INDEPENDENT AUDITORS' REPORT

To the Trustees of the
Lion Country Safari Inc – Florida
Employee Savings Plan
Loxahatchee, Florida

We were engaged to audit the statements of net assets available for benefits of Lion Country Safari Inc – Florida Employee Savings Plan (the "Plan") as of October 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of October 31, 2012. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of October 31, 2012 and 2011 and for the years then ended that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of plan

The following description of the Lion Country Safari Inc – Florida Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Lion Country Safari, Inc. – Florida (the "Company") who have six months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Participants may contribute from 1% to 15% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may annually determine whether or not it will make a matching contribution to eligible participant accounts. For the years ended October 31, 2012 and 2011, the Company elected to contribute a matching contribution equal to 10% of eligible employee contributions. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain limitations.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers a guaranteed interest account and various pooled separate accounts as options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expense. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participant's contributions plus actual earnings are 100% vested immediately. Employer contributions are subject to the following vesting schedule:

Years of Service	Vested %
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

(1) Description of plan (continued)

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments as defined in the Plan. For termination of service due to other reasons, for accounts with a value of $5,000 or less, participants will receive the value of the vested interest in his or her account as a lump sum distribution and for accounts with a greater value, participants may receive a lump sum or annual installments as defined in the Plan. A participant may also request up to two distributions per year after reaching the age of 59 ½ or a distribution qualifying under certain "hardship" rules as prescribed by the Internal Revenue Service.

Forfeited accounts - At October 31, 2012 and 2011, the forfeited balances were $426 and $0, respectively. Forfeited accounts may be used to reduce employer contributions or pay plan expenses. In 2012 and 2011, employer contributions were reduced by $0 and $244 from forfeited nonvested accounts, respectively.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a fair value basis.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

(2) Summary of significant accounting policies (continued)

New accounting pronouncement - The following new accounting pronouncement was adopted during the year ended October 31, 2012:

Fair value measurements - In May 2011, the Financial Accounting Standards Board ("FASB") issued guidance which amends Accounting Standards Codification ("ASC") 820. This guidance requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, it provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The guidance requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

Unit values - Individual participant accounts for the pooled separate accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the sponsor and are not included in the statement of changes in net assets available for benefits.

(3) Investment contract with insurance company

The Plan investments include guaranteed investment accounts with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. As stipulated in the contracts, certain conditions exist that could limit the participants ability to transfer their funds. Therefore, the guaranteed interest account is not considered benefit-responsive and is valued at estimated fair value as reported to the Plan by Principal.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. At October 31, 2012 and 2011, the average yield and crediting interest rates ranged from 0.68% to 4.21% with maturities ranging from October 31, 2012 through October 31, 2016 and 0.90% to 4.20% with maturities ranging from October 31, 2011 through October 31, 2015, respectively. The crediting interest rates are based on rates specified by the issuer and are reviewed on an annual basis for resetting.

(4) Investments

The following presents individual investments that represent 5% or more of the Plan's net assets:

Pooled separate accounts	$ 165,350	$ 86,180
Guarnteed interest accounts	354	(376)
	$ 165,704	$ 85,804

(5) Information prepared and certified by the custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company has certified that the following data included in the accompanying October 31, 2012 and 2011 financial statements and supplemental schedule are complete and accurate:

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Interest income
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(6) Fair value measurements

FASB Accounting Standards Codification ("ASC") 820*, Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(6) Fair value measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2012 and 2011.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. See Note 3.

Pooled separate accounts (except for the U.S. property separate account): Valued at estimated fair value as determined by the issuer of the pooled separate account based on the fair market value of the underlying investment.

Pooled separate accounts - U.S. property separate accounts: The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates and discount rates.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of October 31, 2012 and 2011:

The Principal U.S. Property pooled separate account invests mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. ASC 820 allows Net Asset Value ("NAV") per share to serve as a practical expedient to estimate the fair value of an investment as long as certain requirements are met. It is Principal's assessment that its pooled separate accounts meet those requirements. ASC 820 goes on to state that where NAV is allowed to be used as an estimate of fair value, if the reporting entity has the ability to redeem its investment at NAV as of the measurement date, that investment shall be categorized as a Level 2 fair value measurement. If the investment cannot be redeemed at the measurement date but may be redeemable in the future, but at an uncertain date, the investment shall be categorized as a Level 3 fair value measurement. Until March 25th, 2011, the U.S. Property Separate Account had a temporary withdrawal limitation related to past turmoil in the credit markets that resulted in a sharp slowdown in the sale of commercial real estate assets over the last several years. The uncertain environment led to significantly increased requests for withdrawals. To allow for orderly administration and management benefitting all separate account investors, Principal Life Insurance Company implemented a pre-existing contractual limitation to delay certain withdrawal requests. Certain high need payments such as death, disability, certain eligible retirements, and hardship withdrawals were not subject to the withdrawal limitation. Other withdrawal requests were subject to the limitation until certain liquidity levels were achieved, mainly via proceeds from sales of underlying properties, rents from tenants and new investor contributions.

(6) Fair value measurements (continued)

Since the inception of the withdrawal limitation, all sources of cash were first used to satisfy cash requirements at the properties, meet debt maturities, maintain compliance with debt covenants and meet upcoming separate account obligations. Outstanding withdrawal requests were paid in multiple payments. Except for certain de minimis payments, payments were made proportionately along with all other outstanding withdrawal requests, based upon available liquidity. All withdrawals were being transacted at the NAV price at the date of distribution. The restriction ended March 25, 2011. For further information on this pooled separate account's underlying real estate investments, review the Fair Value Measurements section of the account's Annual Report. Accordingly, during the year ended October 31, 2011 it was transferred out of level 3 and classified as a level 2 investment.

The tables below set forth a summary of changes in the fair value of the Plan's Level 3 investments for the years ended October 31, 2012 and 2011:

	Level 3 Investments Year Ended October 31, 2012

(7) NAV per share

In accordance with ASU No. 2009-12, the Plan expanded its disclosures to include the category, fair value, unfunded commitments, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of October 31, 2012 and 2011.

The following table for October 31, 2012 and 2011, sets forth a summary of the Plan's investments with a reported NAV.

Investments	Fair Value* 10/31/2012	Fair Value* 10/31/2011	Unfunded Commitments	Redemption** Frequency	Redemption Notice Period
Pooled Separate Accounts	$ 1,813,862	$ 1,571,344	$ -	Daily	None

* The fair values of the investments have been estimated using the net asset value of the investment.

** See Notes 6 and 11 for limitations on redemptions for the U.S. property separate accounts.

(8) Related party transactions

Plan investments are primarily within separate accounts managed by Principal with the exception of the guaranteed investment accounts, which are held in the general account of Principal. Principal is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Additionally, certain recordkeeping, custodial, and other services to the Plan were provided by Principal. Fees paid to Principal amounted to $582 and $856 during the years ended October 31, 2012 and 2011, respectively.

(9) Tax status

The Company amended the Plan effective October 5, 2009 when it adopted a non-standard proto-type plan document sponsored by Principal Financial Group. The Internal Revenue Service has determined that the non-standard prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and informed the Custodian of such in an opinion letter dated March 31, 2008. The Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(10) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

(11) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

Due to the state of the real estate market, Principal took action to protect participants' interest in the Principal U.S. Property Separate Account (U.S. Property). Effective, September 26, 2008, Principal implemented a pre-existing contractual limitation in the group annuity contract to delay payment of most requests for withdrawal from the Separate Account. This allows Principal to manage the Separate Account and satisfy withdrawal requests over time and fairly among all those who request a withdrawal. Until March 25, 2011, this separate account had this temporary withdrawal in place.

The withdrawal requests were honored proportionately as sufficient cash became available for distribution, in accordance with the terms of the group annuity contract. Death, disability and qualified retirement benefits and hardship withdrawals are not affected by this limitation and will be processed as usual. All withdrawals were being transacted at the NAV price at the date of distribution. The restriction ended March 25, 2011. Transfers and contributions into this separate account are also being accepted as usual.

(12) Subsequent events

The Plan has evaluated subsequent events through May 13, 2013, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
