NOTES TO FINANCIAL STATEMENTS

December 31, 2012

Note 1. Plan Description

The following description of the Meridium, Inc. Employees' Profit Sharing and 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all eligible employees of Meridium, Inc. who have completed one month of service, are age 21 or older, and are not non-resident aliens. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Each year participants may contribute any amount or percentage of compensation in excess of 1% up to the maximum allowable under *Internal Revenue Code*, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans. The Company may elect to make a matching contribution to the Plan and may also make an additional discretionary contribution to the Plan. In 2012, the Company made a profit sharing contribution of \$200,000. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant accounts:

Each participant's account is credited with the participant's deferral and rollover contributions, the Company's contributions and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes from participants:

Participants may borrow from their account a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. Participants are granted one loan during any one-year period and are allowed one outstanding loan at a time. Loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 8.00%.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Payment of benefits:

Upon termination of service for any reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments not exceeding the life of the participant.

Forfeited accounts:

Forfeited amounts are available to reduce Plan expenses. Any forfeitures remaining after paying Plan expenses are reallocated to participants. At December 31, 2012 and 2011, there were no forfeited non-vested accounts. During 2012, a total of \$8,388 was used to pay Plan expenses.

Administrative costs:

Administrative expenses incurred by the Plan may be paid by either the Company or the Plan on a discretionary basis.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by authoritative guidance, the statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

MERIDIUM, INC.
EMPLOYEES' PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2012

Note 2. Significant Accounting Policies (Continued)

Valuation of investments and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes from participants:

Notes from participants are reported at their unpaid principal balance plus any accrued but unpaid interest.

Benefit payments:

Benefits are recorded when paid.

Note 3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

EMPLOYEES' PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2012

Note 3. Fair Value Measurements (Continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

NOTES TO FINANCIAL STATEMENTS
December 31, 2012

Note 3. Fair Value Measurements (Continued)

Level 2 Fair Value Measurements

The fair values of pooled separate accounts are based on inputs that are observable for valuing the asset or liability, either directly or indirectly (i.e., interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). The fair value of the common collective fund is based on the market value of its underlying investments and contains synthetic investment contracts comprised of both underlying investments and contractual components. Observable inputs for both the common collective fund and pooled separate accounts include quoted prices for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

The pooled separate accounts and common collective fund invest in securities that have observable Level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. While underlying assets values are publicly quoted prices, the net asset value (NAV) of a unit in a pooled separate account or common collective fund is not publicly quoted. Units can be issued or redeemed on any business day at the NAV. All earnings and gains and losses are reflected in the computation of the NAV and are realized by the participants upon withdrawal.

Note 4. Investments

The following investments at December 31, 2012 and 2011 represent 5% or more of the Plan's net assets:

Note 4. Investments (Continued)

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	\$ 461,661
Fair value otherwise determined	
Pooled separate accounts	561,098
Common collective funds	<u>13,048</u>
	<u><u>\$ 1,035,807</u></u>

Note 5. Investment Contracts with Insurance Company

Participants may invest in Principal Life Insurance Company's stable value fund. Included in this fund are certain wrapper contracts. These contracts are considered to be benefit responsive and are required to be stated at fair value with a corresponding adjustment on the statements of net assets available for benefits to contract value. The average yield for the stable value fund for 2012 and 2011 was approximately 1.87% and 1.77%, respectively. The yield earned by the fund with an adjustment to reflect the actual interest rate credited to participants at December 31, 2012 was 1.64%. The percentage of contributions allocated to each fund is determined by the participants.

Note 6. Related Party Transactions

Certain administrative functions are performed by officers or employees of the Company. These employees are also Plan participants. No such officer or employee receives compensation from the Plan.

Plan participants direct their investments in funds issued and managed by the Plan Custodians. Investments in funds issued by the Custodians are considered related party transactions. Plan assets were invested in pooled separate accounts, a common collective fund, and mutual funds managed by Principal Life Insurance Company. Fees paid to the Custodians for administrative services amounted to \$25,154 for 2012.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTES TO FINANCIAL STATEMENTS

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related Trust are designed in accordance with applicable sections of the *Internal Revenue Code (IRC)*. The Plan was amended and restated effective January 18, 2010 to an approved prototype plan sponsored by Principal Life Insurance Company. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the *IRC*.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The federal annual returns are subject to examination by the Internal Revenue Service, generally for three years after they are filed.

Note 9. Certification

Certain information was certified as complete and accurate by the Plan's Custodians. That information is as follows:

- Investment assets
- Investment transactions
- Investment income
- Schedule of Assets (Held at End of Year)

Note 11. Other Matters

During the year, a hardship withdrawal was processed that did not meet the “immediate and heavy financial need” requirement. Upon discovery of the error, the Plan determined the amount, including interest, should be returned to the Plan. Subsequent to year end, the Plan filed an application for a correction under the Voluntary Correction Program. This amount is shown as a receivable in the Statements of Net Assets Available for Benefits.

Note 12. Subsequent Events

Effective January 1, 2013, the Plan was amended to modify the definition of compensation used for the allocation of the Company’s discretionary contributions. These contributions will be allocated based on participants’ base salary, with no adjustments for commission and bonuses.

Evaluation of subsequent events was considered through July 15, 2013 the date the financial statements were available to be issued.
