The Corporate Benefits Committee
National Oilwell Varco, Inc.

We were engaged to audit the financial statements of Robbins & Myers, Inc. Pension Plan for Hourly Employees (the "Plan") as of September 30, 2012 and 2011 and for the years then ended and the supplemental schedules as of and for the year ended September 30, 2012, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's administrator.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by JP Morgan Chase Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended September 30, 2012 and 2011 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN:

The following description of the Robbins & Myers, Inc. Pension Plan for Hourly Employees (the Plan) provides only general information. Participants should refer to the *Summary Plan Description* for a complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan which covers substantially all hourly employees of Local Number 902 of the Automobile, Aerospace, and Agricultural Implement Workers of America and International Union United of Robbins & Myers, Inc. (the Company) covered by a collective bargaining agreement at its Springfield operations. The Plan provides pension, death, and permanent disability benefits.

Funding policy

The Company has agreed to contribute such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants. It is the intention of the Company to make annual contributions in amounts sufficient to fund the Plan's current year's service cost and the initial past service cost plus interest (all normal costs and to fund the unfunded accrued liability) over a period of 30 years. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements.

Plan termination

The Company has the right to terminate the Plan and to discontinue contributions. However, no action shall alter the Plan or its operation that would violate the provisions of any collective bargaining agreements pertaining to pension benefits. Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC's guarantee, while other benefits may not be provided for at all. As of February 1, 2008, the plan was closed to new participants. Effective September 30, 2012, benefit accruals under the Plan were frozen. Additionally, effective September 30, 2012, credited service will not be credited for any period of service after September 30, 2012 for purposes of determining the amount of a participant's normal retirement benefit. A participant may continue to accrue credited service after September 30, 2012 for purposes of eligibility for an unreduced early retirement benefit and eligibility for an additional early retirement benefit.

Pension benefits

Eligible employees who have completed at least five years of service are entitled to monthly retirement benefits beginning at normal retirement age (65) as computed below:

A member who is eligible to receive a normal retirement benefit is entitled to a monthly benefit equal to the member's credited service, determined in years and fractions thereof, multiplied by the following rate:

- (1) \$12.25 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1986 and before February 1, 1987;
- (2) \$12.75 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1987 and before February 1, 1988;
- (3) \$13.50 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1988 but before February 1, 1990;
- (4) \$14.50 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1990 but before February 1, 1991;
- (5) \$15.00 if his Vesting Service terminates or he becomes an Inactive Participant on or after

- February 1, 1991 but before February 1, 1992;
- (6) \$15.50 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1992 but before February 1, 1993;
 - (7) \$17.00 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1993 but before February 1, 1994;
 - (8) \$18.50 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1994 but before February 1, 1995;
 - (9) \$19.50 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1995 but before February 1, 1996;
 - (10) \$20.50 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1996 but before February 1, 1997;
 - (11) \$21.50 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1997 but before February 1, 1998;
 - (12) \$22.00 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1998 but before February 1, 1999;
 - (13) \$25.00 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 1999 but before September 1, 2001;
 - (14) \$30.00 if his Vesting Service terminates or he becomes an Inactive Participant on or after September 1, 2001 but before February 14, 2005;
 - (15) \$35.00 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 14, 2005 but before February 1, 2008;
 - (16) \$35.50 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 2008 but before February 1, 2009;
 - (17) \$36.00 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 2009 but before February 1, 2010;
 - (18) \$36.50 if his Vesting Service terminates or he becomes an Inactive Participant on or after February 1, 2010 but before February 1, 2011; and
 - (19) \$37.00 for a participant that terminates on or after February 1, 2011.

The plan permits early retirement at ages between 55 and 65 with at least ten years of service at a reduced monthly rate. Retirement at age 62 with thirty years of service requires no reduction in benefits. Pension benefits may be paid in the form of joint and survivor annuities. Terminated vested members with a lump sum actuarial equivalent benefit of less than \$1,000 may take their benefit in a lump sum. Employees terminating before rendering five years of service forfeit the right to receive any portion of accumulated plan benefits.

2. SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

With respect to the Plan's investment in the Robbins & Myers, Inc. Master Trust (Master Trust), the Master Trust records purchases and sales of securities on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

With respect to the Plan's investment in money market assets, interest income is recorded on the accrual basis.

Actuarial present value of accumulated plan benefits

Accumulated plan benefits (see Note 3) are those estimated future periodic payments that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired and terminated vested participants or their beneficiaries, and (b) present participants or their beneficiaries.

Benefits for retired and terminated vested participants or their beneficiaries are based on the monthly pension benefit rate per the Plan times years of credited service. The accumulated plan benefits for active participants are based on the monthly pension benefit rate per the Plan times years of credited service through the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Operating expenses

Certain expenses of maintaining the Plan are paid by the Company and certain expenses are paid by the Plan.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. On February 20, 2013, Robbins & Myers, Inc. was acquired by National Oilwell Varco, Inc. With the purchase, National Oilwell Varco, Inc. has assumed responsibility for the employees' vested benefits in the Plan. The employees' eligibility, participation and vested benefits in the Plan will continue with the same terms and conditions as before the acquisition. The accompanying financial statements consider events through July 10, 2013, the date on which the financial statements were available to be issued.

3. ACCUMULATED PLAN BENEFITS:

A consulting actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Robbins & Myers, Inc. Pension Plan for Hourly Employees
Notes to Financial Statements
Years Ended September 30, 2012 and 2011

The accumulated plan benefit information as of the beginning of each plan year is as follows:

	October 1	
	<u>2011</u>	<u>2010</u>
Vested benefits:		
Participants currently receiving payment	\$ 18,410,530	18,923,395
Vested benefits for other participants	<u>6,171,827</u>	<u>6,063,032</u>
	24,582,357	24,986,427
Nonvested benefits	<u>645,495</u>	<u>615,342</u>
	<u>\$ 25,227,852</u>	<u>25,601,769</u>
Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 25,601,769</u>	<u>23,336,262</u>
Increase (decrease) during the year attributable to:		
Interest accumulation	1,134,849	1,286,641
Benefit payments	(1,883,468)	(1,947,001)
Assumption changes	30,538	2,692,028
Plan amendments	79,098	77,625
Other changes	<u>265,066</u>	<u>156,214</u>
Net (decrease) increase	<u>(373,917)</u>	<u>2,265,507</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 25,227,852</u>	<u>25,601,769</u>

Significant assumptions underlying the actuarial computations at the beginning of each plan year are:

Interest rate	4.90% (4.60% in the prior year)
Retirement age	Based on age when first eligible to retire with unreduced benefits
Actuarial method	Projected unit credit cost method
Mortality rates	2011 static mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(e) (RP2000CH projected to 2011 with scale AA in the prior year)

The significant assumption change reflected in the October 1, 2011 and 2010 actuarial valuations was due to changes in the discount rate. The discount rate at October 1, 2011, 2010 and 2009 was 4.90%, 4.60%, and 5.75%, respectively.

Actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. INVESTMENTS:

All investment information disclosed in the accompanying financial statements, notes and supplemental schedules, including investments held at September 30, 2012 and 2011, and net appreciation (depreciation) in fair value of investments, interest and dividends and investment expenses for the years ended September 30, 2012 and 2011, were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

The Master Trust was established for the investment of assets of the Plan and several other Company sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At September 30, 2012 and 2011, the Plan's interest in the net assets of the Master Trust was approximately 27.01% and 27.06%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the Plan based upon its pro rata share in the net assets of the Master Trust.

The following table presents the fair value of investments of the Master Trust at September 30:

	<u>2012</u>	<u>2011</u>

5. FAIR VALUE MEASUREMENTS:

Accounting principles generally accepted in the United States of America, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2012:

	September 30, 2012	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money Market Fund	\$ 322,324	322,324	-	-

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2011:

	September 30, 2011	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money Market Fund	\$ 378,912	378,912	-	-

- (1) The money market fund is valued at the closing price reported on the active market on which it is traded.

