NOTE 1 DESCRIPTION OF PLAN

The following description of the GrayRobinson 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of GrayRobinson, P.A. (the Company) who have completed 90 days of service and are age nineteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Contributions – Each year, participants may contribute up to the maximum allowed by the Internal Revenue Service of pretax annual compensation, as defined in the Plan. Beginning February 1, 2006, participants are also able to make Roth elective contributions. Catch-up contributions may be made by participants who are at least age 50 or will be 50 by the end of the calendar year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers a common/collective trust, two money market funds and various mutual funds as investment options for participants. The Company contributes an amount equal to 50% of each participant's eligible contributions, not to exceed $350. The Company will determine the amount of its matching contributions by disregarding participants not entitled to an allocation of matching contributions. A participant will not receive an allocation of matching contributions if deemed a highly compensated employee for the plan year or is licensed to practice law. Additional amounts may be contributed at the discretion of the Company. Contributions are subject to certain limitations.

Participant Accounts – Each participant has established a Deferral Contributions account, a Roth Contributions account, a Qualified Matching Contributions account, a Qualified Nonelective Contributions account, and an Employer Nonelective Contributions account. Deferral and matching contributions are allocated to those participants on whose behalf the contributions were made. Qualified nonelective contributions are allocated to those participants eligible for allocation based on participant compensation. Employer nonelective contributions are allocated based upon the allocation groups as prescribed by the Plan.

Vesting – Participants are immediately vested in their deferral, Roth, rollover, qualified matching, and qualified nonelective contributions and actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. A participant does not begin to vest until after year two (20%) and increases ratably until fully vested after year six.

NOTE 1 DESCRIPTION OF PLAN – Continued

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% - 7.50% which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through biweekly payroll deductions.

Payment of Benefits – Upon termination of service, a participant may elect to receive either a lump sum amount equal to the value of his or her vested account, or installment payments over a specified period of time subject to certain limitations.

Forfeited Accounts – At August 31, 2012 and 2011, forfeited nonvested accounts totaled $222,000 and $144,000, respectively. These accounts will be used to reduce future employer contributions. During 2012 and 2011, employer contributions were reduced by approximately $145,000 and $198,000, respectively, from forfeited nonvested accounts.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The Statements of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates – The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Life insurance policies are valued at their cash surrender value. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – Most expenses of maintaining the Plan are paid by the Company.

Subsequent Events – The Plan has evaluated subsequent events through June 14, 2013, the date which the financial statements were available to be issued.

NOTE 3 INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED)

Other than the fair value of the common/collective trust and the related adjustment from fair value to contract value for the interest in the collective trust relating to fully benefit-responsive investment contracts and the information on the segregated accounts disclosed in Note 5, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule of assets (held at end of year), including investments and notes receivable from participants held at August 31, 2012 and 2011, and net appreciation in fair value of investments, interest and dividends for the years ended August 31, 2012 and 2011, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by SunTrust Bank, the trustee of the Plan. The contract value of the common/collective trust was certified by the trustee.

NOTE 6 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2012 and 2011.

Common/collective trusts: Valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end.

Money market funds: Valued based on the quoted prices in active markets for identical assets.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 FAIR VALUE MEASUREMENTS – Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2012 and 2011:

NOTE 6 FAIR VALUE MEASUREMENTS – Continued

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of August 31:

	2012			
Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Federated Capital Preservation Fund ISP	$ 14,502,720	$ -	Daily	Daily

The Federated Capital Preservation Fund's objective is to maintain stability of principal and high current income. However, there is no assurance that this objective can be achieved.

NOTE 7 RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the trustee as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the company contribution portion of their account.

NOTE 9 TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax-exempt.

NOTE 9 TAX STATUS - Continued

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and to recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2009.

NOTE 10 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
