SENSATA TECHNOLOGIES 401(k) SAVINGS PLAN

Notes to Financial Statements

July 31, 2012 and December 31, 2011

(1) **Description of the Plan**

The following description of the Sensata Technologies 401(k) Savings Plan ("the Plan") provides only general information. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions.

(a) ***General***

The Plan was established on April 27, 2006, in connection with the acquisition of certain assets of the Sensors and Controls business of Texas Instruments, Inc. ("TI") by Sensata Technologies, Inc. ("Sensata Technologies", "the Company", or "the Plan Administrator").

The Plan is a defined contribution plan under Section 401(k) of the Internal Revenue Code ("the Code"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participation in the Plan is limited to employees at all U.S. locations who participated in the TI 401(k) Savings Plan immediately prior to April 27, 2006, did not terminate employment with TI prior to April 27, 2006, and were participating in the Sensata Technologies Employees Pension Plan on April 27, 2006.

(b) ***Plan Termination***

Effective July 26, 2012, the Plan's assets were transferred into the Sensata Technologies Contribution and 401(k) Savings Plan and the Plan was terminated on July 31, 2012.

(c) ***Contributions***

Prior to the Plan terminating, employees who met the Plan's eligibility requirements were eligible to contribute up to 75% of their eligible earnings, through pre-tax contributions and Roth contributions, within the limits prescribed by the Code. Participants' contributions are recorded each pay period when Sensata Technologies makes payroll deductions from participants' wages. Participants could also contribute amounts representing distributions from other qualified retirement plans or similar arrangements.

Participants who were at least age 50, or who reached age 50 during the year, were allowed to make additional employee pre-tax and Roth contributions (catch-up contributions) above the otherwise applicable limits. In accordance with limits under the federal tax laws, catch-up contributions cannot exceed \$5,500 in 2012 and 2011, respectively. After that, the limit may be adjusted from time to time, by the Secretary of the Treasury, to reflect inflation.

Participants' elective contributions were directed into various investment options offered by the Plan, and participants were able to change their investment options on a daily basis.

SENSATA TECHNOLOGIES 401(k) SAVINGS PLAN

Notes to Financial Statements

July 31, 2012 and December 31, 2011

The Company's contributions are discretionary, made on an annual basis, and are allocated in the same manner as that of the participant's elective contributions. In 2012, the only employer contributions related to retro-payments for true-ups of prior period employer match contributions. The employer matching contributions for 2012 did not occur until January 2013 and due to the merger, were made through the Sensata Technologies Contribution and 401(k) Savings Plan. In 2011, Sensata Technologies matched 50% of each participant's pre-tax and Roth contributions, excluding catch-up contributions, up to a maximum match of 2% of eligible earnings.

(d) ***Payment of Benefits***

Employees are permitted to withdraw funds from their accounts upon attaining the age of 59½, or upon in-service disability. These withdrawals can be paid as a lump-sum cash payment. A withdrawal from an account due to the attainment of age 59½ can also be paid as a direct rollover.

Additionally, employees are permitted a distribution from their accounts upon normal retirement, death, or termination, at which time the participant or beneficiary will receive a lump-sum cash payment of the participant's full account balance.

(e) ***Vesting***

Participants are automatically fully vested in all contributions made to the Plan.

(f) ***Participant Accounts***

A separate account is maintained for each participant, and is increased by the participant's contributions, the Company's matching contributions and plan investment income, and decreased by plan investment losses, benefit payments, and administrative expenses. Accounts are also reduced for brokerage account fees for those participants with a brokerage account. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(g) ***Notes Receivable from Participants***

Participants may borrow from their accounts, from \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years, or up to 15 years for the purchase of a primary residence. The \$50,000 limit is reduced by the participant's highest outstanding loan balance during the preceding 12-month period. A participant may not have more than two loans outstanding at any point in time. The loans bear interest at the Wall Street Journal Prime Rate plus 1% as of the day the loan is requested. Principal and interest is paid ratably through monthly payroll deductions. If a participant terminates employment with the Company, the loan must be repaid in full. If it is not repaid, it will automatically be treated as a distribution to the participant. All notes receivable from participants were included in the assets transferred to the Sensata Technologies Contribution and 401(k) Savings Plan on July 26, 2012.