Joint venture/partnerships	2	-	-	2
Total	\$ 62,625,428	50,067,797	12,557,629	2

- (2) U.S. Government and Agency obligations, Common and Foreign stocks, and Mutual funds are valued at the closing price reported on the active market on which the individual securities are traded.
- (3) Corporate and Foreign obligations are estimated using recent transactions, broker quotations and/or bond spread information.
- (4) Investments in Joint venture/partnerships are carried at estimated net asset value as determined by and reported by their management and represent the proportionate share of the estimated fair value of the underlying assets of the joint venture/ partnerships.

For investments measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during 2012 and 2011, a reconciliation of the September 30, 2012 and 2011 balances is as follows:

Balance, September 30, 2010	\$ 50,690
Unrealized depreciation	<u>(50,688)</u>
Balance, September 30, 2011	2
Unrealized appreciation (depreciation)	<u>-</u>
Balance, September 30, 2012	<u><u>\$ 2</u></u>

6. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of net assets available for benefits.

7. RELATED-PARTY TRANSACTIONS:

The Plan invests in Robbins & Myers, Inc. common stock through the Master Trust. The Master Trust received dividends of \$5,268 and \$6,955 on behalf of the Plan in the years ended September 30, 2012 and 2011, respectively.

8. INCOME TAX STATUS:

The Plan has received a determination letter from the Internal Revenue Service dated March 26, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from taxation.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of September 30, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years ended prior to September 30, 2009.

Schedule SB, Part V—Summary of Plan Provisions

History of the Plan

The Robbins & Myers, Inc. Pension Plan for Hourly Employees was established effective October 1, 1956, covering employees in the bargaining unit for which the May 6, 1957, pension agreement with the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America and its Local No. 902 was executed. Effective July 2, 1968, a group of plant clerical employees were transferred to coverage under this Plan.

The Plan has been amended periodically to provide additional types of benefits, to liberalize eligibility requirements for benefits, and to increase benefit rates. Effective October 1, 1976, the Plan was amended and restated in its entirety to comply with the provisions under ERISA. The following history indicates the effect of the various amendments on the benefits provided under the Plan.

As originally established, the Plan provided normal retirement benefits for employees who attained age 65 with at least ten years of Credited Service. Effective October 1, 1976, the service requirement was eliminated. Deferral of retirement with benefits accrued to actual retirement was permitted. Effective January 1, 1979, the maximum retirement age was increased from 68 to 70.

Early retirement benefits were payable after age 60 with at least ten years of Credited Service. The accrued normal retirement benefit was payable beginning at age 65 with earlier commencement of actuarially reduced benefits allowed. Effective October 1, 1968, the reduction for early commencement was liberalized to $\frac{1}{2}\%$ for each month by which benefit payments began before age 65. In 1971 the reduction was eliminated for employees retiring after 62 with at least 30 years of Credited Service. The age requirement for unreduced benefits was decreased to age 60 on October 1, 1976, and to age 58 on February 1, 1979, when the minimum age for early retirement was also lowered to age 58. Employees retiring early on or after February 1, 1979, with unreduced benefits became eligible for an additional monthly benefit of \$150 payable to age 62.

The original eligibility requirement for a vested benefit on termination of employment was age 40 and 15 years of Credited Service. Effective October 1, 1968, the age requirement was eliminated and the service requirement was reduced to ten years of Credited Service. Effective October 1, 1976, the service requirement was liberalized to be ten years of Vesting Service and election of early commencement of the benefits was allowed, subject to the early retirement reduction.

The eligibility requirement for disability retirement was originally age 50 and 15 years of Credited Service. Effective October 1, 1965, the age requirement was eliminated and the service requirement reduced to ten years of Vesting Service.

