IMPACT TECHNOLOGIES, LLC 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2012 AND DECEMBER 31, 2011

1. DESCRIPTION OF PLAN

The following description of the Impact Technologies, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General -

The Plan was established on January 1, 2000. The Plan is a cash or deferred profit sharing plan covering substantially all employees of Impact Technologies, LLC (the "Company") and certain affiliated companies including:

- Impact-RLW Systems, Inc.
- Flowtonics, LLC ("Flowtonics") through November 18, 2011
- Impact Sensors, LLC ("Sensors") through November 18, 2011

Eligible employees are permitted to make elective deferrals to the Plan upon attaining the age of twenty-one and the completion of one year of service. One year of service is defined as 1,000 hours. Eligible employees can enter the Plan on the first day of the month following satisfaction of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Administration -

The Company serves as the Plan administrator (the "Administrator") and is solely responsible for the general administration of the Plan and carrying out Plan provisions. Actuarial Pension Analysts, Inc. ("APA") provides the Plan's recordkeeping services. ING Life Insurance and Annuity Company (the "Custodian") serves as the custodian of the Plan.

On November 18, 2011, the Company was acquired by Sikorsky Aircraft Corporation, a subsidiary of United Technologies Corporation. As of that date, the Plan was amended to remove the employees of Flowtonics and Sensors from eligibility to participate in the Plan.

Effective May 1, 2012, the Administrator adopted a resolution to merge the assets of the Plan (herein referred to as the "Merger") into the United Technologies Corporation Employee Savings Plan (the "UTC Plan") (see Note 3).

Contributions -

Participants could elect to contribute up to 100% of their eligible compensation, subject to the maximum amount allowed by the Internal Revenue Code (the "Code"). In addition, participants age 50 and over at the end of the Plan year were eligible to contribute a "catch up" contribution. Concurrent with the Merger, the Plan was no longer accepting contributions from participants.

The Company could elect to make an annual discretionary matching contribution equal to a percentage of the participant's elective deferrals. Concurrent with the Merger, the Administrator adopted a resolution to make a discretionary matching contribution (the "Employer Contribution") equal to 50% of participants' eligible elective deferrals up to 10% of participants' eligible compensation for a maximum matching contribution of 5%. The Employer Contribution was for the period January 1, 2012 through April 30, 2012, and participants were eligible for the Employer Contribution upon meeting the aforementioned eligibility requirements and if employed by the Company as of April 30, 2012. The Employer Contribution, net of forfeitures, totaled \$98,315 for the nine-month period ended September 30, 2012.

The Company could also elect to make an annual discretionary profit sharing contribution to eligible participants. Participants are eligible to share in the Company profit sharing contribution upon meeting the aforementioned eligibility requirements and if employed by the Company on the last day of the Plan year. The Company elected not to make a profit sharing contribution for the nine-month period ended September 30, 2012.

Participants were allowed to make rollover contributions from other qualified plans into the Plan in accordance with regulations under the Code. In addition, participants were allowed to make Roth elective deferrals into the Plan.

Participant accounts -

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary matching and profit sharing contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -

Participants are immediately vested in their elective deferrals, rollover contributions and actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts plus earnings is based on years of continuous service.

A participant is vested according to the following schedule (for vesting purposes, a year of service is defined as 1,000 hours of service in a Plan year):

<u>Years of service</u>	<u>Percentage</u>
Less than one	0%
At least one but less than two	25%
At least two but less than three	50%
At least three but less than four	75%
Four or more	100%

Notes receivable from participants -

Participants are allowed to borrow a minimum of \$1,000, up to a maximum of the lesser of 50% of their vested account balance or \$50,000. Note repayment terms range up to a maximum of five years, with interest at the prime rate plus 1% at the date of the loan and are collateralized by the individual participant's accounts. Principal and interest is paid ratably through payroll deductions.

