NOTE 1 - DESCRIPTION OF PLAN

The following description of the Quantum Design Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Effective October 1, 1986, Quantum Design, Inc., (the "Company" or "Employer") established and adopted the Plan for its employees. The Plan is a defined contribution profit sharing 401(k) plan covering substantially all employees who have reached the age of 21 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by an Administrative Committee consisting of one or more persons appointed by the Board of Directors of the Company.

Contributions

Under the terms of the Plan, participants may elect to defer a percentage of their regular earnings from the Company into the Plan. Such salary reduction contributions on a pre-tax basis shall not exceed 15% of the participants' annual base salaries, up to a maximum Internal Revenue Service ("IRS") dollar limit of $17,000 in 2012 and $16, 500 in 2011. Additionally, participants who will be at least age 50 by the end of the tax year may make additional "catch up" contributions of $5,500 in 2012 and 2011. Participants may also contribute rollover distributions from other qualified plans.

The Company has the right to make an additional discretionary contribution, which shall be allocated, to each eligible employee in proportion to his or her compensation as a percentage of the compensation of all eligible employees. For the years ended September 30, 2012 and 2011, the Company made contributions of $1,299,579 and $1,642,955, respectively, to the plan. Contributions are subject to certain limitations under IRS regulations.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) the Plan earnings or losses. Allocations are based on participant earnings or losses on account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are applied at the end of the plan year in which they occur to reduce employer contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (Cont.)

Investment Options

Upon enrollment into the Plan, a participant may direct their employee contributions in various percentage increments among any of the various investment options.

Vesting

Participants are immediately 100% vested in their elective contributions plus actual earnings thereon.

The non-elective employer contributions, matching contributions, and transferred benefits accounts of a participant shall vest subject to the following vesting schedule:

Vesting Years Of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participant Loans

Participants may borrow from their fund accounts a maximum of, the lesser of, $50,000 or 50% of their vested account balance. Loan transactions are treated as segregated investments of the individual participant. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates range from 4.25% to 9.0%. Principal and interest payments are paid ratably through payroll deductions.

Termination or Modification of the Plan

The Company has the right to terminate the Plan upon 60 days notice in writing to the trustee. The sponsor may amend any or all provisions of this plan without obtaining the approval or consent of the employer providing the amendment does not permit any part of the corpus or income of the Plan to be used for any purpose other than for the benefit of the participant and their beneficiaries. In the event the Plan is terminated, all participants will become 100% vested in their accounts.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual method of accounting and present the net assets available for Plan benefits at September 30, 2012 and 2011, and changes in net assets available for Plan benefits for the year ended September 30, 2012 and 2011.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Participant loan receivables are valued at cost which approximate current value. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Benefit Withdrawals Paid

Benefits are recorded when paid. For the year ended September 30, 2012 and 2011, the Plan reported distributions of $491,831 and $337,168 of which $0 and $0 were deemed distributions, respectively.

Administrative Expenses

The employer is authorized to reimburse the Plan for all expenses and fees incurred in the administration of the Plan and paid out of the assets of the fund. For the year ended September 30, 2012 and 2011, the Plan expenses were $282,460 and $234,070, respectively.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 3 - INCOME TAX STATUS

The Internal Revenue Service has determined the Plan and related trust is designed in accordance with applicable sections of the Internal Revenue Code. Although the plan has been amended since receiving the determination letter, the plan administrator believe that the plan is

NOTE 3 - INCOME TAX STATUS (Cont.)

designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believe that the plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability or asset if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of September 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 4 - ADMINISTRATION OF PLAN ASSETS

The Plan's assets are held by the custodian of the Plan, Nationwide Life Insurance Company. At September 30, 2012 and 2011, the assets of the Plan were administered under a custodian agreement with Nationwide. The custodian agreement requires that the custodian holds, administers and distributes the funds of the Plan in accordance with the text of the Plan and instructions of the trustees.

NOTE 6 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 6 – FAIR VALUE MEASUREMENTS(Cont.)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of September 30, 2012 and 2011:

Input levels by investment category:	September 30, 2012			
Investment category	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