Employees retiring with benefits beginning on or after October 1, 1968, were permitted to elect a survivor income option which provides a survivor benefit for the spouse of the employees. This option could be elected on normal, early or late retirement. Employees on disability retirement were permitted the election upon attaining age 60. Under this option, if the employee and his spouse are the same age, the employee's benefit becomes 90% of the benefit he would otherwise have received. The 90% is subject to adjustment if the ages of the employee and spouse are different. On the death of the employee the spouse receives a lifetime benefit of 55% of the benefit the employee received at time of retirement, subject to reduction for transition and bridge survivor income benefits under a group insurance program of the Company.

Effective October 1, 1969, an automatic survivor's benefit was added to the Plan. Under this provision the surviving spouse of an active employee dying before retirement but after becoming eligible for early retirement is entitled to a benefit for life equal to the amount the spouse would have received if the employee had elected the survivor income option and retired the day before his death.

A participant's normal retirement benefit under the Plan is equal to the product of his Credited Service and the benefit accrual rate in effect when he retires or terminates. The schedule on page PP-5 indicates the normal retirement benefit accrual rates which were applicable at retirement for participants retiring or terminating after the indicated dates. The schedule also shows the effects of amendments which increased benefits for participants who had previously retired as normal, early, late or disability retirements. Benefits for beneficiaries of retired participants were not affected by the increases, remaining fixed at the amount established at the time of retirement. Benefits for vested terminated participants were not affected by increases effective in the period prior to their actual retirement. There have been four types of increases for the retired participants. In 1965 and 1968, the changes increased the benefit accrual rates for previously retired participants to the level effective for new retirees. The 1971, 1972, 1974, 1975, and 1981, changes increased the benefit rate for each year of Credited Service by flat amounts of 50, 25, 50, 50, and 25 cents respectively. The 1979 change increased the benefits for retired participants by 3.5%. The 1993 change increased the benefits for retired participants between \$20 and \$50 per month, depending on the year the participant retired.

Effective February 1, 1981, the additional monthly benefit payable until age 62 to early retirees was increased from \$150 to \$175.

Effective October 1, 1985, the plan was amended to comply with the Retirement Equity Act. The eligibility for a surviving spouse death benefit was expanded to include all active vested employees, and, at employee expense, all terminated vested employees who do not elect out of the coverage.

Effective February 1, 1986, the additional monthly benefit payable until age 62 to early retirees was increased from \$175 to \$200.

Effective February 1, 1988, the additional monthly benefit payable until age 62 to early retirees was increased from \$200 to \$300. In addition, the age requirement for unreduced benefits was lowered to age 56 with 30 years of service.

Effective February 1, 1989, the age requirement for unreduced benefits was lowered from age 56 and 30 years of service to age 55 and 30 years of service.

Effective October 1, 1989, the eligibility requirement for a deferred vested benefit was amended to provide full vesting after five years of service. The amended eligibility also pertains to the automatic preretirement surviving spouse annuity.

Effective February 1, 1990, the additional monthly benefit payable until age 62 to early retirees was increased from \$300 to \$400.

Effective February 1, 1993, the requirement for unreduced benefits was lowered from age 55 and 30 years of service to 30 years of service, regardless of age. The additional monthly benefit payable until age 62 to early retirees was increased from \$400 to \$450.

Effective March 1, 1993, the monthly benefits for the retirees and beneficiaries (retired on or before February 28, 1993) in R&M Hourly (Plan 1) were increased in accordance with the following schedule based on years since retirement:

Effective February 1, 1996, the additional monthly benefit payable until age 62 to early retirees was increased from \$450 to \$500.

Effective April 8, 1999, the additional monthly benefit payable until age 62 to early retirees was increased from \$500 to \$600.

Effective September 1, 2001, the additional monthly benefit payable until age 62 to early retirees was increased from \$600 to \$750.

Effective February 14, 2005, the additional monthly benefit payable until age 62 to early retirees was increased from \$750 to \$1,000.

