As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Metropolitan Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that Metropolitan Life Insurance Company holds the Plan's assets and executes investment transactions. The plan administrator has obtained certifications from Metropolitan Life Insurance Company as of and for the years ended September 30, 2012 and 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The supplemental schedules of assets (held at end of year) and reportable transactions as of or for the year ended September 30, 2012, that accompany the Plan's financial statements, do not disclose the historical cost of certain plan assets held by the Plan's custodian and assets sold during the year. Disclosure of this information is required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 DESCRIPTION OF PLAN

The following description of the MAI Systems Corporation Retirement Benefit Plan (the Plan), formerly the MAI Basic Four, Inc. Retirement Benefit Plan, provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan sponsored and funded by SoftBrands, Inc. (the Company or Sponsor) for the purpose of providing retirement benefits for all eligible employees. SoftBrands, Inc. acquired MAI Systems Corporation (MAI) effective August 14, 2006. The Plan became effective January 15, 1988, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all eligible employees of MAI.

The operations of the Plan are directed by a plan administrator, appointed by the Board of Directors or Benefits Committee of the Company. The custodian of the Plan is Metropolitan Life Insurance Company (MetLife or the Custodian).

Eligibility and Vesting

In 1988, MAI purchased Sorbus, which had an existing defined benefit plan (the Sorbus Plan). Each employee who was a participant in the Sorbus Plan on or before January 14, 1988, and became an employee of MAI on January 15, 1988, became a participant in the Plan as of January 15, 1988. Employees who were not previously enrolled in the Sorbus Plan became eligible in the first year after they had attained 21 years of age during or after the first year of service and completed 1,000 hours of service, provided they were employed by Sorbus prior to the acquisition of MAI.

The Plan's management and Sponsor's Board of Directors elected to freeze the accrual of plan benefits as of April 30, 1992. Therefore, no further benefits accrued after April 30, 1992. All participants continued to vest in their benefits subsequent to the plan benefit freeze. As of September 30, 1995, all participants were 100 percent vested. Although the accrual of benefits has been frozen, the Sponsor will remain responsible for future funding obligations as required by ERISA. The amount of funding will depend upon the value of the Plan's assets in relation to its obligations.

Funding

The Company has voluntarily established the Plan and has agreed to make annual contributions to the Plan that will be sufficient to provide pension benefits to participants. The Company's funding policy is to make quarterly contributions and a final adjusting contribution to the Plan each year as necessary to meet the funding requirements of ERISA. The Company's annual contributions to the Plan are calculated by applying actuarial assumptions to adjust the accumulated plan benefits for the time value of money and the probability of payment. These actuarial assumptions are anticipated to reflect actual future experience and are reviewed periodically and adjusted as necessary. The actuarial cost method and significant assumptions underlying this estimate are set forth in Note 5. The Company's contributions for 2012 and 2011 met the minimum funding requirements of ERISA.

Payment of Benefits

Upon retirement on or after the normal retirement date (the participant's 65th birthday), a participant shall be entitled to receive a lifetime annual pension, payable monthly or distributed as a lump-sum if the lump-sum does not exceed $5,000, where the annual pension amount is equal to the greater of:

(i) One percent of the participant's total career income while an employee of MAI, or
(ii) One hundred dollars multiplied by the number of years in the participant's period of service accumulated while an employee of MAI.

If an employee is eligible for and elects early retirement (the participant's 55th birthday with 10 years of vesting), the employee's benefit will be reduced to account for the change in retirement date.

If a married participant who is vested in any portion of his accrued benefit should die prior to the retirement pension starting date, the spouse shall be entitled to receive a pre-retirement survivor annuity. The annuity will be distributed to the spouse as a lump-sum distribution if the amount of such distribution does not exceed $5,000. The spouse may elect to receive a lump-sum distribution rather than monthly annuity payments if the distribution is over $5,000.

If a married participant should die subsequent to the retirement pension starting date, the spouse shall be entitled to receive a survivor annuity in either a lump-sum distribution or monthly annuity payments.

Administrative Expenses

The Plan's custodial and investment fees are paid from plan assets and all other expenses of the Plan are paid by the Sponsor.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of plan assets and the actuarial present value of accumulated plan benefits, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets available for benefits and accumulated benefits. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Realized gains and losses related to sales of investments are recorded on a trade-date basis and unrealized gains and losses are recorded based on the fair values at the end of the reporting period.

Net Appreciation (Depreciation) in Fair Value of Investments

The statements of changes in net assets available for benefits include the net appreciation (depreciation) in the fair value of investments which consists of the realized gains or losses on investments sold and the change in unrealized appreciation (depreciation) on held investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

3 FAIR VALUE MEASUREMENTS

GAAP provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Pooled separate accounts are valued at the net asset value (the NAV) of the underlying securities held by the Plan at year end less its liabilities. The fair value of the units held in pooled separate accounts is based on quoted market prices of the underlying investments in the account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of September 30:

	2012			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Equity	$ -	$ 1,170,949	$ -	$ 1,170,949
Bonds	-	989,244	-	989,244
Total	$ -	$ 2,160,193	$ -	$ 2,160,193

	2011

Pooled separate accounts:

Bonds	-	926,979	-	926,979
Total	$ -	$ 1,803,977	$ -	$ 1,803,977

4 NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investments measured at fair value based on the NAV at September 30, 2012 and 2011:

	2012			
Pooled Separate Account Investments	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Equity (1)	$ 1,170,949	None	Monthly	31 days
Bonds (2)	989,244	None	Monthly	31 days
	$ 2,160,193			

	2011			
Pooled Separate Account Investments	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Equity (1)	$ 876,998	None	Monthly	31 days
Bonds (2)	926,979	None	Monthly	31 days
	$ 1,803,977			

(1) The equity pooled separate account's objective is to outperform the S&P 500 Index and the median manager in an appropriate universe of equity managers.

