing and ESOP contributions for such year.

NOTE 1 - PLAN DESCRIPTION AND BASIS OF PRESENTATION (continued)

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), becomes permanently disabled or otherwise terminates employment with the Company and its participating subsidiaries. Distributions are made in cash. The value of the account is determined as of the most recent valuation date immediately preceding the date of distribution.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan as long as the shares are not publicly traded. During fiscal year end September 30, 2012 and September 30, 2011, the Company repurchased from participants 641,658 and 631,268 shares, respectively, at prices determined from independent appraisals. These shares were reallocated to remaining eligible participants at the Plan's year end.

Contributions

Each year the Company contributes to the Plan an amount of its current profits as determined by the Company's Board of Directors. Employees may contribute voluntarily to the 401(k) component of the Plan. In addition, during plan year ending September 30, 2011, the Company made a non-elective contribution to the 401(k) component of the Plan without consideration to the employees' voluntary contributions. Effective, October 1, 2011, no safe harbor contribution will be made by the Company. Employees' voluntary contributions are subject to certain limitations. Participants direct the investment of their 401(k) contributions into various investment options offered by the Plan. The Plan currently offers 26 mutual funds and a short-term investment fund as investment options for the 401(k) portion of the Plan.

Voting Rights

The ESOP Trustee is authorized by the Plan document to exercise the voting rights attributable to the shares allocated to the accounts held in the Plan.

Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms, ERISA, and the Internal Revenue Code. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 1 - PLAN DESCRIPTION AND BASIS OF PRESENTATION (continued)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant to account for contributions made by the employer and shares of employer stock allocated to the account. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total compensation.

Each participant's account is also credited with an allocation of the Company's contribution, investment earnings, including asset appreciation (depreciation) and forfeitures of terminated participants' non-vested accounts. Allocations of earnings are based on participant account balances. Allocations of employer contributions and forfeitures are based on compensation, as defined by the Plan except as it pertains to the 401(k) component of the Plan, where allocations are based on the employee's voluntary contribution. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

For all Plan years beginning on or after October 1, 2006, participants vest according to the following schedule:

Years of Service	Vested Percentage
Less than 2 years	0
2 years	20
3 years	40
4 years	60
5 years	80
6 years or more	100

Voluntary contributions made by employees and qualified non-elective contributions made by the Company are 100 percent vested when made.

NOTE 1 - PLAN DESCRIPTION AND BASIS OF PRESENTATION (continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in common stock into investments which are more diversified. Participants who are at least age 55 and have at least 10 years of participation in the Plan, including participation in the Company's former profit sharing Plan, may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Such diversification is accomplished by allowing the participant to transfer a portion of their ESOP account balance to a participant-directed account invested under various investment options.

Forfeitures

Upon termination of employment by a participant that is not fully vested in the Plan, the non-vested portion of the participant's account balance is allocated to participants in the Plan in the period that the distribution is made. Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Such allocation is first made to reinstate previously forfeited account balances of former participants. Any remaining forfeitures are used to reduce employer contributions or to pay reasonable Plan expenses. Also, at September 30, 2012 and 2011, employer contributions receivable to the Plan were reduced by $119,457 and $88,581, respectively, from forfeited non-vested accounts.

Notes Receivable from Participants

Participants may borrow from their 401(k) fund accounts a minimum of $3,000 up to a maximum of $50,000 reduced by the highest outstanding loan balance in the participant's account during the twelve month period or 50% of their vested account balance, whichever is less. The loans are secured by the vested balance in the participant's account and bear interest at reasonable rates as determined by the Plan Committee based on prevailing rates. Principal and interest is paid ratably on at least a quarterly basis generally over a three-year period through payroll deductions. Participants may only have two loans outstanding at any given time.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The common shares of First Command Financial Services, Inc. (FCFS) are valued at estimated fair value on September 30, 2012 and 2011. Fair value was determined by the independent appraisal firm of Stout, Risius, Ross, Inc. of Chicago, Illinois.