The trustee for the Plan is JP Morgan Chase.

Schedule SB Attachment (Form 5500)—2011 Plan Year
Robbins & Myers, Inc. Pension Plan for Hourly Employees
EIN: 31-0424220 PN: 001

Effective Date	October 1, 1956. Amended and restated effective October 1, 2010.
Coverage	All hourly employees in the bargaining unit for which the pension agreement as of May 6, 1957, with the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America and its Local No. 902 was executed. The plan was closed to new hires as of February 1, 2008.
Retirement Age	
Normal	Age 65 and five years of Vesting Service.
Early	Age 55 and 10 years of Vesting Service or 30 years of Vesting Service.
Disability	Ten years of Vesting Service.
Deferred Vested	Five years of Vesting Service.
Amount of Retirement Benefit	
Normal	A participant's monthly benefit is equal to Credited Service multiplied by a benefit accrual rate which is dependent on his date of retirement. The current monthly benefit for each year of Credited Service is \$37.00.
Early	Benefit computed as for normal retirement but based on Credited Service at early retirement and the benefit accrual rate then in effect payable beginning at age 65. Benefit is reduced $\frac{1}{2}$ of 1% for each month by which the benefit commencement date precedes age 65 except that no reduction is applied if retirement occurs after 30 years of Credited Service. An additional monthly benefit of \$1,000 is payable until age 62 to employees retiring with unreduced benefits.
Late	Benefit computed as for normal retirement but based on Credited Service at actual retirement and the benefit accrual rate then in effect.
Disability	Benefit computed as for normal retirement but based on Vesting Service at disability and the benefit accrual rate then in effect payable beginning six months after disability onset.

Schedule SB Attachment (Form 5500)—2011 Plan Year
Robbins & Myers, Inc. Pension Plan for Hourly Employees
EIN: 31-0424220 PN: 001

Deferred Vested	Accrued normal retirement benefit based on Credited Service at date of termination and the benefit accrual rate then in effect payable at age 65. Benefit is reduced $\frac{1}{2}$ of 1% for each month by which benefit payments begin before age 65.
Normal Form of Annuity	A monthly annuity for life. A participant with an eligible spouse may elect a joint and survivor option under which he receives 90% of his regular retirement benefit for his lifetime with 55% of such reduced benefit to be continued to his surviving spouse for the remainder of the spouse's lifetime. The 90% is increased $\frac{1}{2}$ of 1% for each 12 months that the spouse's age exceeds the participant's age (maximum of 100%). The 90% is similarly reduced for each year that the spouse is younger than the member. Benefits to beneficiaries are reduced for any month in which beneficiary is entitled to transition or bridge survivor benefits under a Company-provided plan.
Optional Payment Forms	Life annuity, 10-year certain and life annuity, 75% and 55% contingent annuities, and lump sums under \$1,000.
Death Benefits	The surviving spouse of an active participant eligible for vested benefits but dying before retirement will receive a lifetime benefit of 55% of the benefit the participant would have received if he had retired on the day before his death and had elected the joint and survivor option. This benefit is also available to terminated vested employees. If the participant dies before early retirement, benefits to the surviving spouse are deferred until the date at which the participant would have been able to elect earliest retirement.
Definitions Plan Year	October 1 to September 30.
Actuarial Equivalence	7% interest, 1971 Group Annuity Table, 80% male/20% female weighting of annuity values. Effective January 1, 2008, the applicable mortality table and applicable interest rate for the month of August that precedes the Plan Year defined under Code section 417(e)(3) is used for lump sum distributions.

Credited Service

Credited Service is used to determine the amount of benefits.

Service before October 1, 1978. Computed under the provisions of the plan as in effect on September 30, 1978.

Service after October 1, 1978. Excludes any period prior to becoming a participant, any inactive period, and any approved absence period. A full year of Credited Service is given for 1,800 hours of service. A partial year is granted if at least 200 hours are worked.

