**ARROW FORD, INC. 401(k) RETIREMENT PLAN**

NOTES TO FINANCIAL STATEMENTS

*NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*

Plan Description

The following description of Arrow Ford, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on October 1, 1992, as a defined contribution profit sharing plan to benefit participating employees of Arrow Ford, Inc. (the Company). The Plan year is the twelve months ending September 30. The Plan is established to comply with Internal Revenue Code Sections 401 and 501. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

A new employee becomes eligible to participate in the Plan immediately upon attaining 21 years of age and completion of one year of service and 1,000 hours of service. Entry dates for the Plan are October 1 and April 1 following satisfaction of eligibility requirements. Arrow Ford, Inc. is the only participating employer.

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, revenue is recognized when earned and expenses are recognized when incurred.

Contributions

Participants can make elective contributions through salary deductions of their compensation based on their Plan year, not to exceed the maximum IRS limits. The employer currently does not match any of the employee contributions. A profit sharing contribution may be made by the employer, at their discretion, and will be allocated to the participant accounts based on a participant's compensation in excess of the taxable wage base. Rollover contributions are allowed if they meet certain requirements of the Plan.

Forfeitures

Forfeitures of employer contributions will be used to reduce future employer contributions to the Plan. Forfeitures of contributions other than matching contributions will be added to the employer's contribution under the Plan. There were no forfeitures for the year ended September 30, 2012. The amount of forfeitures for the year ended September 30, 2011 was $10,834.

Subsequent Events

The Company has evaluated all subsequent events through June 24, 2013, the date the financial statements were available to be issued.

*NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued*

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer matching and discretionary contributions to their accounts is based on years of service, as follows:

| | |
|---|---|
| Less than 2 years | 0% |
| 2 years | 20% |
| 3 years | 40% |
| 4 years | 60% |
| 5 years | 80% |
| 6 years or more | 100% |

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Participant Accounts

Each participant's account is credited with contributions and earnings from their investments. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participant Loans

Loans to participants may be made up to $50,000 or 50 percent of their vested interest. The minimum loan is $1,000. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Benefits are recorded when paid. On termination of service, a participant may elect to receive benefits as either a lump-sum amount equal to the value of his or her account or installments. Distributions upon termination of employment are made at participant's election.

The normal retirement age is the date a participant attains his 65$^{th}$ birthday. The early retirement date is the date on which a participant attains his 55$^{th}$ birthday and has completed at least 6 years of service. If a participant has reached age 59 ½, distributions may be made at the participant's election from accounts that are 100% vested without requiring the participant to terminate employment. Hardship distributions may be made under certain circumstances from accounts that are 100% vested.

*NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued*

Withdrawing Participant Obligations

Amounts allocated to withdrawing participants are claims that have been processed and approved for payment prior to year end, but not paid as of that date. These amounts were not deemed material at September 30, 2012 and 2011.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Plan Expenses

The Plan sponsor pays substantially all general Plan expenses.

*NOTE 2: INVESTMENTS*

The fair value of the investments as of September 30, 2012 and 2011 is broken down into the following funds:

* Denotes investment representing 5% or more of net assets available for benefits at September 30, 2012 and 2011.

*NOTE 2: INVESTMENTS - continued*

The Plan's investments (including investments bought, sold, and held during the year) appreciated (depreciated) in value by $186,798 and $(19,644) for the years ended September 30, 2012 and 2011, respectively as follows:

| | 2012 | 2011 |
|---|---|---|
| Pooled separate accounts | $ 186,798 | $ (19,644) |
| Group annuity contract | - | - |
| | $ 186,798 | $ (19,644) |

*NOTE 3: CERTIFIED INFORMATION*

For the Plan years ended September 30, 2012 and 2011, the financial information included in the Plan financial statements and required supplemental schedules has been derived from information certified as complete and accurate by Standard Insurance Company (The Standard) in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974 (ERISA).

