Notes to Financial Statements
December 31, 2012 and 2011

Note 1 Description of Plan

The following description of the AdvoCare International, LP ("Company") 401(k) Plan and Trust ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company who are eighteen (18) years of age or older. Employees may enter the Plan on the payroll coinciding with or next following the date on which the employee is hired. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company may, at its sole discretion, and determined from year to year, contribute a matching percentage based on the participants' elective deferrals. For 2012 and 2011, the Company matched 100% of the participants' deferrals, excluding catch-up contributions. The matching company contributions are invested in the same investment options selected by the participants. Contributions are subject to certain limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after four years of credited service as follows:

25%	vesting after	1 year of service
50%	vesting after	2 years of service
75%	vesting after	3 years of service
100%	vesting after	4 years of service

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25 percent to 10.25 percent, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account; substantially equal monthly, quarterly, semi-annual, or annual cash installment payments over a period certain as defined in the plan; designated sums from time to time as elected by the participant; or a non-transferable annuity which can be purchased from an insurance company and complies with the terms of the plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account under any of the methods described above.

Forfeited Accounts - At December 31, 2012 and 2011, forfeited nonvested accounts totaled $527 and $48,362, respectively. These accounts will be used to reduce future employer contributions. In 2012 and 2011, employer contributions were reduced by $54,495 and $27,791, respectively, from forfeited nonvested accounts.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits - Benefits are recorded when paid.

Benefit Obligations - There were no Plan assets allocated to participants who have elected to withdraw from the Plan but who have not been paid at December 31, 2012 and 2011.

Operating Expenses - Except for loan origination fees associated with notes receivable from participants and distribution fees, all expenses of maintaining the plan are paid by the Company.

Reclassifications - Certain amounts in 2011 have been reclassified to conform with the 2012 presentation.

Subsequent Events - The plan has evaluated subsequent events through June 25, 2013, the date the financial statements were available to be issued.

Note 3 Information Prepared and Certified by Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such elections, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the trustees of the Plan as complete and accurate, except for comparing such information certified by the trustees with information included in the Plan's financial statements and supplemental schedule.

Note 5 Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2012 and 2011.

Mutual Funds: Valued at the quoted net asset value (NAV) of shares held by the plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Note 6 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in employer contributions.

Note 7 Tax Status

The Internal Revenue Service has determined and informed the Plan administrator by a letter dated March 31, 2008, that the Volume Submitter Plan, which was adopted on June 28, 2010, is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 8 **Parties-in-Interest**

The record keeper for the years ended December 31, 2012 and 2011, was The Schnitman Group and the trustee was First Financial Trust and Asset Management Company, NA. The custodian for the years ended December 31, 2012 and 2011, was Charles Schwab Trust Company. Transactions with the aforementioned entities qualify as party-in-interest transactions. Significant administrative expenses of the Plan, including audit fees, are absorbed by the Plan sponsor.

During 2012 and 2011, the Plan paid The Schnitman Group $1,730 and $0 in distribution and loan processing fees, respectively. These fees were paid by the participants that took a loan or distribution during the year. During 2012 and 2011, the Plan paid First Financial Trust and Asset Management Company, NA $0 in trustee fees.

Note 9 **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
