NOTE A – DESCRIPTION OF PLAN

The following description of the Lieberman Management Services, Inc. Retirement Savings Plan (the "Plan") provides only general information. Interested parties should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing and 401(k) plan covering eligible employees of Lieberman Management Services, Inc., Lieberman Financial Group, LLC, and LMS Construction, Inc. (collectively, the" Company"). Non-excluded employees age 21 or older are eligible to participate upon completion of 250 hours of service in the first three months of employment or being credited with a year of service, subject to plan entry dates of the first day of each plan quarter. Effective September 1, 2011, non-excluded employees that meet the eligibility requirements can enter in the plan on the first day of the month and may be automatically enrolled in the plan unless they decline to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan is funded by voluntary pretax and post-tax contributions of participants and discretionary matching and profit sharing contributions of the Company. Participants may contribute to the Plan, through regular payroll deductions, an amount subject to limitations imposed by the Internal Revenue Code. Auto-enrolled participants will default to a three percent pretax contribution. Participants may also roll over amounts representing distributions from other qualified employee benefit plans. Participants who have attained age 50 before the Plan year are eligible to make additional pre-tax contributions, also known as "catch-up" contributions. The Company made discretionary matching contributions of $30,847 to the Plan and no discretionary profit sharing contributions for the year ended December 31, 2012.

Investment Options

Participants must direct their salary deferral contributions and the Company's contributions into a variety of investment funds made available and determined by the Plan Administrator. Participants may change their investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's discretionary matching and if any, an allocation of profit sharing contributions, and an allocation of plan earnings. The Company's discretionary matching contribution is allocated based on a percentage of the participant's contribution. The Company's discretionary profit sharing contribution is allocated as of the last day of the plan year and is based on a ratio of each eligible participant's compensation to total compensation for all eligible participants. Plan earnings are allocated to participants' accounts in direct proportion to their respective account balances, based on the performance of participants' investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

NOTE A – DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately fully vested in participant and rollover contributions plus the actual earnings thereon. The portion of the participants' accounts attributable to the Company's contributions becomes 25% vested after two years of service and continues to vest at the rate of 25% for each successive year until 100% vested after five years of service. In the event of death, disability, or retirement at designated ages, participants become fully vested.

Payment of Benefits

On termination of service, a participant may elect to receive a single, lump-sum payment equal to the value of his or her vested account balance, installments over a specified period of time, or a direct rollover distribution.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Participants are permitted to take loans from the Plan up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The loans are collateralized by the borrowers' respective vested account balances and bear interest at 4.25% to 8.00%. Principal and interest are paid through payroll deductions over a period not to exceed five years, unless for the purchase of a primary residence. Related interest income totaled $3,793 for the year ended December 31, 2012.

Administrative Expenses

Certain administrative expenses of the Plan, such as custodian, recordkeeping, accounting and legal services are paid by the Company. Administrative expenses incurred by the Plan include investment management services fees and are charged directly to participant accounts

Forfeitures

At December 31, 2012 and 2011, unallocated plan assets resulting from forfeited non-vested accounts totaled $3 and $72, respectively. These accounts will first be used to reduce future administrative expenses of the Plan, any forfeitures left after paying for expenses may be used to offset future Company contributions. Forfeitures used to reduce administrative expenses and Company contributions totaled $2,237 for the year ended December 31, 2012.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

In preparing the Plan's financial statements, management is required to make estimates and assumptions that affect the reported amounts of net assets, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuations and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for a complete description of the valuation methodologies used for assets measured at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes Plan's gains or losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Accounting Pronouncements Adopted

In May 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, *Fair Value Measurements, Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*, which provides guidance clarifying how to measure and disclose fair value. This guidance amends the application of the "highest and best use" concept to be used only in the measurement of fair value of nonfinancial assets, clarifies that the measurement of the fair value of equity-classified financial instruments should be performed from the perspective of a market participant who holds the instrument as an asset, clarifies that an entity that manages a group of financial assets and liabilities on the basis of its net risk exposure can measure those financial instruments on the basis of its net exposure to those risks, and clarifies when premiums and discounts should be taken into account when measuring fair value. The fair value disclosure requirements also were amended. The guidance was adopted in 2012 and did not materially affect the Plan's financial statements.

NOTE C – CONTRACT WITH INSURANCE COMPANY

In 2011, the Plan entered into a benefit-responsive guaranteed insurance contract with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed insurance contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTE C – CONTRACT WITH INSURANCE COMPANY (Continued)

Because the guaranteed insurance contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed insurance contract. The guaranteed insurance contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011 was $220,141 and $186,165, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting. Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring. The crediting interest rates and the average yield for 2012 and 2011 was 2.40% and 2.65%, respectively.

NOTE D – INVESTMENTS

The following table presents the fair value representing more than 5% of the Plan's net assets as of December 31:

	2012	2011
Principal Fixed Income Guaranteed Option	$ 220,141	$ 186,165
Lord Abbett Short Duration Income Fund	476,670	392,054
PIMCO Total Return Fund	550,140	443,377
Oppenheimer Equity Income Fund	261,326	190,892

During 2012 the Plan's investments in mutual funds (including investments bought, sold and held during the year) appreciated in value by $177,944.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE E – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guarantee Insurance Contract: Fair value is the amount plan sponsors would receive currently if they were to withdraw or transfer funds within the plan prior to their maturity. This fair value represents discontinuation value or contract value times 95% (One minus 5% withdrawal charge). Since the participants transact at contract value, fair value is determined annually for financials statement reporting purposes only. See note C for additional disclosures.

NOTE E – FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured on a recurring basis at fair value as of December 31:

NOTE E – FAIR VALUE MEASUREMENTS (Continued)

The Principal Fixed Income Guaranteed Option is a single group annuity contract with a fixed rate of interest. It is not a portfolio of contracts whose yields are based on changes in fair value of underlying assets. The fixed rate of interest is contractually determined and guaranteed by the Principal Life Insurance Company general account. This general account consists of over six thousand different investments, none of which are specifically assigned to this Plan. The valuation techniques used to measure the fair value are described above.

NOTE F – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become fully vested in their respective account balances.

NOTE G – INCOME TAX STATUS

Effective January 1, 2008, the Plan adopted a volume submitter plan sponsored by Principal Financial Group. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the Internal Revenue Code and therefore believe that the plan is qualified and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is no longer subject to U.S. federal income tax examinations by tax authorities for years before 2009.

NOTE H – INFORMATION CERTIFIED BY CUSTODIAN

Investments and notes receivable from participants held at December 31, 2012 and 2011, net appreciation in the fair value of investments, interest and dividends for the year ended December 31, 2012, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Principal Trust Company, the custodian. Accordingly, as permitted by 29 CFR 2520-103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodian.

NOTE I – RELATED-PARTY TRANSACTIONS

Certain plan investments are managed by Principal Trust Company effective September 1, 2011. Principal Trust Company is the custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. The Plan also paid $4,340 for investment management services to Principal Trust Company.

NOTE J – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through April 30, 2013 the date that these financial statements were available to be issued.