*NOTE 4: PLAN TERMINATION*

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

*NOTE 5: INCOME TAX STATUS*

The Plan obtained its latest determination letter on September 18, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. Department of Labor and the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

*NOTE 6: RISKS AND UNCERTAINTIES*

The Plan provides for various investment options in any combination of mutual funds and other investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate risk, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

*NOTE 7: RELATED PARTY TRANSACTIONS*

For the years ended September 30, 2012 and 2011, certain Plan investments are shares of mutual funds managed by Standard Insurance Company. Standard Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Commissions paid by the Plan to Standard Insurance Company for the years ended September 30, 2012 and 2011 amounted to $2,816 and $2,924, respectively.

*NOTE 8: FAIR VALUE MEASUREMENTS*

Authoritative guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The price in the principal (or most advantageous) market used to measure the fair value of the asset or liability shall not be adjusted for transaction costs. An orderly transaction is a transaction that assumes exposure to the market for a period prior to the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets and liabilities; it is not a forced transaction. Market participants are buyers and sellers in the principal market that are (i) independent, (ii) knowledgeable, (iii) able to transact and (iv) willing to transact.

Authoritative guidance requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts, such as cash flows or earnings, to a single present amount on a discounted basis. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (replacement costs). Valuation techniques should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability.

Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, authoritative guidance establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

*NOTE 8: FAIR VALUE MEASUREMENTS - continued*

The fair value hierarchy is as follows:

> ***Level 1 Inputs*** - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
>
> ***Level 2 Inputs*** - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (for example, interest rates, volatilities, prepayment speeds, loss severities, credit risks and default rates) or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
>
> ***Level 3 Inputs*** - Significant unobservable inputs that reflect an entity's own assumptions that market participants would use in pricing the assets or liabilities.

A description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. While management believes the Plan's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

*Pooled separate accounts* – Investments are reported at fair value utilizing Level 2 inputs. For these investments, the Plan obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U. S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayments speeds, credit information and the bond's terms and conditions, among other things.

*Group Annuity Contract* – Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the asset advisory group evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while other are substantiated utilizing available market data (for example, swap curve rate).

*NOTE 8: FAIR VALUE MEASUREMENTS - continued*

The following table summarizes financial assets measured at fair value on a recurring basis as of September 30, 2012 and 2011, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

*NOTE 8: FAIR VALUE MEASUREMENTS - continued*

The following table provides further details of the Level 3 fair value measurements as of September 30, 2012 and 2011:

| | September 30, 2012 | September 30, 2011 |
|---|---|---|
| Beginning balance | $ 284,103 | $ 266,922 |
| Unrealized gains and losses | 3,582 | 8,254 |
| Interest | 4,612 | 7,303 |
| Fund transactions: | | |
| Purchases | 26,895 | 32,758 |
| Sales | (33,230) | (37,707) |
| Transfers in | 22,880 | 24,357 |
| Transfers out | (29,357) | (17,784) |
| Ending balance | $ 279,485 | $ 284,103 |

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended September 30, 2012 and 2011 are reported in net appreciation in fair value of investments, except for the changes in the group annuity contract.

*NOTE 9: LATE REMITTANCE OF PARTICIPANT CONTRIBUTIONS*

During 2012, the Plan administrator failed to remit participant contributions to the Plan in the amount of $3,426 on a timely basis as required by DOL Regulation 2510-102(b). The Plan administrator discovered and corrected the oversight during the year.

*NOTE 10: RECLASSIFICATIONS*

In the prior year, the group annuity contract was reflected at fair value only on the statement of net assets available for benefits. The 2011 financial statements have been adjusted to show the group annuity at fair value with an adjustment to the contract value for September 30, 2011.

*NOTE 11: GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY*

The Plan participates in a benefit-responsive guaranteed investment contract with The Standard. The Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by The Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

*NOTE 11: GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY – continued*

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at September 30, 2012 and 2011 was $279,485 and $284,103, respectively. The crediting interest rate is based upon a formula with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with The Standard. Such events include termination of the contract, spinoffs, divestitures, layoffs, corporate relocation, partial or total Plan termination, retirement incentive programs, and the liberalization of Plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment may apply.

The Standard may terminate the contract with 30 days advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets of at least $25,000, Plan disqualification, and failure to adopt the Plan in a reasonable period of time. Upon termination by The Standard, a market value adjustment may apply.

Average yield for the Plan years ending September 30, 2012 and 2011 was 1.35% and 2.65%, respectively.
