Actuarial Methods

Actuarial Cost Method Unit Credit Cost Method--This is the prescribed method under PPA. Under this method a projected benefit is determined at every age at which a participant could receive a benefit. This benefit is based on accrued service and current pay. Different benefits will be calculated in accordance with the plan provisions for the different decrements. The accrued liability is determined by discounting the benefits to which the employee is expected to become eligible with interest from the valuation date to the payment date. The normal cost is the difference between the accrued liability determined as if the participant had an additional year of service and the otherwise calculated accrued liability.

Asset Method The Plan Assets for the plan year are determined by averaging the current year's fair value with the fair values of assets from the previous two years adjusted for contributions, benefit payments and expected investment earnings based on the following:

1. All determination dates that are within 25 months of the valuation date are used.
2. The determination dates are at the ends of the plan years.
3. Assets are expected to return 7.50% per annum.

The expected return may be limited to the third segment rate used in the calculation of the funding target. Also, the resulting averaged asset value cannot be less than 90% or greater than 110% of the fair market value, including contributions receivable.

Mandated Interest Rates for Funding Target Segment rates representing the 24-month average of yields on corporate bonds. The Applicable Month for the determination of the segment rates is October.

Employees valued All active and inactive participants are included in this valuation.

Benefits valued To the best of our knowledge, all benefits have been included in the liabilities, in accordance with the actuarial assumptions.

Section 415 limits Benefits were limited in accordance with section 415(b).

SCHEDULE SB, PART V - SUMMARY OF PLAN PROVISIONS

Effective Date Initially adopted effective March 1, 1979. Assumed by Wilson Industries, Inc. effective January 31, 2001, and most recently amended effective May 1, 2003.

Plan Year Calendar year

Effective April 30, 2003, future benefit accruals were frozen for Chicago Union active participants. Thus, benefits are frozen for all eligible participants in the plan as follows:

<u>Group</u>	<u>Accrued Benefit Frozen Effective:</u>
Non-Union	May 16, 2001
Trainer Union	March 31, 2002
South Plainfield Union	May 31, 2002
Chicago Union	April 30, 2003

Below is a summary of plan provisions in effect prior to the freezing of benefit accruals.

Eligibility Each Eligible Employee shall participate on the first day of the plan year nearest the completion of one Year of Service and attainment of age 21.

Eligibility and Vesting Service One year of Service is granted for each 12-month period, starting on the employee's date of hire, in which the employee is paid for at least 1,000 hours of employment.

Benefit Service One year of Service is granted for each fiscal year in which the employee is paid for at least 1,000 hours of employment.

Compensation Compensation includes all of a participant's Section 415 Safe Harbor compensation. Compensation does not include the following:

- Employer contributions to a plan of deferred compensation which is not includable in the employee's gross income,
- Employer contributions under a SEP to the extent that the contributions are deductible by the employee,
- Any distributions from a plan of deferred compensation,
- Amounts realized from the exercise of a non-qualified stock option, or when restricted stock or property held by the employee either becomes freely transferable or is no longer subject to a substantial risk of forfeiture,
- Amounts realized from the sale, exchange or other disposition of stock acquired under a qualified stock option, and
- Other amounts which received special tax benefits, or contributions made by the employer.

