Independent Auditor's Report

To the Plan Administrator and Trustees
R.K. Dixon 401(k) Profit Sharing Plan and Trust
Davenport, Iowa

We were engaged to audit the accompanying statements of net assets available for benefits of the R.K. Dixon 401(k) Profit Sharing Plan and Trust (the Plan) as of August 3, 2012 and December 31, 2011, and the related statement of changes in net assets available for benefits for the period ended August 3, 2012, and the supplemental schedule of assets (held at end of year) as of August 3, 2012. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR Section 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Massachusetts Mutual Life Insurance Company (MassMutual) and State Street Bank and Trust Company (SSB&T), the custodians of the Plan, except for comparing this information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the custodians hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the custodians regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by MassMutual as of December 31, 2011 and SSB&T as of and for the period ended August 3, 2012.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As discussed in Note 7 to the financial statements, the Board of Directors of R.K. Dixon Company, the Plan's sponsor, voted on May 2, 2012 to merge the Plan into the Global Imaging Systems 401(k) Retirement Plan (Global Plan). All Plan assets were transferred to the Global Plan on August 3, 2012.

Note 1. Plan Description

The following description of the R.K. Dixon 401(k) Profit Sharing Plan and Trust (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan was a defined contribution plan covering all employees of R.K. Dixon Company (Company) who had reached age 21 and completed one year of service with 1,000 hours of service. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Funding policy:

Prior to the plan merger discussed in Note 7, participants could contribute up to the maximum percentage allowable under the Internal Revenue Code of their salary in the form of a salary reduction. The Plan allowed the Company to make discretionary matching contributions. The discretionary matching contribution for 2012 was 25 percent of the participant's salary deferral up to the first 6 percent of salary deferred (i.e., a maximum matching contribution equal to 1.5 percent of the participant's wages). The Company could also choose to make a discretionary profit sharing contribution. No discretionary profit sharing contribution was made for the period ended August 3, 2012. Participants had to be actively employed at the end of the Plan year to receive an allocation of the profit sharing contribution.

Forfeitures:

Forfeitures were used to reduce future employer contributions and to pay some administrative expenses. Unused forfeitures included in the Plan's net assets available for benefits as of August 3, 2012 and December 31, 2011 were none and $4,393, respectively. Forfeitures of $6,077 were used to reduce employer contributions and $2 were used to pay administrative expenses for the period ended August 3, 2012.

Participant accounts:

Each participant's account was credited with the participant's contributions, the Company's matching contribution and allocations of (a) the Company's profit sharing contribution and (b) Plan earnings. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account. The Plan allowed each participant to choose their own investment mix for employer and participant contributions. Participants could change their investment elections at any time. If a participant did not designate any investment options, all contributions to their account were deposited into the T. Rowe Price Retirement Income Fund.

Vesting:

Participants were immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts was based on years of continuous service. A participant was 100 percent vested after six years of credited service.

Note 1. Plan Description (Continued)

Notes receivable from participants:

Participants could borrow from their fund accounts up to a maximum of 50 percent of the participant's vested account balance, with the minimum notes receivable allowed being $1,000 and the maximum $50,000. The notes receivable were secured with the participant's vested account balance and bore interest at the prime rate plus 2 percent. Principal and interest were paid through payroll deductions over a maximum five-year period or a reasonable period of time, which could exceed five years, for notes receivable used to acquire a principal residence. Participants could have a maximum of two notes receivable outstanding at any time.

Payment of benefits:

Upon the date of normal retirement, early retirement, death, total and permanent disability or termination of service, a participant could receive either a lump-sum amount equal to the value of the vested portion of their account, an annuity or installments.

Note 2. Summary of Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contract which approximated contract value of this investment. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent loans are treated as distributions based on the terms of the plan document.

Note 2. Summary of Accounting Policies (Continued)

Payment of benefits:

Benefits were recorded when paid.

Administrative expenses:

The Plan paid expenses related to investment and certain recordkeeping fees. All other expenses are paid by the Company.

Subsequent events:

The Plan Administrator has evaluated subsequent events through June 13, 2013, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Plan Custodian

The following is a summary of the Plan's asset information included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the Plan custodians, Massachusetts Mutual Life Insurance Company (MassMutual) as of December 31, 2011 and State Street Bank and Trust Company as of and for the period ended August 3, 2012, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	August 3, 2012	December 31, 2011
Investments, at fair value:		
Fixed fund	$ -	$ 5
Pooled separate accounts	-	9,526,906
	$ -	$ 9,526,911
Notes receivable from participants	$ -	$ 142,031

	Period Ended August 3, 2012
Investment income, net appreciation in fair value of investments, pooled separate accounts	$ 765,614
Interest on notes receivable from participants	$ 2,767

Note 4. Investments and Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the fair valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used as of August 3, 2012 and December 31, 2011:

Fixed fund: Valued based on the fixed fund's underlying investments as reported to the investment advisor using the audited financials of the fixed fund as of year-end.

Pooled separate accounts: Valued at the unit value calculated by the net asset value (NAV) of the funds underlying investments or based on the net assets of the underlying pool of securities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Investments and Fair Value Measurements (Continued)

The following table sets forth by level, within the value hierarchy, the Plan's investments at fair value as of December 31, 2011 and presents separately those investments that represented 5 percent or more of the Plan's net assets. There were no Plan investments as of August 3, 2012.

(a) This category seeks long-term capital growth. These funds invest primarily in equity securities.

(b) This category seeks growth of capital over the long term. The fund invests at least 80% of net assets in a broadly diversified portfolio of common stocks of mid-cap companies.

(c) This category seeks long-term capital appreciation. These funds normally invest primarily in common stocks and equity securities of smaller companies which the fund believes offer potential for long-term growth.

(d) This category seeks the highest total return over time consistent with an emphasis on both capital growth and income.

(e) This category seeks long-term capital appreciation. These funds normally invest in equity securities issued by foreign companies of any market capitalization.

(f) This category seeks total return. These funds invest in a diversified portfolio of fixed income securities and other debt instruments of domestic and foreign entities.

(g) This category seeks high current income consistent with maintaining liquidity and preserving capital.

Note 5. Risks and Uncertainties

The investments of the Plan were exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term could materially affect investment balances and the amounts reported in the financial statements.

Note 6. Related Party Transactions

Plan investments were fixed funds or units of pooled separate accounts managed by MassMutual, a plan custodian; and therefore, transactions involving these investments qualified as party-in-interest transactions.

Note 7. Plan Merger

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

The Plan Sponsor, R.K. Dixon Company (Company) was acquired by Global Imaging Systems, Inc. (Global) in February 2012. The Company and Global executed a merger agreement on May 2, 2012 whereby the Plan would merge into the Global Imaging Systems 401(k) Retirement Plan (Global Plan). The effective date of the merger was August 3, 2012, and all assets of the Plan were transferred to the Global Plan as of that date.

Note 8. Tax Status

The Plan was a nonstandardized profit sharing 401(k) prototype plan sponsored by Massachusetts Mutual Life Insurance Company. The prototype plan had received a letter from the Internal Revenue Service as to its qualified status. The Plan had been amended and restated since receiving the determination letter. The Plan Administrator believes the Plan, as amended and restated, was designed and being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision of liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2009.
