Plymouth Tube Company 401(k) Savings Plan and Trust

Notes to Financial Statements

Note 1. Description of Plan

The following brief description of the Plymouth Tube Company 401(k) Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for more complete information.

General: The Plan is a defined contribution plan. All salaried and hourly employees of Plymouth Tube Company (Company) who have completed the lesser of one year of service or a one-month special eligibility period and who are not covered by a collective bargaining agreement are eligible to participate. Pursuant to certain collective bargaining agreements, collectively bargained employees at Winamac and East Troy locations were eligible to participate effective January 1, 1998 and January 1, 2005, respectively. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: The Plan allows eligible employees to contribute between 2 percent and 100 percent of their pre-tax compensation, up to the maximum amount allowed by the Internal Revenue Code (IRC). The Plan provides for automatic enrollment. Participants are treated as having elected to contribute 3 percent of their pre-tax compensation, unless a different amount or an election not to contribute has been submitted. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan is designated as a safe-harbor plan. For participants not covered by a collective bargaining agreement, employer contributions are 100 percent of the first 3 percent of employee pretax contributions and 50 percent of the next 2 percent of eligible contributions. For collectively bargained employees at the Winamac location, employer contributions are 100 percent of the first 3 percent of employee pre-tax contributions. Pursuant to a collective bargaining agreement, participants of the East Troy location are not eligible for discretionary employer matching contributions.

In addition, the Company's Board of Directors will determine the amount of any additional profit sharing contributions to be made. There were no additional profit sharing contributions during the year ended December 31, 2012.

Contributions are subject to certain limitations as provided in the IRC and described by the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and plan earnings, and charged with an allocation of investment expenses. Allocations are based on a participant's compensation or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants not covered by collective bargaining agreements are immediately vested in their contributions, safe-harbor employer contributions and the earnings thereon. Vesting in Company contributions made prior to the January 1, 2006, safe-harbor amendment, the earnings thereon and vesting for employees covered by collective bargaining agreements is determined in accordance with the following schedule:

Years of Service	Vesting Percentage
Less than 1 year	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Participant notes receivable: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance, whichever is less. The loans are secured by 50 percent of the vested balance in the participant's account. Only one loan may be outstanding at any time. Interest rates are established at loan origination as prime plus 1 percent. Interest rates on loans currently outstanding range from 4.25 percent to 9.25 percent. Loan repayment must be monthly over a period not to exceed five years, except for loans used to purchase a primary residence where the repayment period may be as long as 15 years. The loans are collateralized by the balance in the participant's account. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested balance in his or her account. Partial payments are allowed in the minimum amount necessary to satisfy IRC 401(a)(9). In-service withdrawals prior to termination of service are allowed for any reason after attaining normal retirement age (age 65).

Forfeitures: At December 31, 2012 and 2011, forfeited nonvested accounts totaled \$1,220 and \$1,398, respectively. These accounts will be used to reduce future employer contributions. In 2012, \$6,124 of forfeited nonvested accounts was used to reduce employer contributions.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for Benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by the investment custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable are measured at their unpaid principle balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Note 2. Significant Accounting Policies (Continued)

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: The Company pays all administrative costs of the Plan except those incurred and assumed by individual participants.

New accounting pronouncement: In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements*. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 4 for impact of adoption.

Pending accounting pronouncement: In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the ASC, including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Subsequent events: The Plan's management has evaluated subsequent events for potential recognition and/or disclosure through June 5, 2013, the date the financial statements were available to be issued.

Note 3. Information Certified by Putnam Fiduciary Trust Company

The following is a summary of the Plan's asset and income information as of December 31, 2012 and 2011, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the current and former trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the current and former trustee that information provided to the Plan Administrator by the current and former trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively.

Shares of common/collective trusts: Valued based on the NAV of units of the common collective trust. The NAV, as provided by the Putnam Fiduciary Trust Company, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 6. Related Party Transactions

Certain funds of the Plan are managed by Putnam Fiduciary Trust Company. Putnam Investments is related to the trustee by common ownership. Therefore, these are party-in-interest transactions.

Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for these services.

Plymouth Tube Company 401(k) Savings Plan and Trust

Notes to Financial Statements

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 8. Tax Status

The Plan has adopted a prototype plan of the trustee. The trustee requested that the Internal Revenue Service (IRS) provide an opinion related to the acceptability of the prototype plan under Section 401 of the IRC and received a favorable opinion. The Plan has been amended since receipt of the IRS determination letter. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