SCHEDULE SB, PART V - SUMMARY OF PLAN PROVISIONS

Plan Compensation	The average annual Compensation of the highest five consecutive years. The average monthly Compensation is 1/12 of the average annual compensation.
Covered Compensation	The average of the Social Security Wage Bases over the 35 year period up to and including the year in which the participant attains Social Security Normal Retirement Age.
Normal Form of Benefit	The normal form of pension is a monthly life annuity commencing on the participant's Normal Retirement Age.
Normal Retirement Date	Plan anniversary nearest the 65th birthday, or after 5 years of participation in the plan, whichever is later.
Employee Contributions	1% of base pay.
Normal Retirement Benefit	<p>The basic monthly pension is 44.020% of the average monthly compensation, up to Covered Compensation, plus 68.520% of any average monthly compensation that is in excess of Covered Compensation. The basic monthly pension is reduced proportionally if the participant has fewer than 35 credited years of service.</p> <p>The base percentage shall be the greater of 44.020% and the excess percentage minus the product of years of service (not to exceed 35) and the Social Security Retirement Age factor.</p> <p>If a participant also participated in the Guyon Plan, then the total benefit is the sum of the accrued benefit under the Guyon plan plus the benefit under this plan accrued for service after July 6, 1992.</p>
Late Retirement Benefit	Calculated in the same manner as for Normal Retirement. Benefits continue to accrue under the plan as determined by applicable increases in average compensation and credited years of service.
Early Retirement Eligibility	The plan does not provide for early retirement.
Early Retirement Benefit	Benefits are based on the participant's vested accrued benefit as of the date the participant terminates employment.

SCHEDULE SB, PART V - SUMMARY OF PLAN PROVISIONS

Vested Benefit Vesting occurs under a graded vesting schedule as follows:

<u>Years of Service</u>	<u>Vesting %</u>
0-2	0%
3	20%
4	40%
5	60%
6	80%
7+	100%

Participants become 100% vested after seven years of service. All participants continue to accrue vesting service until date of termination. Vested benefit is found by multiplying the participant's accrued benefit by the vested percentage.

Death Benefit The standard death benefit is the greater of:

1. the participant's accrued benefit; or
2. the proceeds from any insurance policy on the participant's life, not to exceed 100 times the projected monthly pension at retirement.

If the participant is married at the time of death, death benefits are paid to the spouse in the form of a Qualified Survivor Annuity. The death benefit of participants with frozen benefits is their accrued benefit.

Disability Benefit Disability benefits are not provided. A participant who becomes disabled may retire at any time before the normal retirement date and will be entitled to receive a reduced benefit based on the vested accrued benefit and age at time payment begins.

Optional Payment Forms Benefits may be payable in any of the following forms on an actuarially equivalent basis:

1. Qualified Joint and Survivor – the automatic option if the participant is married; equal to an adjusted amount payable while the participant is alive, with at least 50% and no more than 100% of the adjusted amount payable to the spouse in the event of the participant's death,
2. A life only payment,
3. A one-time single lump sum payment.

The basic monthly pension is reduced proportionally if the participant has fewer than 35 credited years of service.</p> <p>The base percentage shall be the greater of 44.020% and the excess percentage minus the product of years of service (not to exceed 35) and the Social Security Retirement Age factor.</p> <p>If a participant also participated in the Guyon Plan, then the total benefit is the sum of the accrued benefit under the Guyon plan plus the benefit under this plan accrued for service after July 6, 1992.</p>
Late Retirement Benefit	Calculated in the same manner as for Normal Retirement. Benefits continue to accrue under the plan as determined by applicable increases in average compensation and credited years of service.
Early Retirement Eligibility	The plan does not provide for early retirement.
Early Retirement Benefit	Benefits are based on the participant's vested accrued benefit as of the date the participant terminates employment.

SCHEDULE SB, PART V - SUMMARY OF PLAN PROVISIONS

Vested Benefit Vesting occurs under a graded vesting schedule as follows:

<u>Years of Service</u>	<u>Vesting %</u>
0-2	0%
3	20%
4	40%
5	60%
6	80%
7+	100%

Participants become 100% vested after seven years of service. All participants continue to accrue vesting service until date of termination. Vested benefit is found by multiplying the participant's accrued benefit by the vested percentage.

Death Benefit The standard death benefit is the greater of:

- 1 . the participant's accrued benefit; or
- 2 . the proceeds from any insurance policy on the participant's life, not to exceed 100 times the projected monthly pension at retirement.

If the participant is married at the time of death, death benefits are paid to the spouse in the form of a Qualified Survivor Annuity. The death benefit of participants with frozen benefits is their accrued benefit.

