THE BRIAR TEAM, LLC 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

1 DESCRIPTION OF PLAN

The Briar Team, LLC 401(k) Profit Sharing Plan (the "Plan") is organized as a defined contribution plan under Section 401(k) of the Internal Revenue Code and covers substantially all eligible employees of The Briar Team, LLC (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is administered by a custodian appointed by the Board of Directors of the Company. The Plan was established effective October 1, 1981 and last amended effective August 20, 2009. The Plan's sponsor, formerly The Briar Corporation, changed ownership effective January 1, 2009. The original shareholder and other key members of management of The Briar Corporation repurchased the assets and contracts from Infrastructure Holdings and formed The Briar Team, LLC. The change in name and new employer identification number were filed with the custodian on February 3, 2009.

Eligibility

Employees who have attained age 18 and completed at least six months of service are eligible to participate in the Plan.

Contributions

Each year, participants may contribute a percentage of their pre-tax earnings, as defined in the Plan, up to an annual maximum of $17,000 and $16,500 for the plan years 2012 and 2011, respectively. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching contributions of up to 4% of annual compensation or discretionary contributions that are determined annually.

Investment options

Upon enrollment in the Plan, a participant may direct employee and employer contributions into a variety of investment options. Participants may change their investment options at their discretion.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms may not exceed five years, unless used to acquire the principal residence of the participant. The loans are secured by the balance in the participant's account and bear interest at 9.25%. Principal and interest are payable through bi-weekly payroll deductions. The number of outstanding loans for a participant is limited to five.

If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded within the financial statements. As of December 31, 2012, a participant loan totaling $12,048 was deemed to have been in default.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is determined under the following schedule:

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant will also be 100% vested under any of the following circumstances:

- Death before retirement date;
- Disability before retirement date; or
- Attainment of normal retirement age.

In addition, a participant is immediately 100% vested in any amount which has been transferred or rolled over into the Plan from another qualified employee benefit plan.

In the event a participant's employment is terminated for reasons other than retirement, disability or death, such participant is entitled to a termination of employment benefit in an amount equal to his vested interest as of the date of benefit distribution.

Forfeitures

The nonvested portion of a participant's account is forfeited upon termination of employment with the Company. Forfeitures remain in the Plan for the benefit of other participants and are allocated in the same manner as the employer's contribution. There were no allocated or unallocated forfeitures as of December 31, 2012.

Distributions

Distributions of vested account balances are eligible to be made within a reasonable time after the occurrence of one of the following events:

- Normal retirement (the date on which a participant attains the age of 65 years);
- Termination of employment;
- Death or disability; or
- Termination of the Plan.

At the financial statement date, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements are presented on the accrual basis of accounting. The following is a summary of the more significant accounting principles and practices used in the preparation of the accompanying financial statements.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments

Plan assets are held in a trust. The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of pooled separate accounts are valued at the net asset value of shares held by the Plan at year end. Guaranteed interest contracts are valued at their approximate market value if the funds were to be withdrawn prior to their maturity for the units held by the Plan at year end.

Payment of benefits

Benefits are recorded when paid.

Plan expenses

The assets of the Plan are used to pay all expenses of the administration of the Plan. Any costs associated with the investment of a participant's account are charged to the respective account.

Income taxes

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

3 INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodian, Principal Life Insurance Company, as of December 31, 2012 and 2011:

	2012	2011
Investments at fair value:		
Pooled separate accounts	$ 2,096,616	$ 3,041,760
Common/collective trusts	987,282	-
Guaranteed interest accounts	153,764	197,298
Receivables:		
Notes receivable from participants	179,603	239,046

The custodian certification also applies to investment transactions and income for the years ended December 31, 2012 and 2011 and the supplemental schedule of assets held as of December 31, 2012.

Additions to net assets for 2012 and 2011 are as follows:

	2012	2011
Interest income	$ 21,121	$ 31,338
Employee contributions	45,287	73,940
Other income	-	3,637
Net investment gain in fair value:		
Pooled separate accounts	288,329	22,045
Common/collective trusts	34,609	-
Guaranteed interests accounts	4,627	-

Deductions from net assets for 2012 and 2011 are as follows:

	2012	2011
Benefit payments	$ 454,615	$ 672,281
Administrative fees and expenses	12,245	16,261

As of December 31, 2012, investments representing 5% or more of the net assets available for benefits include the following: Principal Stable Value Fund, Principal Large Cap Stock Index, Principal Lifetime 2020, Principal Medium Company Blend, Principal Small Cap Company, and Principal International Stock.

As of December 31, 2011, investments representing 5% or more of the net assets available for benefits include the following: Principal Money Market, Principal Large Cap Stock Index, Principal Medium Company Blend, Principal Small Company, Principal Guaranteed Interest Accounts, and Principal International Stock.

4 PARTY-IN-INTEREST TRANSACTIONS

Principal Life Insurance Company (“Principal”) is the custodian of the Plan’s assets as defined by the Plan and, therefore, any transactions with Principal qualify as party-in-interest transactions. As of December 31, 2012 and 2011, $3,237,662 and $3,239,058, respectively, of the Plan’s net assets available for benefits were invested in funds under control of the Plan custodian.

During the years ended December 31, 2012 and 2011, $12,245 and $16,261, respectively, was paid to Principal from Plan assets for administrative fees.

5 GUARANTEED-INTEREST INVESTMENT CONTRACTS

The Plan has entered into certain guaranteed-interest investment contracts with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and

administrative expenses. The contract is included in the financial statements at fair market value as reported to the Plan by Principal. Fair market value represents the approximate value paid when funds are withdrawn prior to their maturity. There is provision for a penalty for early withdrawal of funds from these contracts. There are no reserves against fair market value for credit risk of the contract issuer or otherwise.

6 FAIR VALUE MEASUREMENTS

The fair value topic of the FASB Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the FASB Accounting Standards Codification are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

a) Quoted prices for similar assets or liabilities in active markets.
b) Quoted prices for identical or similar assets or liabilities in inactive markets.
c) Inputs other than quoted prices that are observable for the asset or liability.
d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2012 and 2011.

Pooled Separate Accounts: The majority of the underlying securities within the pooled separate accounts have observable level 1 or 2 pricing inputs; however, the net asset value ("NAV") of the separate account is not publicly quoted.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Guaranteed investment contract: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see note 5). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Fair Value Measurements as of December 31, 2012

Net assets available for benefits per the Federal Form 5500	$ 3,417,265

8 PARTIAL PLAN TERMINATION

The Plan experienced a significant reduction in participation due to economic conditions and reduction of workforce in 2011. A partial plan termination occurred due to an employer-initiated severance of 20% or more of the Plan's participating employees. As a result, all participants who terminated from the Plan during 2011 became 100% vested. The Plan did not experience any partial plan terminations in 2012.

9 SUBSEQUENT EVENTS

Accounting guidance requires the disclosure of the date through which the Plan has evaluated subsequent events and the basis for that date (that is, whether that date represents the date the financial statements were issued or were available to be issued). The Plan has evaluated subsequent events through July 15, 2013, which is the date the financial statements were available to be issued.