Vesting Service

Vesting Service is used to determine eligibility for benefits. It is any period of employment completed by a participant counting each Plan Year during which he completes at least 1,000 hours of service. A partial year of Vesting Service is granted if at least 200 hours are worked. Vesting Service is subject to the Break In Service rules of the Plan.

Transferred Employees
Transferred Out

A participant transferred to employment status not covered by this Plan continues to accrue Vesting Service for purposes of eligibility (but not Credited Service) after his transfer. His benefit amount under this Plan will be based on his Credited Service at time of transfer and on the plan provisions in effect on such date.

Transferred In

An employee who becomes a participant upon transfer to employment status covered by this Plan is credited with his Vesting Service for all his employment with the Company before and after such transfer. His Credited Service will include his Credited Service under the plan of which he was a participant at the time of transfer but his benefit under this Plan shall be reduced by any other pension based on such pre-transfer Credited Service. However, his benefit under this Plan will not be less than the benefit based solely on his Credited Service accrued under this Plan.

Schedule SB, Part V—Summary of Plan Provisions

History of the Plan

The Robbins & Myers, Inc. Pension Plan for Hourly Employees was established effective October 1, 1956, covering employees in the bargaining unit for which the May 6, 1957, pension agreement with the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America and its Local No. 902 was executed. Effective July 2, 1968, a group of plant clerical employees were transferred to coverage under this Plan.

The Plan has been amended periodically to provide additional types of benefits, to liberalize eligibility requirements for benefits, and to increase benefit rates. Effective October 1, 1976, the Plan was amended and restated in its entirety to comply with the provisions under ERISA. The following history indicates the effect of the various amendments on the benefits provided under the Plan.

As originally established, the Plan provided normal retirement benefits for employees who attained age 65 with at least ten years of Credited Service. Effective October 1, 1976, the service requirement was eliminated. Deferral of retirement with benefits accrued to actual retirement was permitted. Effective January 1, 1979, the maximum retirement age was increased from 68 to 70.

Early retirement benefits were payable after age 60 with at least ten years of Credited Service. The accrued normal retirement benefit was payable beginning at age 65 with earlier commencement of actuarially reduced benefits allowed. Effective October 1, 1968, the reduction for early commencement was liberalized to ½% for each month by which benefit payments began before age 65. In 1971 the reduction was eliminated for employees retiring after 62 with at least 30 years of Credited Service. The age requirement for unreduced benefits was decreased to age 60 on October 1, 1976, and to age 58 on February 1, 1979, when the minimum age for early retirement was also lowered to age 58. Employees retiring early on or after February 1, 1979, with unreduced benefits became eligible for an additional monthly benefit of \$150 payable to age 62.

The original eligibility requirement for a vested benefit on termination of employment was age 40 and 15 years of Credited Service. Effective October 1, 1968, the age requirement was eliminated and the service requirement was reduced to ten years of Credited Service. Effective October 1, 1976, the service requirement was liberalized to be ten years of Vesting Service and election of early commencement of the benefits was allowed, subject to the early retirement reduction.

The eligibility requirement for disability retirement was originally age 50 and 15 years of Credited Service. Effective October 1, 1965, the age requirement was eliminated and the service requirement reduced to ten years of Vesting Service.

Employees retiring with benefits beginning on or after October 1, 1968, were permitted to elect a survivor income option which provides a survivor benefit for the spouse of the employees. This option could be elected on normal, early or late retirement. Employees on disability retirement were permitted the election upon attaining age 60. Under this option, if the employee and his spouse are the same age, the employee's benefit becomes 90% of the benefit he would otherwise have received. The 90% is subject to adjustment if the ages of the employee and spouse are different. On the death of the employee the spouse receives a lifetime benefit of 55% of the benefit the employee received at time of retirement, subject to reduction for transition and bridge survivor income benefits under a group insurance program of the Company.

Effective October 1, 1969, an automatic survivor's benefit was added to the Plan. Under this provision the surviving spouse of an active employee dying before retirement but after becoming eligible for early retirement is entitled to a benefit for life equal to the amount the spouse would have received if the employee had elected the survivor income option and retired the day before his death.