Disability Benefit Disability benefits are not provided. A participant who becomes disabled may retire at any time before the normal retirement date and will be entitled to receive a reduced benefit based on the vested accrued benefit and age at time payment begins.

Optional Payment Forms Benefits may be payable in any of the following forms on an actuarially equivalent basis:

- 1 . Qualified Joint and Survivor – the automatic option if the participant is married; equal to an adjusted amount payable while the participant is alive, with at least 50% and no more than 100% of the adjusted amount payable to the spouse in the event of the participant's death,
- 2 . A life only payment,
- 3 . A one-time single lump sum payment.

Independent Auditors' Report

To the Administrative Committee of the
Van Leeuwen Pipe and Tube Corporation Employees' Pension Trust
Houston, Texas

We were engaged to audit the financial statements and supplemental schedules of the Van Leeuwen Pipe and Tube Corporation Employees' Pension Trust (the "Plan") as of December 31, 2011, and for the year then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management. The financial statements of the Plan as of and for the year ended December 31, 2010 were reported on by other auditors, whose report dated October 17, 2011 disclaimed an opinion for the reasons set forth below.

As permitted by 29 CFR Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Comerica Bank, the Trustee of the Plan, except for comparing such information with the related information included in the 2011 financial statements and supplemental schedules. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of and for the year ended December 31, 2011, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information in the Plan's 2011 financial statements and supplemental schedules that we did not audit, we are unable to express, and do not, express an opinion on the accompanying 2011 financial statements and supplemental schedules taken as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2011 and of reportable transactions for the year ended December 31, 2011 are presented for the purpose of additional analysis and are not a required part of the basic 2011 financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the 2011 financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VAN LEEUWEN PIPE AND TUBE CORPORATION EMPLOYEES' PENSION TRUST

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of the Van Leeuwen Employees' Pension Trust (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions, a copy of which is available from Wilson International, Inc., the General Partner of Wilson Industries, L.P. ("Wilson").

a) General

The Plan is a defined benefit plan sponsored by Wilson that covers certain former employees of Van Leeuwen Pipe and Tube Corporation Pipe and Tube Corporation ("Van Leeuwen") that met the eligibility requirements of the Plan. The Plan was established on March 1, 1979 and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Wilson International, Inc. is a wholly-owned subsidiary of Smith International, Inc. ("Smith"). On August 27, 2010, Schlumberger Limited ("Schlumberger" or the "Company") acquired all of the outstanding shares of Smith and assumed sponsorship of all plans sponsored by Smith and its subsidiaries.

Effective May 16, 2001, Wilson froze the benefits of active participants who were not covered by a collective bargaining agreement. Pursuant to collective bargaining, the Plan was amended to freeze the participation and benefits of all active Plan participants who were employed at Wilson's Trainer, Pennsylvania, South Plainfield, New Jersey, and Chicago, Illinois facilities, effective March 31, 2002, May 1, 2002 and May 1, 2003, respectively.

Effective April 10, 2012, Wilson International, Inc. and its remaining subsidiaries, including Wilson Industries, L.P., were sold to National Oilwell Varco. As a result of the sale, National Oilwell Varco assumed sponsorship of the Plan.

The Plan was amended and restated effective January 1, 2011 to comply with the provisions of Economic Growth and Tax Relief Reconciliation Act of 2001, as well as requirements of the final Treasury Regulations issued under Code Section 415; the Pension Protection Act of 2006, as amended by the Worker, Retiree, and Employer Recovery Act of 2008; the Heroes Earnings Assistance and Relief Tax Act of 2008; and all other applicable provisions of the Internal Revenue Code of 1986, as amended (the "Code") and ERISA as in effect as of the effective date. In December 2012, the Plan was amended to revise the forms of benefit available to participants and review the applicable interest rates for annuities, in accordance with the Code. The above amendments were effective and/or adopted after the date of the accumulated plan benefit information disclosed in Note 6; therefore, the effects of these amendments were not included in the calculation of accumulated plan benefits. The impact of the above amendments has not yet been determined by the Plan's consulting actuary, Ernst & Young, LLP (the "Actuary").