July 31, 2012 and December 31, 2011

(h) ***Subsequent Events***

Subsequent events after July 31, 2012 through the date that the financial statements were available to be issued, May 10, 2013, have been evaluated by the Plan's management in the preparation of the financial statements.

(2) **Summary of Significant Accounting Policies**

(a) ***Basis of Accounting***

The financial statements have been prepared on the accrual basis of accounting.

(b) ***Payment of Benefits***

Benefits are recorded when paid.

(c) ***Notes Receivable from Participants***

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of July 31, 2012 or December 31, 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

(d) ***Investment Valuation and Income Recognition***

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 4 for further discussion of fair value measurements.

Securities traded on a national securities exchange are valued at the last reported sales price. Investments in mutual funds are valued based on the last publicly quoted closing net asset values. Investments in common collective trusts are valued based on the net asset value per share (or its equivalent). Money market funds are stated at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation)/appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

The Putnam Stable Value Fund invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were

to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

(e) ***Administrative Expenses***

Certain Plan expenses, including participant loan fees and self-directed brokerage account fees, are paid by participants. All other administrative expenses are paid by the Company.

(f) ***Use of Estimates***

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles ("U.S. GAAP") requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

(3) **Investments**

Other than the fair value of the Putnam Stable Value Fund and the adjustment from fair value to contract value for fully benefit-responsive investment contracts, all investment information disclosed in the accompanying financial statements as of July 31, 2012 and December 31, 2011, and the related investment activity for the period ended July 31, 2012 and the year ended December 31, 2011, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Mercer Trust Company (activity between January 1, 2011 through August 31, 2011) and Putnam Fiduciary Trust Company (activity between September 1, 2011 through July 31, 2012), the trustees of the Plan. The contract value of the Putnam Stable Value Fund was certified as complete and accurate by the trustee, as of December 31, 2011.

The fair values of individual investments that represent 5% or more of the fair value of the Plan's net assets available for benefits as of December 31, 2011, as there are no Plan assets as of July 31, 2012, are as follows:

	December 31, 2011
Putnam Stable Value Fund	\$ 5,873,070
American Funds Growth Fund of America	2,675,598
Putnam Equity Income Fund	2,176,721
Putnam Income Fund	1,942,762
Loomis Sayles Bond Fund	1,862,134

Notes to Financial Statements

July 31, 2012 and December 31, 2011

During the period ended July 31, 2012 and the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the periods) appreciated/(depreciated) in fair value as follows:

	<u>2012</u>	<u>2011</u>
Mutual funds	\$ 753,371	\$ (663,663)
Common collective trust funds	34,244	6,709
Self-directed brokerage accounts	11,831	(90,769)
Stable value funds	8	—
	<u>\$ 799,454</u>	<u>\$ (747,723)</u>

The self-directed brokerage appreciation/(depreciation) noted above is related to investments made through participant directed brokerage accounts. The fair value of these investments was \$0 and \$187,255 as of July 31, 2012 and December 31, 2011, respectively.

(4) Fair Value Measurements

ASC 820 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.

Level 2 - Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3 - Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment, and are based on the best available information, some of which may be internally developed.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

(5) Related Party Transactions

The Plan invests in funds managed by Putnam Investments, an affiliate of Putnam Fiduciary Trust Company and formerly an affiliate of Mercer Trust Company. Both companies are trustees as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

(6) Risks and Uncertainties

The Plan and its participants invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(7) Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 31, 2011, stating that the Plan is qualified under Section 401(a) of the IRS Code, and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan was being operated in compliance with the applicable requirements of the IRS Code through the date of its termination, and therefore, believes that the Plan was qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of July 31, 2012 and December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized

Notes to Financial Statements

no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.
