Newspaper Employees' Pension Plan
Denver, Colorado

We have audited the accompanying statement of net assets available for benefits of the Denver Typographical Union Newspaper Employees' Pension Plan (the Plan) as of September 30, 2012 and 2011 and the related statement of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits at September 30, 2011 and 2010 and related statement of changes in accumulated plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of September 30, 2012 and changes therein for the year then ended and its financial status as of September 30, 2011 and changes therein for the year then ended, and information regarding its accumulated plan benefits as of September 30, 2010 and changes therein for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule included on page seventeen is presented for the purpose of additional analysis and is not a required part of the financial statements. The supplemental schedule of assets held at the end of the year is supplemental information required by the Department of Labor's Rules and

NEWSPAPER EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED SEPTEMBER 30, 2012 AND 2011

A. Description of the Plan:

The following brief description of the Denver Typographical Union Newspaper Employees' Pension Plan (the Plan) is provided for general information purposes only. Financial statement users should also refer to the Plan Agreement for more complete information.

General:

The Plan currently is a collectively-bargained, single-employer, defined benefit pension plan established on October 1, 1959, under an agreement, as amended, which is presently between the Denver Post, LLC and the Denver Typographical Union, to provide pension, disability and death benefits to eligible employees with qualifying years of credited service. This plan was soft frozen effective January 1, 2008. As a result of the freeze, new hires are not eligible to participate. Current participants will continue to earn credit for benefit accrual up to December 31, 2012, at which point they will cease to accrue future service credits. The Fund is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits:

Employees with two years of vesting service are eligible for pension benefits beginning at age 62. Early retirement benefits are payable at a reduced rate, based upon age at pension commencement, after participants have completed five years of service and attained the age of 55. Participants who terminate employment at any age with two years or more of vesting service will have rights to a benefit under the Plan.

Disability and Death Benefits:

Participants who terminate employment due to disability, with ten years of vesting service, will be able to receive pension benefits at any age.

Death benefits may be paid as a lump sum or as an annuity, under either pre-retirement or post-retirement formulas, to the spouse, depending upon the age of the vested participant at date of death.

B. Summary of Significant Accounting and Reporting Policies:

The following are the significant accounting and reporting policies followed by the Plan:

Basis of Accounting:

Since the Plan has been frozen, the financial statements at September 30, 2012 and 2011 are presented on the liquidation basis of accounting, which is consistent with prior reporting on the accrual method.

B. Summary of Significant Accounting and Reporting Policies (Continued):

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note G for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions:

Employer contributions receivable represents amounts due at September 30th of each year for shifts worked that are collected in the following year. The receivable is stated at the net realizable amount.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those periodic payments that are attributable under the Plan's provisions to the service that members have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated members or their beneficiaries, (b) beneficiaries of members who have died, and (c) present members or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent that they are deemed attributable to member service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Aon Hewitt as of the beginning of the Plan year and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

B. Summary of Significant Accounting and Reporting Policies (Continued):

Actuarial Present Value of Accumulated Plan Benefits (Continued):

The significant assumptions used in the valuations as of October 1, 2011 were:

- Life expectancy of participants: 2011 Static Mortality Table for Annuitants and Non-Annuitants per Section 1.430(h)(3)-1(e)
- Interest rate: 7.5%
- Retirement age: graduated rates beginning at age 55
- Termination rates: age 62
- Disability rates: graduated
- Marital status: percentage married: males - 85%; females - 85%
- Age difference: males are assumed to be three years older than spouses
- Valuation method: Standard Unit Credit Cost Method at a discount rate of 7.5%
- Actuarial value of assets: market value of assets
- Trust expenses: $150,000

The *Accounting and Reporting by Defined Benefit Pension Plans* valuation method reflects the following changes:

- A change in the mortality assumption from the 2010 Static Mortality Table for Annuitants and Non-Annuitants per Section 1.430(h)(3)-1(e) to the 2011 Static Mortality Table for Annuitants and Non-Annuitants per Section 1.430(h)(3)-1(e).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue in operation. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

Fair Value of Financial Instruments:

The Plan's financial instruments consist of cash, investments, receivables, prepaid expenses, and accounts payable. The recorded values of cash, receivables, prepaid expenses, and accounts payable approximate fair value based on their short-term nature and the fair value of investments is based on quoted market prices.

C. Concentration of Credit Risk:

The Plan's cash is held at a financial institution that is insured by the Federal Deposit Insurance Corporation (FDIC). The Plan's deposits did not exceed the insured amount at September 30, 2012 or 2011.

Contributions to the Plan are dependent on work activity at the Denver Post, LLC in Colorado.

D. Funding Policy:

The Plan is funded by employer contributions based on rates set forth in the collective bargaining agreement for each shift worked. The Plan has met minimum funding requirements of ERISA for the plan years ended September 30, 2011 and 2010.