b) Benefits paid to participants

The Plan allows participants to receive benefit payments after the later of age 65 or five years of participation. Benefit payments are calculated as a percentage of compensation, subject to certain limitations and provisions as defined by the Plan. Benefits are reduced proportionately for less than 35 years of participation. If married at retirement, participants will receive payments made as an actuarially equivalent qualified joint and survivor annuity which provides for a specified pension

b) Benefits paid to participants (cont'd)

for the participant's life. Should the participant die after retirement, 50 percent to 100 percent of the pension benefit, as elected, will be paid to the participant's beneficiary. The maximum benefit is limited to the lesser of 100 percent of the average annual compensation or the amount allowed under the Code. Alternatively, a lump sum payment may be paid with spousal consent.

The Plan also provides for death benefits to the beneficiaries of vested participants who die before retirement.

c) Administration and trustee

Wilson is the Plan Administrator as defined under ERISA. The Plan's operations are monitored by an administrative committee which is comprised of officers and employees of the Company or of Schlumberger Limited. Comerica Bank ("Comerica") served as the Trustee of Plan investments during the years ended December 31, 2011 and 2010.

d) Funding policy

Employer contributions are determined by the Actuary, and are designed to fund the Plan's estimated costs in accordance with the funding standards of ERISA. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2011 and 2010.

e) Vesting

All Plan participants are fully vested at December 31, 2011 and 2010.

2. Summary of significant accounting policies

a) Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

b) Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

VAN LEEUWEN PIPE AND TUBE CORPORATION EMPLOYEES' PENSION TRUST

NOTES TO FINANCIAL STATEMENT

2. Summary of significant accounting policies (cont'd)

c) Risks and uncertainties

The Plan invests in a short-term investment fund and various collective trusts (consisting of various debt and equity index funds). Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported in the financial statements.

d) Investment valuation and income recognition

The Plan follows the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, "Fair Value Measurement." Under FASB ASC Topic 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

FASB ASC Topic 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are as described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

VAN LEEUWEN PIPE AND TUBE CORPORATION
EMPLOYEES' PENSION TRUST
NOTES TO FINANCIAL STATEMENT

2. Summary of significant accounting policies (cont'd)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. See Note 5 for the disclosures required by FASB ASC Topic 820 with regard to Plan investments.

In determining the fair value of investments, the Plan uses various inputs and valuation methodologies which are described in Note 5. There have been no significant changes in the inputs or valuation methodologies used at December 31, 2011 and 2010.

The Plan presents in the statements of changes in net assets available for benefits the net appreciation or depreciation in the fair value of investments, which consists of realized gains or losses on investments sold and unrealized gains or losses on investments held.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

e) Benefits paid to participants

Benefits paid to participants are recorded upon distribution. There were no benefits payable to participants as of December 31, 2011 or 2010.

f) Administrative expenses

The Plan is responsible for its administrative expenses. The Company may elect to pay administrative expenses on behalf of the Plan.

g) New accounting pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06, Fair Value Measurements and Disclosures (Topic 820): *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 mends the disclosure requirements of Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, including new disclosures about transfers into and out of Levels 1 and 2 and clarified existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This portion of the ASU 2010-06 is effective for the Plan in 2010. In addition, there are requirements for separate disclosures relating to Level 3 fair value measurements that are

NOTES TO FINANCIAL STATEMENT

2. Summary of significant accounting policies (cont'd)

g) New accounting pronouncements (cont'd)

effective for years beginning after December 15, 2010. The adoption of this portion of ASU 2010-06 did not have an impact on the Plan's financial statements.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

3. Information certified by the Plan's Trustee

The following is a summary of the information regarding the Plan as of December 31, 2011 and 2010, and for the years then ended, included in the Plan's financial statements (including footnotes) and supplemental schedules, that was prepared by or derived from information prepared by the Trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certification from the Trustee that such information is complete and accurate.