The Plan's investments in registered investment companies are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Net appreciation or depreciation of investments is reported in the statement of changes in net assets available for benefits and consists of the realized gains or losses on investments bought and sold as well as held during the year.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Reclassifications

Reclassifications have been made to prior year information to conform to current year classifications in the notes to the financials. These reclassifications affect neither the net assets available for benefits nor the change in net assets of the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Administrative Expenses

Certain expenses incurred in the administration of the Plan are paid directly by the Company.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

For the year ended September 30, 2012, the Plan has evaluated subsequent events for potential recognition and disclosure through April 30, 2013, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements

Fair Value Measurements
The FASB issued new guidance that will result in common fair value measurement and disclosure requirements between U.S. General Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS). The guidance will change the wording used to describe the requirements of U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. Also included is guidance as to how an entity should disclose quantitative information about the unobservable inputs used in a fair value measurement that is categorized as Level 3. The additional disclosures will be effective for reporting periods beginning after December 15, 2011. The Company is in the process of evaluating the impacts to the financial statements and the related financial statement disclosures.

NOTE 6 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology included

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset of liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2012 and 2011.

Common stock: Valued at fair value determined by an annual independent appraisal.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

NOTE 6 - FAIR VALUE MEASUREMENTS (continued)

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2012 and 2011:

The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.	$ 10,047,813	$ 10,047,813

The common stock of FCFS is not actively traded and significant other observable inputs are not available. The fair value of the common stock of FCFS is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation methods. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of the Company assets and liabilities.

Under a put option, the Company purchased 307,381.042 shares of the common stock at a fair value of $1,902,627 in February 2012.

NOTE 7 - ADMINISTRATION OF PLAN ASSETS AND RELATED PARTY TRANSACTIONS

The Plan's assets, which consist principally of First Command Financial Services, Inc. (FCFS) common shares, are held by a custodian of the Plan's Trustee. Company contributions are managed by the Trustee, which invests cash received and earnings of the Plan and is responsible for making distributions out of the Plan. An independent third-party trust company holds the assets that are non-participant-directed.

NOTE 7 - ADMINISTRATION OF PLAN ASSETS AND RELATED PARTY TRANSACTIONS (continued)

Securities are offered through Princor Financial Services Corporation and/or independent broker dealers. Securities sold by a Princor Registered Representative are offered through Princor. Princor is a member of the Principal Financial Group. Principal Trust Company, trustee of the 401(k) portion of the Plan, is also a subsidiary of the Principal Financial Group. Therefore, transactions in mutual funds managed by Princor qualify as party-in-interest transactions.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee, custodians and $20,000 of the recordkeeper fees are paid directly by the Company. The Company made payments of approximately $198,000 and $190,670 during 2012 and 2011, respectively, for administrative fees that will not be reimbursed by the Plan.

These transactions are exempt party-in-interest transactions.

NOTE 8 - EMPLOYER CONTRIBUTIONS

The employer's contributions to the Plan are discretionary, so long as the Plan has no loan balances outstanding. As of September 30, 2012 and 2011, the Plan did not have a loan balance outstanding.

The contribution to the Plan from the employer at September 30, 2012 and 2011 consists of:

	2012	2011
Distributions to former participants	$ 3,366,430	$ 3,288,198

Value of interest in registered investment companies per Schedule H to the Form 5500	$ 30,095,225	$ 24,353,753

NOTE 11 - TAX STATUS

The Plan obtained its latest determination letter on January 25, 2010, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. The Plan administrator believes the Plan is no longer subject to income tax examinations for fiscal years prior to October 1, 2008 - September 30, 2009.

NOTE 12 - RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of money market, equity, and fixed - income mutual funds. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes may materially affect participants' account balances and the amounts reported in the statement of net assets available for Plan benefits and the statement of changes in net assets available for Plan benefits. Credit risk is considered by management to be limited due to the money market fund's financial stability and to the diversification of holdings within the funds. The Plan generally does not require collateral with respect to its investments.
