Benefits Administrative Committee
Valspar 401(k) Plan for Hourly Employees
Minneapolis, Minnesota

We have audited the accompanying statements of net assets available for benefits of Valspar 401(k) Plan for Hourly Employees as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Valspar 401(k) Plan for Hourly Employees as of December 31, 2012 and 2011, and the changes in its net assets available for benefits for the year ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America.

Benefits Administrative Committee
Valspar 401(k) Plan for Hourly Employees

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is presented fairly, in all material respects, in relation to the basic financial statements taken as a whole.

VALSPAR 401(K) PLAN FOR HOURLY EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 1 DESCRIPTION OF THE PLAN

The following description of Valspar 401 (k) Plan for Hourly Employees (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Valspar Corporation (the Company) established the Plan to provide retirement and other benefits for employees and their beneficiaries. The Plan is a defined-contribution plan that is available to hourly employees as defined in accordance with the Plan. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company has appointed Fidelity Management Trust Company (Fidelity or the Trustee) to be the trustee of the Plan.

Transfer of Assets

Transfers both in and out of the Plan occurred as a result of employees changing positions and their status in collective bargaining agreements within the Company.

Eligibility

Individuals become eligible to defer wages after the employee has completed one hour of service. Participants must complete 365 days of service to share in the Company's contributions to the Plan.

Contributions

Employees electing to participate in the Plan make voluntary contributions on a pretax basis subject to certain limits. Upon becoming eligible to participate, participants are automatically enrolled to defer 4% of their eligible compensation unless otherwise instructed by the participants. Participants are allowed to change their salary deferral percentage at any time. The Company has agreed to contribute an amount equal to 100% of the first 2% and 50% of the next 2% of each employee's contributions up to a maximum match of 3% of eligible wages. Additionally, the Company may elect to contribute a discretionary matching contribution (not to exceed 100% of Company matching contributions) for eligible participants who are employed on the last day of the Plan year subject to certain provisions. The Company did not made a discretionary match contribution during the year ended December 31, 2012.

The Plan allows participants who are age 50 and older to make catch up contributions. Participants may also contribution amounts representing distributions from other qualified plans. Effective February 1, 2012, the Plan was amended to provide participants with an opportunity to make Roth contributions and in-plan Roth rollovers.

Vesting

Employee and employer contributions vest immediately upon the participant completing one hour of service. A participant who is not credited with one hour of service after December 31, 2007, shall continue to be subject to the vesting rules of the prior Plan document in effect at the time of the participant's termination.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting (Continued)

Forfeitures resulting from the termination of Plan participants with less than 100% vesting reduce the Company's contributions in the year of forfeiture. During the year ended December 31, 2012, no forfeitures were applied against employer contributions. There were approximately \$21,000 and \$25,000 of forfeitures outstanding at December 31, 2012 and 2011, respectively.

Investment Options

Participants currently have the option to allocate Plan contributions among several investment options, including the common stock of the Company. All choices vary in types of investments, rates of return and investment risk. Participants may elect to have all or part of their account balances and future contributions invested in one fund, transferred to another fund, or in any combination.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and an allocation of plan earnings. Allocations are based on participants' earnings and account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Dividends

Dividends on Company stock are either reinvested in The Valspar Corporation Stock Fund or distributed to participants. Dividends on The Valspar Corporation common stock received by The Valspar Corporation Master Trust (the Master Trust) totaled approximately \$5,319,000 for the year ended December 31, 2012. For the year ended December 31, 2012, the financial statements and Master Trust footnote reflect only the amount of dividends reinvested, which totaled approximately \$6,737,000 at the Master Trust level.

Distributions to Participants

Participants may elect to receive benefits in the form of a lump-sum distribution, an in-kind distribution of employer securities, a direct rollover to an IRA account or another qualified employee benefit plan, or in a series of installments over the life expectancy of the participant or the joint life expectancies of such participant and such participant's designated beneficiary. However, according to the Plan, benefits will be paid in the form of a lump-sum distribution in the event that the participant's vested account balance does not exceed \$5,000. In-service and hardship distributions are also allowed subject to Plan provisions.

Notes Receivable from Participants

Participants are permitted to borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of the vested balance. The repayment period is not to exceed 60 months; however, prior to January 1, 2009, participants were allowed to have notes outstanding for the purchase of a principal residence for a reasonable period of

time, often exceeding the 60-month repayment period. The notes are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest are paid ratably through after-tax payroll deductions over the terms of the notes, which expire through 2017.

Plan Administration

The Plan is administered by the Company, which absorbs a portion of the administrative costs of the Plan, with the Plan absorbing the major portion. The Trustee is responsible for holding the assets of the Plan and participant record keeping.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements reflect transactions on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Fully Benefit-Responsive Investment Contract

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. See Note 5 for further discussion.

Investment Valuation and Income Recognition

Investments in the Master Trust are stated at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Realized gains and losses related to sales of investments are recorded on a trade-date basis. Investment income and expenses are allocated to the Plan based upon its pro rata share in the net assets of the Master Trust.

VALSPAR 401(K) PLAN FOR HOURLY EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Tax Status

The Plan obtained its latest determination letter on August 17, 2011, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the Code). The Plan Administrator believes the Plan, as currently designed, is being operated under the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Termination of the Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants would become fully vested in their accounts.