The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2011 and 2010:

Short-term investments are stated at amortized cost which approximates fair value. The units of the collective trusts are stated at net asset value (NAV) as determined by the issuer of the trust based on the fair value of the underlying investments.

The valuation methods as described in Note 2 and above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the Level 2 investments measured at fair value and reported at NAV per share as of December 31, 2011 and 2010:

6. Accumulated plan benefits

Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered to the valuation freeze date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. The significant actuarial assumptions used by the Actuary in the valuation as of January 1, 2011 and 2010, were (a) discount rate of 7.5%, (b) life expectancy of participants, using the IRS Applicable Mortality Table for post-retirement mortality and lump sum conversion mortality (IRS 2011 Applicable Mortality Table in 2011; IRS 2010 Applicable Mortality Table in 2010) and no rates for pre-retirement mortality (c) lump sum conversion segment rates (3.87%, 6.25%, and 6.63% in 2011; 5.20%, 6.00%, and 6.50% in 2010) and (d) retirement age assumptions (an assumed retirement age of 65). The effects of changes in IRS Applicable Mortality Tables and lump sum conversion rates are reflected as changes in actuarial assumptions.

6. Accumulated plan benefits (cont'd)

The actuarial method employed by Hewitt in calculating contribution requirements is the unit credit actuarial cost method.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were terminate, different assumptions and other factors would likely apply in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated plan benefits as determined by the Plan's actuary as of January 1, was as follows:

	2011	2010
Vested benefits -		
Active participants with vested benefits	\$ 2,122,162	\$ 2,068,350
Terminated participants with deferred vested benefits	2,478,612	2,227,766
Participants currently receiving benefits	217,042	195,720
Total actuarial present value of accumulated plan benefits	\$ 4,817,816	\$ 4,491,836

The changes in the actuarial present value of accumulated plan benefits were as follows:

Actuarial present value of accumulated plan benefits at January 1, 2010	\$ 4,491,836
Change during the year attributable to:	
Increase for interest related to the decrease in the discount period	330,371
Changes in actuarial assumptions	117,980
Benefits accumulated	54,609
Benefits paid	(176,980)
Net change	325,980
Actuarial present value of accumulated plan benefits at January 1, 2011	\$ 4,817,816

7. Exempt party-in-interest transactions

The Plan invests in certain shares of collective trusts that are managed by Comerica. Fees paid to Comerica, as Trustee, were \$7,666 and \$6,317 for the years ended December 31, 2011 and 2010, respectively. These transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

At December 31, 2011 \$6,782 is due to the Smith International, Inc. Restated Pension Plan ("Smith Plan") for expenses incurred on behalf of the Plan.

8. Federal income tax status

The Plan is a non-standardized prototype plan, offered through the Guardian Retirement Services, which received an opinion letter from the IRS dated April 29, 2002, indicating that the prototype plan and related trust are designed in accordance with the applicable sections of the Code. The Plan has been amended and restated since the date of the letter. On February 9, 2012, the Plan received a favorable determination with respect to the amended and restated Plan.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

9. Plan termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan. If the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide benefits in the following order:

- a) Annuity benefits for former employees or their beneficiaries who have been receiving benefits for at least three years or for employees eligible to retire for that three-year period who would have been receiving benefits if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") up to the applicable limitations.
- c) All other vested benefits not insured by the PBGC.
- d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits and early retirement benefits as well as certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

NOTES TO FINANCIAL STATEMENT

9. Plan termination (cont'd)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for by the then existing assets of the Plan and the PBGC guaranty while other benefits may not be provided for at all.

10. Subsequent events

For the purposes of determining the effect of subsequent events on these financial statements, management has evaluated events through June 12, 2013, the date on which the financial statements were available to be issued.
