NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies applied in the preparation of the financial statements of Hinsdale Nurseries, Inc. Profit Sharing Plan (the Plan).

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, where applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Investment Transactions

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. See note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments sold as well as held during the year.

Subsequent Events

The Plan has evaluated subsequent events through June 14, 2013, the date the financial statements were available to be issued.

NOTE B - DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

1. General - The Plan is a defined contribution plan covering all full time employees over twenty-one years of age who have completed one year of eligibility service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions - Each year, Hinsdale Nurseries, Inc. (the Company) may contribute to the Plan an amount determined by the Company at its discretion. The Plan does not permit nor require employee contributions. No contribution was made for the year ended August 31, 2012. The last Company contribution was made in 2003.

3. Participant Accounts - Each participant's account is credited or charged (in the case of losses) with allocations of (a) the Company's contribution and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which each participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE B - DESCRIPTION OF THE PLAN - CONTINUED

4. Vesting - Vesting in the Company's contribution portion of the participants' account, plus actual earnings thereon, was based on years of continuous service. A participant is 100 percent vested after six years of credited service.

5. Investment options - The Trustees will hold all amounts the Company contributes to the Plan in a trust fund for the benefit of the participants. Participant-directed accounts are not permitted.

6. Participant Loans – Participant loans are not permitted under the Plan.

7. Payment of Benefits - On termination of service due to death, disability or retirement, a participant (or their designated beneficiary) could elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or convenient installments over a period of time not exceeding the life expectancy of the participant and/or a designated beneficiary.

8. Plan Expenses – The Plan was amended effective March 7, 2012 to allow the Plan expenses to be paid from the Plan assets.

NOTE C – INVESTMENTS

The following table presents investments that represent five percent or more of the Plan's net assets:

	2012	2011
Common Stock		
Kayne Anderson MLP Invt Co.	$ 116,008	$ 100,436
Registered investment entities		
Aquila Three Peaks High Income Fund Cl Y	126,297	124,511
Loomis Sayles Invst Grade Bond Cl Y	134,856	149,352
Limited Partnership		
PCM SQ Opportunity, L.P.	964,125	-

During the year ended August 31, 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the period) appreciated (depreciated) in value as follows:

Common stock	$ 23,480
Government obligations	99
Registered investment entities	3,310
Real Estate Investment Trust	(734)
Limited Partnership	64,125
Net appreciation in fair value	$ 90,280

NOTE D – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE E – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2012 and 2011.

Common stocks, real estate investment trust and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Limited Partnership: Valued at fair value as determined by the general partner.

NOTE E – FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2012 and 2011:

	Investments at Fair Value at August 31, 2012

NOTE E – FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended August 31, 2012:

	Limited Partnership Interest

The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 64,125

NOTE F – PLAN TERMINATION

On November 8, 2012, the Board of Directors of the Company adopted a resolution to terminate the Plan effective November 8, 2012. As a result of the of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan will be allocated to participant accounts and distributed in such a manner as the company may determine.

NOTE G – TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has not requested a determination letter with respect to the amendments adopted since the above referenced date, however the Plan administrator believes that the Plan is designed and is currently operating in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE F – RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan utilizes a third party administrator to perform the recordkeeping of the participants' accounts. In addition, all investments of the Plan are managed by an outside investment firm. These are related party and party-in-interest transactions. Such parties are parties-in-interest under ERISA.
