NOTE 1 — DESCRIPTION OF PLAN

The following description of the Silhouette Optical, Ltd. Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Silhouette Optical, Ltd. (the "Company") who have completed six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and other applicable sections of the Internal Revenue Code.

Contributions

Each year, participants may contribute from 2% to 75% (not to exceed dollar limits set by law) of pretax annual compensation, as defined in the Plan. The Company matches 100% of the first 3% of participant contributions and 50% of the next 2% of participant contributions. An employer discretionary contribution amount may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations. There were no discretionary contributions made during 2012 or 2011.

Participants may also contribute amounts representing distributions from other qualified plans. These contributions do not qualify for the Company match.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Effective January 1, 2007, employer matching and discretionary contributions are fully vested (100%) when such contributions are made.

Prior to January 1, 2007, a participant was 100% vested after four years of credited service, upon attainment of normal retirement age, death, total disability or termination of the Plan. The previous vesting schedule was as follows:

Years of Service	Percent Vested
Less than 1 year	0%
1 full year	25%
2 full years	50%
3 full years	75%
4 full years	100%

This vesting schedule remains in effect for all Plan contributions made prior to January 1, 2007.

NOTE 1 — DESCRIPTION OF PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Forfeitures

Forfeitures are used to reduce employer contributions. For the year ended December 31, 2012 there was $808 in unallocated forfeitures which were used to reduce employer contributions. For the year ended December 31, 2011 there was $7,733 in unallocated forfeitures which were used to reduce employer contributions.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. Participant loans are secured by the remaining balance in the participant's account and bear interest at local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Employment Termination

Upon termination of service, benefits are paid in the form of a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants, pursuant to the qualifications set forth in the Plan agreement, may elect to have their benefits paid in installments over 10, 15 or 20 years.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Valuation

Generally accepted accounting principles for Fair Value Measurements and Disclosures, provides the framework for measuring the fair value of investments and expands investment related disclosures. In this regard, fair value is defined as the price that would be received for an asset or

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation (Continued)

paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The following describes the three levels of inputs that may be used to measure fair value:

Level 1 – quoted prices in active markets for identical assets and liabilities;

Level 2 – observable inputs other than quoted market prices in active markets for identical assets and liabilities; and

Level 3 – unobservable inputs in which there is little or no market data available, which require the reporting entity to develop its own assumptions.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value.

Mutual Funds and Investment Contract Funds

Valued at the net asset value (NAV) of shares held by the Plan at year end.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

Administrative expenses related to trustee fees are allocated and charged directly to Plan participant accounts. Other expenses of maintaining the Plan are paid by the Company.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through June 24, 2013, the date the financial statements were available to be issued.

NOTE 3 — TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan is qualified under the appropriate sections of the Internal Revenue Code. The Company is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a tax liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2009.

NOTE 4 — INVESTMENTS

The following table represents investments that represent 5% or more of net assets available for Plan benefits at December 31, 2012 and 2011:

The following table represents net appreciation (depreciation) in investments by category at December 31, 2012 and 2011:

	2012	2011
Mutual funds	$1,036,447	$ (464,062)
Investment contract fund	41,360	45,423
	$1,077,807	$ (418,639)

NOTE 5 — PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE 6 — PNC BANK, N.A. CERTIFICATION

The Company is a party to a trust agreement with PNC Bank, N.A. for the holding and administration of the Plan assets. All information summarized in the financial statements and schedule relating to investments of the Plan for the years ended December 31, 2012 and 2011, including interest and dividend income, net appreciation (depreciation) in fair value of investments, notes receivable from participants and investments held as of December 31, 2012 and 2011 was certified by the trustee of the Plan as being a complete and accurate reflection of the books and records of the Plan.

NOTE 7 — INVESTMENT CONTRACT WITH INVESTMENT COMPANY

The Plan has a benefit-responsive investment contract with PNC Bank, N.A. ("PNC") known as PNC Investment Contract Y. PNC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported by PNC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their contract at contract value.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the investment contract.

The existence of certain conditions can limit the ability of the Plan to transact at contract value with the issuer of the investment contract. At December 31, 2012, under normal conditions, it is expected that issuer has adequate liquid assets, in the form of short-term investments, to satisfy the redemption of an interest holder's units without the need to access investment contracts.

Units are issued and redeemed daily based on the net asset value of the investment contract, which are determined daily. Unit holders have agreed to the payment of redemption over a period of up to twelve months under certain circumstances. Net investment income is reinvested.

NOTE 8 — RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

NOTE 9 — FAIR VALUE OF FINANCIAL INSTRUMENTS

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as reported in the Statement of Assets Available for Plan Benefits as of December 31, 2012 and 2011:

	December 31, 2012