VALSPAR 401(K) PLAN FOR HOURLY EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 3 INVESTMENTS IN THE VALSPAR CORPORATION MASTER TRUST

Investments of the Plan are held in the Master Trust. The Master Trust also holds assets of the Valspar Savings and Retirement Plan.

Fidelity serves as the trustee of the Master Trust, and participants can choose among several investment options. Participants may change their investment elections and allocations daily in 1% increments.

The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. The Plan's interest in the fair value of the Master Trust was 7.7% and 7.2% on December 31, 2012 and 2011, respectively. Investments in the Master Trust are determined on a unit-value basis as determined by Fidelity. The Plan's investment returns may not approximate these percentage interests in returns of the Master Trust due to the mix of Master Trust investments held by the Plan.

The Plan provides for investments in various investment securities, including Company stock which, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. At December 31, 2012 and 2011, approximately 49% and 45%, respectively, of the Master Trust's net assets were invested in the common stock of The Valspar Corporation. The underlying value of The Valspar Corporation Stock Fund is dependent on the performance of The Valspar Corporation and the market's evaluation of such performance. Due to the level of risk associated with certain investment securities, including The Valspar Corporation common stock, it is reasonably possible that changes in the values of investment securities have occurred since December 31, 2012, or will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 FAIR VALUE MEASUREMENTS

Accounting guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

The Valspar Corporation Stock Fund

The Valspar Corporation Stock Fund consists primarily of shares of The Valspar Corporation common stock, valued at the closing price reported on the New York Stock Exchange. The fund also contains interest-bearing cash, miscellaneous receivables, and accrued income existing at year-end, offset by the benefit payable in The Valspar Corporation common stock.

VALSPAR 401(K) PLAN FOR HOURLY EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Fully Benefit-Responsive Contract and Common Collective Trust

The investment in the common collective trust (Fidelity U.S. Equity Index Fund) is recorded at the underlying net asset value per unit, which approximates fair value based on the audited financial statements of these funds. The investment in the fully benefit-responsive investment contract (Fidelity Managed Income Portfolio II Fund) is stated at fair value on the statement of net assets available for benefits, with an adjustment from fair value to contract value on that statement. Investment contracts are generally valued at contract value, rather than fair value, to the extent they are fully benefit-responsive. The fair value of the fully benefit-responsive investment contract is calculated using a discounted cash flow model which considers the contractual terms of the underlying GICs. See further discussion at Note 5.

Mutual Funds

Mutual funds are valued at the prices reported in the active markets in which the securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Master Trust's investments at fair value as of December 31, 2012 and 2011:

NOTE 5 FAIR VALUE OF INVESTMENTS REPORTED AT NET ASSET VALUE

Accounting guidance provides clarification on how entities should estimate fair value of certain alternative investments. The fair value of investments within the scope of this guidance can now be determined using net asset value (NAV) as a practical expedient when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. It also requires disclosure of certain attributes by major category of alternative investments, regardless of whether the practical expedient was used.

The following table sets forth additional disclosures of the Mater Trust's investments whose fair value is estimated using NAV as of December 31, 2012 and 2011:

	Fair Value 2012	Fair Value 2011
Fully Benefit-Responsive Contract:		
Fidelity Managed Income Portfolio II Fund (a)	\$ 75,297,843	\$ 64,936,289
Common Collective Trust:		
Fidelity U.S. Equity Index Fund (b)	35,073,962	30,501,073
Total	<u>\$ 110,371,805</u>	<u>\$ 95,437,362</u>

- (a) The objective of the fund is to preserve capital and achieve a competitive level of income over time. To achieve its investment objective, it invests in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into "wrapper" contracts issued by third parties and invests in cash equivalents represented by shares in a money market fund. It seeks to minimize the exposure to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers. The ability to receive amounts due pursuant to these contracts is dependent upon the issuers' ability to meet their financial obligations. The beneficial interest in the net assets of the portfolio is represented by units. Issues and redemptions of units are recorded, upon receipt of unit holders' instructions in good order, based on the next determined NAV per unit. NAV per unit is determined each business day.

(b) This objective of the fund is to provide investment results that correspond to the total return performance of common stocks publicly traded in the United States and the fund will generally be invested in securities of companies which compose the S&P 500 Index. The beneficial interest in the net assets of the portfolio is represented by units. Issues and redemptions of units are recorded, upon receipt of unit holders' instructions in good order, based on the next determined NAV per unit. NAV per unit is determined each business day.

For the assets above, there are no unfunded commitments or restrictions on redemption at the Plan or Master Trust level.

NOTE 6 TRANSACTIONS WITH PARTIES IN INTEREST

Origination and record-keeping fees for notes receivable from participants are charged to the participants' individual accounts.

During the year ended December 31, 2012, the Master Trust purchased approximately 968,000 shares of common stock of the Company at a cost of approximately \$51,818,000, respectively. Dividends on common stock of the Company received by the Master Trust totaled approximately \$5,319,000 for the year ended December 31, 2012. These transactions are exempt party-in-interest transactions.

Certain plan investments are shares of mutual funds managed by Fidelity. Fidelity is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid to the Trustee also qualify as party-in-interest transactions.