A participant's normal retirement benefit under the Plan is equal to the product of his Credited Service and the benefit accrual rate in effect when he retires or terminates. The schedule on page PP-5 indicates the normal retirement benefit accrual rates which were applicable at retirement for participants retiring or terminating after the indicated dates. The schedule also shows the effects of amendments which increased benefits for participants who had previously retired as normal, early, late or disability retirements. Benefits for beneficiaries of retired participants were not affected by the increases, remaining fixed at the amount established at the time of retirement. Benefits for vested terminated participants were not affected by increases effective in the period prior to their actual retirement. There have been four types of increases for the retired participants. In 1965 and 1968, the changes increased the benefit accrual rates for previously retired participants to the level effective for new retirees. The 1971, 1972, 1974, 1975, and 1981, changes increased the benefit rate for each year of Credited Service by flat amounts of 50, 25, 50, 50, and 25 cents respectively. The 1979 change increased the benefits for retired participants by 3.5%. The 1993 change increased the benefits for retired participants between \$20 and \$50 per month, depending on the year the participant retired.

Effective February 1, 1981, the additional monthly benefit payable until age 62 to early retirees was increased from \$150 to \$175.

Effective October 1, 1985, the plan was amended to comply with the Retirement Equity Act. The eligibility for a surviving spouse death benefit was expanded to include all active vested employees, and, at employee expense, all terminated vested employees who do not elect out of the coverage.

Effective February 1, 1986, the additional monthly benefit payable until age 62 to early retirees was increased from \$175 to \$200.

Effective February 1, 1988, the additional monthly benefit payable until age 62 to early retirees was increased from \$200 to \$300. In addition, the age requirement for unreduced benefits was lowered to age 56 with 30 years of service.

Effective February 1, 1989, the age requirement for unreduced benefits was lowered from age 56 and 30 years of service to age 55 and 30 years of service.

Effective October 1, 1989, the eligibility requirement for a deferred vested benefit was amended to provide full vesting after five years of service. The amended eligibility also pertains to the automatic preretirement surviving spouse annuity.

Effective February 1, 1990, the additional monthly benefit payable until age 62 to early retirees was increased from \$300 to \$400.

Effective February 1, 1993, the requirement for unreduced benefits was lowered from age 55 and 30 years of service to 30 years of service, regardless of age. The additional monthly benefit payable until age 62 to early retirees was increased from \$400 to \$450.

Effective March 1, 1993, the monthly benefits for the retirees and beneficiaries (retired on or before February 28, 1993) in R&M Hourly (Plan 1) were increased in accordance with the following schedule based on years since retirement:

Effective February 1, 1996, the additional monthly benefit payable until age 62 to early retirees was increased from \$450 to \$500.

Effective April 8, 1999, the additional monthly benefit payable until age 62 to early retirees was increased from \$500 to \$600.

Effective September 1, 2001, the additional monthly benefit payable until age 62 to early retirees was increased from \$600 to \$750.

Effective February 14, 2005, the additional monthly benefit payable until age 62 to early retirees was increased from \$750 to \$1,000.

The trustee for the Plan is JP Morgan Chase.