Investment options -

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan offered a number of investment options including pooled separate accounts and the ING Fixed Account, a general account (the "General Account") of the Custodian, selected by the Administrator. The investment options and related investment categories available through the date of the transfer from Plan (see Note 3) were as follows:

Payment of benefits -

Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the vested portion of his or her account. If upon termination of service, a participant does not attain normal retirement age and the participant's vested account balance is greater than \$1,000, the participant may elect to receive a lump-sum amount, a direct rollover to a qualified plan under Section 401 of the Code, a direct rollover to a qualified Individual Retirement Account equal to the value of his or her vested account balance, or may elect to keep their investments in the Plan. If the vested account balance is less than \$1,000, the balance will be distributed to the participant as soon as administratively feasible.

Forfeitures -

Participants whose employment with the Company has been terminated and who receive a distribution of the vested percentage of their account shall forfeit any amounts which are in excess of their vested interest as of the date of distribution. The non-vested portion will be restored to the participant's account in the event the employee returns to employment before five consecutive one-year breaks in service and pays back the amount distributed from the Company matching and profit sharing contribution portion of the participant's account. A break in service is defined as a participant failing to complete more than 500 hours of service in a Plan year. After restoration of any of these benefits, the remaining forfeitures may be used to reduce the administrative expenses of the Plan and then to reduce the Company's contributions. Forfeitures of \$1,797 were used to reduce the Employer Contribution for the nine-month period ended September 30, 2012. The cumulative balance of forfeitures available to offset future administrative expenses and Company contributions totaled \$308 as of September 30, 2012 (see Note 3).

Administrative expenses -

Administrative expenses of \$1,789 were charged to the Plan for the nine-month period ended September 30, 2012. The Company paid for certain additional third-party administrative expenses including accounting, recordkeeping and legal services.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting -

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of estimates -

The preparation of financial statements in conformity with GAAP requires the Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Significant estimates include, but are not limited to, the fair value of investments and the valuation of notes receivable from participants. Accordingly, actual results may differ from those estimates.

Fair value measurements -

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. The Plan measures investment securities at their respective fair value and applies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs. If the inputs used to measure the assets and liabilities fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement.

The fair value hierarchy has three levels based on the reliability of the inputs used to determine fair value, as follows:

- Level 1* Inputs for assets or liabilities where values are based on unadjusted quoted prices for identical investment securities in active markets at the measurement date.
- Level 2* Inputs based on other observable inputs such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that can be observable or can be corroborated by observable market data at the measurement date.
- Level 3* Inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect the Administrator's assumptions that market participants would use in pricing the assets or liabilities.

Income recognition and changes in Plan assets -

Contributions are recorded by the Plan when withheld from participants and accrued by the Company. Investment income is allocated to the Plan as earned. Purchases and sales of securities are recorded on a trade date basis. Net appreciation of investments on the accompanying statement of changes in net assets available for benefits includes the Plan's gains and losses on investments bought and sold during the year.

Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts and General Account are deducted from income earned and are not separately reflected. Consequently, management fees and operating expenses are reflected as reductions of investment income for such investments.

Notes receivable from participants -

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as deemed distributions based upon the terms of the Plan document.

Payment of benefits -

Benefits payments to participants are recorded when paid.

Subsequent events -

The Administrator has evaluated subsequent events through July 11, 2013, which is the date the accompanying financial statements were available to be issued.

3. TRANSFER FROM PLAN

On September 28, 2012, the investment assets of the Plan were liquidated and the proceeds were deposited into a clearing account held and maintained by the Custodian. On October 1, 2012, the proceeds from the liquidated investment assets of the Plan were deposited into the UTC Plan's custodial account at State Street Bank and Trust Company ("State Street") and were re-invested into various investment offerings as directed by the Plan's former participants.

The proceeds from the liquidated investment assets held by the Custodian at September 30, 2012, which totaled \$9,110,134, are reported as a component of "transfer from plan" in the accompanying statement of changes in net assets available for benefits.

Concurrent with the Merger, existing notes receivable from participants of the Plan were transferred to the UTC Plan on October 4, 2012. These notes receivable from participants, which totaled \$109,062 at September 30, 2012, are reported as a component of "transfer from plan" in the accompanying statement of changes in net assets available for benefits.