(2) The bond pooled separate account's objective is to outperform the Barclays ® U.S. Aggregate Bond Index, net of fees, over a full market cycle.

5 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) beneficiaries of employees who have died.

The actuarial present value of accumulated plan benefits is determined by Aon Hewitt (the Actuary) and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death or retirement) between the valuation date and the expected date of payment. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Significant assumptions underlying the actuarial computation as of October 1, 2011, the benefit information date, are as follows:

Actuarial cost method:	Standard unit credit method
Retirement age:	65
Rate of investment return:	5.29 percent
Life expectancy of participants:	2011 static mortality tables

At October 1, 2011 (beginning of Plan fiscal year), the present value of accumulated plan benefits was as follows:

Actuarial present value of accumulated plan benefits:	
Participants and beneficiaries currently receiving benefits	$ 1,914,755
Other participants	878,338
Total actuarial present value of accumulated plan benefits	$ 2,793,093

The changes in the actuarial present value of accumulated plan benefits from the October 1, 2010 valuation to the October 1, 2011 valuation were as follows:

Actuarial present value of accumulated plan benefits, October 1, 2010	$ 2,613,511
Increase (decrease) during the year attributable to:	
Benefits paid	(191,444)
Increase for interest due to decrease in discount period	158,713
Changes in actuarial assumptions	226,985
Other	(14,672)
Actuarial present value of accumulated plan benefits, October 1, 2011	$ 2,793,093

6 INVESTMENTS

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Custodian, except for comparing such information certified by the Custodian to information included in the Plan's financial statements and supplemental schedules.

The Custodian has provided the plan administrator with a certification as to the completeness and accuracy of the investments aggregating $2,160,193 and $1,803,977 at September 30, 2012 and 2011, respectively, and the related net appreciation (depreciation) in fair value of investments of $297,599 and $(1,494) and interest and dividends of $51,775 and $53,748 for the years ended September 30, 2012 and 2011, respectively. Such amounts are included in the accompanying financial statements and supplemental schedules based on the certification from the Custodian.

The following table presents the fair values of investments that represent 5 percent or more of the Plan's net assets at September 30:

	2012	2011
Metropolitan Life Insurance Company Large Cap Core Equity Fund (Pooled Separate Account No. 40)	$ 1,170,949	$ 876,998
Metropolitan Life Insurance Company Broad Market Bond Fund (Pooled Separate Account No. 41)	989,244	926,979
	$ 2,160,193	$ 1,803,977

7 PLAN TERMINATION

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. If such a termination were to occur, the net assets of the Plan would be allocated in accordance with the statutory priorities set forth by ERISA Section 4044 and regulations promulgated in the Plan. Any funds remaining in the Plan after satisfaction of all liabilities to plan participants shall be returned to the Company.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of any individual's monthly benefit.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and it may also depend on the level of benefits guaranteed by the PBGC.

8 FEDERAL INCOME TAXES

The Plan obtained its latest determination letter on June 20, 2012, in which the Internal Revenue Service (IRS) stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of September 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9 PARTIES-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan's custodian is Metropolitan Life Insurance Company. The Plan's investments were units of pooled separate accounts managed and/or held by MetLife; therefore, these transactions qualified as parties-in-interest transactions.

10 SUBSEQUENT EVENTS

On January 1, 2013, the Plan Sponsor was changed to Infor, Inc. Infor, Inc. acquired SoftBrands, Inc. in 2009.

Plan management has evaluated all other subsequent events, for potential recognition or disclosure in the financial statements, through July 10, 2013, the date the financial statements were available to be issued.

Schedule SB, line 22—Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at beginning of year.

(a) Age	(b) Rate	(c) Weight	(d) Product (a) × (b) × (c)
55	2.00%	1.0000	1.10

Interest rates	Based on segment rates with a four-month lookback (as of June 2011)

2nd segment rate	5.43%
3rd segment rate	6.34%
Retirement age	
Active participants	See Table 1

Mortality rates	
Healthy and disabled	2011 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e)
Withdrawal rates	None
Disability rates	None
Decrement timing	Beginning of year decrements, with 100% retirement occurring at beginning of year
Surviving spouse benefit	It is assumed that 100% of males and 100% of females have an eligible spouse, and that males are 3 years older than their spouses.
Benefit limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $195,000.

Valuation of plan assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
Expected return on assets	
2009 plan year	6.84%
2010 plan year	6.68%
