VISIBLE CHANGES 401(k) CAPITAL ACCUMULATION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

Note 1 Description of Plan

The following description of the Visible Changes 401(k) Capital Accumulation Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Visible Changes, Inc. and its affiliates (collectively referred to as "Company") who have completed one year of service. Employees may enroll the earlier of the first day of the Plan year or the first day of the seventh month following the date on which an employee satisfies the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan, established February 1, 2001, was last amended effective October 27, 2010. The Plan is subject to the provisions of ERISA, the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA"), the Job Creation and Worker Assistance Act of 2002 ("the 2002 Tax Act"), the Heroes Earnings Assistance and Relief Tax Act of 2008 ("HEART"), and to the Retiree and Employer Recovery Act of 2008 ("WRERA").

The Plan was amended to allow in-service distributions upon attainment of age 59½ in addition to being in compliance with HEART and WRERA.

As described in Note 11, the Plan was amended subsequent to December 31, 2012.

Contributions

Participants may contribute a maximum of 100% of their compensation on a pre-tax basis subject to the Internal Revenue Service's contribution limitation, which is adjusted annually for cost of living fluctuations. The maximum allowable participant deferral was $17,000 and $16,500 in 2012 and 2011, respectively. The Company matches 100% of the first 4% of compensation that a participant contributes to the Plan. For tax years beginning after December 31, 2001 the Plan was amended pursuant to Internal Revenue Code 414(v), to permit participants 50 years of age or older to make additional "catch-up" contributions. These participants may contribute an additional $5,500 in 2012 and 2011. Catch-up contributions are not subject to matching Company contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or contribution plans.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and earnings on their investments and charged with an allocation of administrative expenses if paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participants direct the investment of their contributions and those from the Company. The Plan offers mutual funds under the Investment Contract as investment options for participants. Participants may also elect to use an investment advisor to direct their investments through self-directed brokerage accounts.

Note 1 Description of Plan, continued

Vesting

Participants are 100% vested in their contributions and Company contributions plus actual earnings thereon because this is a safe harbor plan.

Administrative Expenses

Expenses of the Plan, to the extent they are not paid by the Company, may be paid out of the assets of the Plan provided that such payment is consistent with ERISA. Such expenses include, but are not limited to, expenses for bonding required by ERISA; expenses for record keeping and other administrative services, fees and expenses of the trustee or annuity contract.

Plan Administration

CBIZ Actuarial and Benefit Consultants, Inc. performs certain Plan administrative duties such as 5500 preparation, compliance testing, preparation of annual statements and transaction processing. Certain other administrative functions are performed by officers and employees of the Company. However, such officers and employees receive no compensation from the Plan.

Payment of Benefits

Upon termination of service for any reason, a participant may receive the amount equal to the value of the participant's interest in his/her account in a lump-sum payment or installments in substantially equal amounts.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities, at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds, which comprise the Investment Contract, are valued at quoted market prices that represent the net asset value of shares held at year-end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Self-directed brokerage accounts are stated at fair value using quoted market prices. See Note 9 for discussion of fair value measurement.

Note 2 Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition, continued

The Plan presents, in the Statements of Changes in Net Assets Available for Benefits, the net appreciation or depreciation in the fair value of investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on investments.

Reclassifications

Certain amounts in the prior year's financial statements have been reclassified to conform to the 2012 presentation.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Standards

ASU 2011-04, *Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS*, amends Topic 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. generally accepted accounting principles and International Financial Reporting Standards. ASU 2011-04 clarifies the application of existing fair value measurement requirements, changes certain principles in Topic 820 and requires additional fair value disclosures. ASU 2011-04 was effective for annual periods beginning after December 15, 2011 and did not have a significant impact on the Plan's financial statements.