In connection with the Merger, a portion of the Employer Contribution, which totaled \$94,522, was deposited into the UTC Plan's custodial account at State Street on October 31, 2012. This amount has been reported as "employer contributions" and "due to other plan" in the accompanying statements of net assets available for benefits and as a component of "transfer from plan" in the accompanying statement of changes in net assets available for benefits. The remaining portion of the Employer Contribution was received by the Plan during the nine-month period ended September 30, 2012.

4. FINANCIAL INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the accompanying financial statements was obtained from data that has been prepared by, or derived from, information provided by the Custodian and furnished to the Administrator. The Administrator has obtained certifications from the Custodian that the information is complete and accurate as of September 30, 2012 and December 31, 2011, and for the nine-month period ended September 30, 2012:

	2012	2011
Pooled separate accounts	\$ -	\$7,100,026
General Account	-	1,435,244
Notes receivable from participants	-	150,258
Net appreciation of investments	841,254	
Interest on notes receivable from participants	2,035	

At December 31, 2011, the following investments represent 5% or more of the Plan's net assets:

ING Fixed Account	\$1,435,244
ING Russell Large Cap Index Portfolio	734,659
ING International Index Portfolio	657,527
Allianz NFJ Small-Cap Value Fund	597,814
Pioneer Fund Y	540,330
ING PIMCO Total Return Portfolio	537,135
ING PIMCO High Yield Portfolio	499,568

The Plan's investments (including gains and losses on investments bought and sold during the period) appreciated (depreciated) in value as follows during the nine-month period ended September 30, 2012:

Pooled separate accounts	\$850,220
General Account	(8,966)
Net appreciation of investments	<u>\$841,254</u>

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements.

5. FAIR VALUE MEASUREMENTS

No assets were measured at fair value on a recurring basis at September 30, 2012.

The fair value of investments measured on a recurring basis at December 31, 2011 is presented below:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Fixed income	\$ -	\$1,145,765	\$ -	\$1,145,765
U.S. equities	-	3,860,777	-	3,860,777
International equities	-	1,162,968	-	1,162,968
Target retirement date	-	756,760	-	756,760
Money market fund	-	173,756	-	173,756
General Account	-	-	1,435,244	1,435,244
	<u>\$ -</u>	<u>\$7,100,026</u>	<u>\$1,435,244</u>	<u>\$8,535,270</u>

Changes in the fair value of the Plan's Level 3 investment for the nine-month period ended September 30, 2012 is presented below:

Balance, as of December 31, 2011	\$1,435,244
Acquisitions	154,874
Dispositions	(1,581,152)
Investment return	(8,966)
Balance, as of September 30, 2012	<u>\$ -</u>

Pooled separate accounts were valued based on the net asset value ("NAV") of shares held by the Plan as of the reporting date. NAV was determined using audited financial statements of the ING Life Insurance and Annuity Company Separate Account D and the underlying unit values as of the reporting date. The General Account was valued based on the NAV of units held by the Plan as of the reporting date as determined by the Custodian and the valuation was determined from unaudited financial information. The Custodian reported an adjustment from contract value to fair value for the interest in the General Account at December 31, 2011 totaling \$51,175.

Investment contracts held by a defined contribution plan are required to be reported at fair value. The General Account was valued at fair value, which reflects the approximate amount that would have been paid if the contract had been terminated as of the reporting date.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While the Administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement as of the reporting date.

There have been no changes in the fair value methodologies used at September 30, 2012 and December 31, 2011.

6. PARTY-IN-INTEREST TRANSACTIONS

Plan investments were shares of pooled separate accounts and the General Account managed by the Custodian of the Plan and, therefore, all investment-related transactions with the Custodian and the pooled separate accounts and the General Account qualified as party-in-interest transactions. Transactions involving notes receivable from participants qualify as party-in-interest transactions.

7. TAX STATUS

On June 1, 2009, the Company adopted a volume submitter cash or deferred profit sharing plan (the "Prototype Plan") sponsored by the Custodian. The Prototype Plan received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, indicating the Prototype Plan is designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the opinion letter, the Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements for the nine-month period ended September 30, 2012.

GAAP requires the Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Administrator has analyzed the tax positions taken by the Plan and has concluded that as of September 30, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Administrator believes it is no longer subject to income tax examinations for years prior to 2009.