The Pension Protection Act of 2006 (PPA) revised the minimum funding rules beginning in 2008. The provisions of PPA have been reflected in the Plan valuation. Beginning in 2008, the law requires an annual actuarial certification of the Plan's funded status within the first 120 days of the Plan year.

The funding target attainment percentage is obtained by dividing the Plan's net plan assets by the plan liabilities on the valuation date. The funding target attainment percentage was 72.16 percent at October 1, 2011 and 80.15 percent at October 1, 2010.

The Plan had a funding shortfall of $6,456,612 at October 1, 2011. The funding shortfall would require quarterly contributions, which have been satisfied.

Although it has not expressed any intention to do so, the Plan has the right to discontinue contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

E. Plan Termination:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

E. Plan Termination (Continued):

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

3. All other vested benefits (that is, vested benefits not insured by the PBGC).

4. All nonvested benefits.

Certain benefits of the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the plan terminate at some future time will depend on the sufficiency, at that time, of the plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

F. Investments:

The Plan's investments in mutual funds and collective trusts are stated at fair value determined by quoted market price and are held by a bank as custodian. Investments that represent five percent or more of the Plan's net assets are separately identified. The following table presents the cost and fair value of investments at September 30, 2012 and 2011:

	ORIGINAL COST		FAIR VALUE

F. Investments (Continued):

During the years ended September 30, 2012 and 2011, the Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in value as follows:

	2012	2011
Mutual funds:

G. Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- Quoted prices for similar or identical assets in active or inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability or are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

G. Fair Value Measurements (Continued):

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2012 and 2011.

Money market and mutual funds: Valued at net asset value (NAV) of shares held by the Plan at year end.

Collective trusts: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2012 and 2011:

		Fair Value Measurements at September 30, 2012

H. Plan Tax Status:

The Plan obtained its latest determination letter on July 3, 2012 under 501(c)(9) of the Internal Revenue Code (IRC) in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Management performs an annual analysis of the Plan's various tax positions, assessing the likelihood of those positions being upheld upon examination by relevant taxing authorities. Management believes the Plan has conducted its operations in accordance with, and has properly maintained its tax-exempt status, and has taken no material uncertain tax positions that qualify for recognition or disclosure in the financial statements. The Plan is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2006.

I. Plan Amendments:

The Plan amended its provisions in 1976 to comply with the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Since that time, the Plan has been restated and amendments to the Plan have been enacted by the Board of Trustees to comply with federal law, enact benefit improvements, and to redefine and clarify benefits and eligibility for benefits. There were no significant amendments to the Plan during the years ended September 30, 2012 and 2011.

J. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

K. Party-In-Interest Transactions:

Fees incurred by the Plan for investment management services amounted to $53,803 and $49,046 for the years ended September 30, 2012 and 2011, respectively. Fees were paid during the year for legal, accounting, actuarial and other professional services rendered by parties-in-interest.

L. Subsequent Event:

The Plan did not have any subsequent events through May 23, 2013, which is the date the financial statements were available to be issued, for events requiring recording or disclosure in the financial statements for the year ended September 30, 2012.

M. Reconciliation of Financial Statements to Form 5500:

The following are reconciling items between the financial statements and Form 5500, Schedule H:

- Realized gains (losses) reported in the Plan's Form 5500 are determined based on the current value of the assets sold at the beginning of the year or the cost of assets acquired during the year. The net gains in the accompanying statement of changes in net assets available for benefits are determined based on the original costs of the assets.

- Dividends and interest are separately stated in the Plan's form 5500.

- Unrealized appreciation (depreciation) reported in the Plan's Form 5500 is determined based on the current value of the assets sold at the beginning of the year or the cost of assets acquired during the year. The appreciation (depreciation) in the accompanying statement of changes in net assets available for benefits is determined based on the original costs of the assets.

M. Reconciliation of Financial Statements to Form 5500 (Continued):

- Investment revenues are shown net of investment expenses on the statement of changes in net assets available for benefits. On Form 5500, these expenses are shown in the expense section of the tax return, which creates a difference in total income and total expenses.

For ERISA Requirements

Benefit limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $195,000.
Valuation of plan assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected return on assets	
2009 plan year	6.80%
2010 plan year	6.68%
Trust expenses included in target normal cost	The Target Normal Cost includes estimated administrative expenses (based on the prior years' actual amounts) plus the estimated PBGC premiums for the current year. For 2011, this amount is $150,000.
Actuarial method	Standard unit credit cost method
Valuation date	October 1, 2011

Changes in ERISA Methods/Assumptions Since the Prior Year

Method Changes

The funding valuation does not reflect any method changes.

Assumption Changes

The funding valuation reflects the following assumption changes:

- A change in the interest rate assumption from segment rates as of June 2010 to segment rates as of June 2011.

- A change in the mortality assumption from the 2010 static mortality table for annuitants and non-annuitants per section 1.430(h)(3)-1(e) to the 2011 static mortality table for annuitants and non-annuitants per section 1.430(h)(3)-1(e).