Note 3 Investments

Plan investments were held by Nationwide Trust Company, FSB for the years ended December 31, 2012 and 2011. At December 31, 2012, all investments were liquidated into noninterest-bearing cash for transfer to the new trustee. Refer to Note 10 for additional information on the transfer of the Plan's assets. The following table presents the fair value of investments. Investments that represent 5% or more of the Plan's net assets (at beginning of Plan year) are presented as follows:

Investments at Fair Value	2012	2011
Investment Contract with Insurance Company Underlying Assets		
Jns Bal S	**	$ 580,354
Nationwide Mny Mkt Inst	**	2,196,241
Nationwide S&P 500 Indx Sc	**	641,509
Opp Glbl A	**	556,397

** At the end of this year this balance was not five percent of the Plan net assets.

Note 3 Investments

During 2012 and 2011, the Plan's investments, (including investments bought, sold and held during the year), appreciated/(depreciated) in value $796,454 and $(734,343), respectively, as follows:

	2012	2011
Investment contract with insurance company	$ 811,831	$ (667,229)
Self-directed brokerage accounts	(15,377)	(67,114)
	$ 796,454	$ (734,343)

Note 4 Information Certified by the Trustee

The Plan administrator elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the Plan administrator limited auditing procedures with respect to the information certified by the trustee.

A summary of the information certified by the trustee for the years ended December 31, 2012 and 2011, is as follows:

	2012	2011
Investments at fair value:		
Investment contract with insurance company	$ -	$ 10,100,592
Self-directed brokerage accounts	-	404,161
Net realized gains from sale of investments	796,454	-
Net appreciation/(depreciation) in fair value of investments	-	(734,343)
Interest and dividend income	241,153	246,458

Information on the supplemental schedule is also certified to.

Note 5 Related Party Transactions (Parties-in-Interest)

Parties-in-interest are defined under Department of Labor regulations as any fiduciary to the Plan, any party rendering services to the Plan, the employer and certain others. As such, transactions conducted with Visible Changes, Inc. or Nationwide Trust Company, FSB or their affiliates would qualify as exempt party-in-interest transactions.

Note 6 Risks and Uncertainties

Investment securities in which the Plan invests are subject to various risks, such as market, credit and interest rate risks. Due to the level of risk associated with such securities, it is at least reasonably possible that changes in the near term could materially affect participant's account values and the amounts reported in the statement of net assets available for Plan benefits.

Note 7 Tax Status

The Internal Revenue Service has determined, by letter dated July 7, 2010, that the Plan prototype and related trust are designed in accordance with applicable provisions of the Internal Revenue Code. The Plan has been amended since receiving its favorable determination letter, however, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan is qualified and the related trust is tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 8 Plan Termination

The Company has not expressed any intent to terminate the Plan, but may do so at any time. The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, the net assets of the Plan will be available for the exclusive use of the participants. Participants would be entitled to the full balance of their accounts at the termination date.

Note 9 Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- *Level 1 Inputs* – Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Note 9 Fair Value Measurements, continued

- *Level 2 Inputs* – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, volatilities, prepayment speeds, credit risks, etc.) or inputs that are derived principally from or corroborated by market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- *Level 3 Inputs* – Unobservable inputs for determining the fair values of assets or liabilities that reflect an entity's own assumptions about the assumptions that market participants would use in pricing the assets or liabilities.

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. These valuation methodologies were applied to all of the Plan's financial assets and financial liabilities carried at fair value effective January 1, 2008.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. These adjustments may include amounts to reflect counterparty credit quality and the Plan's creditworthiness, among other things, as well as unobservable parameters. Any such valuation adjustments are applied consistently over time. The Plan's valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While management believes the Plan's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Investments – Investment contract with insurance company (mutual funds as underlying investments) is reported at fair value utilizing Level 2 inputs. This investment is valued at the net asset value ("NAV") of shares held by the Plan at year end. Self-directed brokerage accounts (mutual funds and common stock as underlying investments) are reported at fair value utilizing Level 1 inputs.

There were no assets or liabilities measured at fair value on a nonrecurring basis as of December 31, 2012 or December 21, 2011, and there were no changes in the valuation methodologies between periods. In addition, there were no significant transfers between Level 1 or 2 for the year ended December 21, 2012.

Note 11 Subsequent Event

Subsequent events are events or transactions that occur after the balance sheet date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the balance sheet date and before the financial statements are available to be issued. The Plan has evaluated subsequent events from December 31, 2012 through June 28, 2013, the date the financial statements were available to be issued. The Plan noted one event requiring disclosure and there were no events requiring adjustment to these financial statements.
