NOTE A BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General - The Industrial Info Resources, Inc. Employee Savings Plan (the Plan) was adopted effective September 1, 1993 to establish a savings and investment plan for the exclusive benefit of the employees of Industrial Info Resources, Inc. (the Company). The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of Presentation - The financial statements of the Plan are prepared on the accrual basis of accounting. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recognized when earned.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles in the United States (GAAP) requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for several investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Valuation of Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits and the changes in the net investment gain or loss are reflected in the statement of changes in net assets available for plan benefits.

Notes Receivable from Participants - GAAP requires that loans to participants be reported as a receivable from participants at the unpaid principal balance plus any accrued but unpaid interest.

Subsequent Events - The Plan has evaluated subsequent events through July 10, 2013, the date the financial statements were available to be issued. No subsequent events occurred, which require adjustment or disclosure to the financial statements at December 31, 2012.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Participation - A full-time employee is eligible to become a participant in the Plan after having attained the age of 21. Entry dates into the Plan are the first day of the quarter following date of hire.

Contributions - Eligible employees are automatically enrolled to defer 2% of their eligible compensation into the Plan when they fail to provide the Company with a salary reduction agreement. Participants may elect to make contributions to the Plan in an annual amount up to 90% of their compensation. Contributions are made through authorized payroll reductions. These contributions by individual employees were limited to $17,000 (participants under 50 years of age) and $22,500 (participants 50 years of age or older) in 2012. This limitation is periodically adjusted to reflect cost-of-living increases.

The Company elected to contribute a 401(k) matching contribution equal to 50% of each participant's deferrals up to 6% of eligible compensation. Maximum annual additions (which include employer contributions) shall not exceed the lesser of $50,000 or 100% of the participant's compensation, or cause the Plan to exceed the maximum amount allowable as a deduction to the employer under provisions of the Internal Revenue Code. The Company may also make additional contributions, in an amount determined solely at the discretion of the managing body of the Company. Such additional discretionary contributions, if any, are allocated pro rata to all eligible participants based upon the proportion of the participant's compensation to the total compensation of all eligible participants. There were no discretionary contributions during the year ended December 31, 2012.

Vesting - Participants are immediately vested in their salary reduction and rollover contributions plus actual earnings thereon. Any Company discretionary contributions and related earnings vest as follows:

Years of Vesting Service	Vested Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeitures of account balances not fully vested for the year ended December 31, 2012 amounted to $6,272. The amount of unused forfeitures at December 31, 2012 amounted to $29,788, which can be used to pay for future administrative expenses.

NOTE B PLAN DESCRIPTION (CONTINUED)

Forms of Benefits - The normal form of benefit payable under this Plan is a lump sum. If the amount payable is greater than $1,000 but less than $5,000, the participant's vested account balance will be directly rolled over into an individual retirement account maintained by an entity selected by the Company. If the amount payable is greater than $5,000, the participant must give written consent before the distribution can be made.

Investments - Each participant directs the investment of their account into any of the investment options designated by the Plan Administrator.

Each participant account is credited with the participant's contribution, the Company's contributions, and a pro rata share of the earnings of each fund in which the participant has invested.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund and participant loans receivable. Loan terms range from 1 to 5 years or up to a reasonable period of time exceeding five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. The interest rate on loans outstanding at December 31, 2012 ranged from 5.25% to 7.75%. Principal and interest is paid ratably through payroll deductions.

Administration - The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses other than each participant's loan fees and distribution fees were paid by the Company for year ended December 31, 2012.

NOTE C INCOME TAX STATUS

In 2011, the Company adopted a Volume Submitter Profit Sharing Plan with a deferral arrangement. The Volume Submitter Profit Sharing Plan received a favorable opinion letter from the Internal Revenue Service (IRS) on July 1, 2009, which stated that the Volume Submitter Profit Sharing Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (Code). The Plan has been amended since the favorable opinion letter was received. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and therefore, believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of December 31, 2012, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2009 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

NOTE E PARTY-IN-INTEREST

The Plan invests in various funds offered by Hartford Life Insurance Company. These investments are considered party-in-interest transactions because Hartford Life Insurance Company serves as asset custodian to the Plan. The Plan Administrator has approved of these investment options.

NOTE F FAIR VALUE DISCLOSURES

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices in active or inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during 2012 and 2011.

Registered investment companies are valued at the net asset value of shares held by the Plan at year end.

The pooled separate account is valued at fair value by the asset custodian based upon the net asset value of underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation techniques are appropriate and consistent with other market participants, the use of different techniques or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE F FAIR VALUE DISCLOSURES (CONTINUED)

The fair values of investments are categorized as follows at December 31, 2012 and 2011:
