The Company will make a safe harbor matching contribution equal to 100 percent of the participant deferral up to 6 percent of the participant compensation. An employee deferral account, safe harbor matching account, employer profit sharing account, rollover account and loan account are maintained for each participant. Each participant's account is credited on the date the contribution is paid to the Asset Custodian. Participants may direct the investments in their accounts among alternative investment funds provided by the Plan.

1. Description of Plan (Continued):

Forfeitures

Upon termination of employment, participants forfeit their non-vested balances. Any forfeiture amounts can be applied first in payment of plan expenses any remaining to be used to reduce any future company contributions. Participants are fully vested in all contributions thus no forfeitures.

If the Company does not pay Plan fees, such fees will generally be allocated to the accounts of participants either proportionally based on the value of account balances or as an equal dollar amount based on the number of participants in the Plan. Certain fees may be paid from Plan forfeitures if available.

1. Description of Plan (Continued):

Third party administration fees	$ 13,882
Total administrative expenses	$ 13,882

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue the contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. Upon termination of the Plan, the Trust shall continue until all benefits have been distributed under the Plan.

2. Summary of Accounting Policies and Use of Estimates:

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Participant Loans Notes Receivable

Participant loans notes receivable represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2011 and 2010. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and benefit payment is recorded.

Plan Investments

In September 2006, the Financial Accounting Standards Board (FASB) issued guidance related to *Fair Value Measurements*, which defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements. The Plan adopted the guidance which defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

2. Summary of Accounting Policies and Use of Estimates (Continued):

Plan Investments (Continued)

Effective for Plan years beginning after December 15, 2009, the guidance was amended to require disclosure of fair value measurements for each class of assets and liabilities and disclose transfers in and out of Levels 1 and 2 (as defined below). The Plan adopted this amended guidance January 1, 2010.

The standard establishes a framework which provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The levels of the hierarchy are as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical investments available in active markets the Plan has the ability to access as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the investment and the reporting entity makes estimates and assumptions related to the pricing of the investment including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy (See Note 4).

Mutual funds – Valued at the new asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Money market – Use of amortized cost to the extent that periodic mark-to-market calculations indicate that the use of amortized cost approximate market value and classified within Level 2 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

2. Summary of Accounting Policies and Use of Estimates (Continued):

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

As applicable, estimates and assumptions are used in preparing financial statements in accordance with U.S. generally accepted accounting principles. Such estimates and assumptions can affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

Date of Management's Review

Management has evaluated subsequent events through the date of the auditor's report, which is the date the financial statements were available to be issued.

3. Credit Risk:

The Plan invests in various investment types. All investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible changes in the values of investments will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits (see Note 10).

4. Fair Value Measurements:

The Plan's financial instruments carried at fair value, by level (see Note 2), are as follows as of December 31:

6. Information Certified by the Asset Custodians:

The Asset Custodians hold the funds of the Plan and executes transactions.

As required by 29 CFR 2520.103-5 of the Department of Labor Rules and Regulations for Reporting under ERISA, the Asset Custodian provided certification to the plan sponsor regarding the accuracy and completeness of certain information, including investment balances, investment returns, investment transactions and contributions from participants as of and for the years ended December 31, 2011 and 2010.

7. Tax Exempt Status of the Plan and Related Trust

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effect of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Parties in Interest:

The Plan invests in certain accounts managed by MG Trust Company, LLC (Asset Custodian). Administrative expenses paid to the Asset Custodian are included in the accompanying financial statements.

Certain employees and officers of the Company, who may be participants in the Plan; perform administrative services to the Plan at no cost to the Plan.

9. Reclassification:

Certain amounts in the 2010 financial statements have been reclassified to conform to the 2011 presentation.

10. Subsequent Events:

Change in Market Value

Subsequent to year end, the credit and liquidity crisis in the United States and throughout the global financial system has resulted in substantial volatility in financial markets and the banking system. These and other economic events have had significant impact on investment portfolios.