EIN: 31-0424220 PN: 001

Effective Date	October 1, 1956. Amended and restated effective October 1, 2010.
Coverage	All hourly employees in the bargaining unit for which the pension agreement as of May 6, 1957, with the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America and its Local No. 902 was executed. The plan was closed to new hires as of February 1, 2008.
Retirement Age	
Normal	Age 65 and five years of Vesting Service.
Early	Age 55 and 10 years of Vesting Service or 30 years of Vesting Service.
Disability	Ten years of Vesting Service.
Deferred Vested	Five years of Vesting Service.
Amount of Retirement Benefit	
Normal	A participant's monthly benefit is equal to Credited Service multiplied by a benefit accrual rate which is dependent on his date of retirement. The current monthly benefit for each year of Credited Service is \$37.00.
Early	Benefit computed as for normal retirement but based on Credited Service at early retirement and the benefit accrual rate then in effect payable beginning at age 65. Benefit is reduced $\frac{1}{2}$ of 1% for each month by which the benefit commencement date precedes age 65 except that no reduction is applied if retirement occurs after 30 years of Credited Service. An additional monthly benefit of \$1,000 is payable until age 62 to employees retiring with unreduced benefits.
Late	Benefit computed as for normal retirement but based on Credited Service at actual retirement and the benefit accrual rate then in effect.
Disability	Benefit computed as for normal retirement but based on Vesting Service at disability and the benefit accrual rate then in effect payable beginning six months after disability onset.

Schedule SB Attachment (Form 5500)—2011 Plan Year

EIN: 31-0424220 PN: 001

Deferred Vested	Accrued normal retirement benefit based on Credited Service at date of termination and the benefit accrual rate then in effect payable at age 65. Benefit is reduced $\frac{1}{2}$ of 1% for each month by which benefit payments begin before age 65.
Normal Form of Annuity	A monthly annuity for life. A participant with an eligible spouse may elect a joint and survivor option under which he receives 90% of his regular retirement benefit for his lifetime with 55% of such reduced benefit to be continued to his surviving spouse for the remainder of the spouse's lifetime. The 90% is increased $\frac{1}{2}$ of 1% for each 12 months that the spouse's age exceeds the participant's age (maximum of 100%). The 90% is similarly reduced for each year that the spouse is younger than the member. Benefits to beneficiaries are reduced for any month in which beneficiary is entitled to transition or bridge survivor benefits under a Company-provided plan.
Optional Payment Forms	Life annuity, 10-year certain and life annuity, 75% and 55% contingent annuities, and lump sums under \$1,000.
Death Benefits	The surviving spouse of an active participant eligible for vested benefits but dying before retirement will receive a lifetime benefit of 55% of the benefit the participant would have received if he had retired on the day before his death and had elected the joint and survivor option. This benefit is also available to terminated vested employees. If the participant dies before early retirement, benefits to the surviving spouse are deferred until the date at which the participant would have been able to elect earliest retirement.
Definitions	
Plan Year	October 1 to September 30.
Actuarial Equivalence	7% interest, 1971 Group Annuity Table, 80% male/20% female weighting of annuity values. Effective January 1, 2008, the applicable mortality table and applicable interest rate for the month of August that precedes the Plan Year defined under Code section 417(e)(3) is used for lump sum distributions.

Credited Service

Credited Service is used to determine the amount of benefits.

Service before October 1, 1978. Computed under the provisions of the plan as in effect on September 30, 1978.

Service after October 1, 1978. Excludes any period prior to becoming a participant, any inactive period, and any approved absence period. A full year of Credited Service is given for 1,800 hours of service. A partial year is granted if at least 200 hours are worked.

Vesting Service

Vesting Service is used to determine eligibility for benefits. It is any period of employment completed by a participant counting each Plan Year during which he completes at least 1,000 hours of service. A partial year of Vesting Service is granted if at least 200 hours are worked. Vesting Service is subject to the Break In Service rules of the Plan.

Transferred Employees
Transferred Out

A participant transferred to employment status not covered by this Plan continues to accrue Vesting Service for purposes of eligibility (but not Credited Service) after his transfer. His benefit amount under this Plan will be based on his Credited Service at time of transfer and on the plan provisions in effect on such date.

Transferred In

An employee who becomes a participant upon transfer to employment status covered by this Plan is credited with his Vesting Service for all his employment with the Company before and after such transfer. His Credited Service will include his Credited Service under the plan of which he was a participant at the time of transfer but his benefit under this Plan shall be reduced by any other pension based on such pre-transfer Credited Service. However, his benefit under this Plan will not be less than the benefit based solely on his Credited Service accrued under this Plan.
