Springfield Electric Supply Company
401(k) Profit Sharing Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

NOTE A - DESCRIPTION OF PLAN

The following description of the Springfield Electric Supply Company 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution 401(k) profit sharing plan covering substantially all employees of the Company and its subsidiary, Ronk Electrical Industries, Inc., who have one year of service and are of age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and is administered by the Trustee Committee consisting of persons appointed by the Board of Directors of the Company. The Charles Schwab Trust Company, as custodian for the Plan, accumulates and invests contributions as directed by the participants.

2. Contributions

Participants may contribute from 1% to 75% of their pretax annual compensation, subject to ERISA defined limits. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes a discretionary match of 50% of the employee's first 6% of contributions. The Company determines the discretionary matching contribution on a yearly basis that is uniform for all participants. The Company may also make discretionary profit sharing contributions which are allocated among all eligible employees, regardless of their contribution election.

3. Participant Accounts

Each participant's account is credited with the participant's contributions and charged with withdrawals, as applicable, and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their contributions plus or minus any earnings or losses thereon. The Company's matching and discretionary contribution portion of participants' accounts, plus or minus any actual earnings or losses thereon, vests at 100% after three years of employment.

NOTE A - DESCRIPTION OF PLAN - Continued

5. Participant Loans

Participant loans are not allowed under this Plan.

6. Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or in installment or partial payments of at least $ 1,000 per payment. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

7. Forfeited Accounts

There were no forfeited nonvested accounts at December 31, 2012 and 2011. Forfeited accounts are to be used to reduce future employer contributions.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

1. Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by accounting standards, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment, if necessary, of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. Because the contract has no stated maturity, the fair value of the contract is the amount payable on demand at the reporting date. Accordingly, the contract value is also the fair value.

NOTE B - SUMMARY OF ACCOUNTING POLICIES - Continued

2. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note G for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

4. Benefits Payable

Benefits are recorded when paid.

5. Subsequent Events

The Plan management has evaluated subsequent events for recognition and disclosure in the financial statements through July 15, 2013, which is the date the financial statements were available to be issued. Through July 15, 2013, there were no subsequent events that required recognition or disclosure in the financial statements.

NOTE C - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE D - TAX STATUS

The Plan is intended to be qualified under Section 401(a) and tax exempt under Section 501(a) of the Internal Revenue Code. The Plan is a volume submitter plan and obtained its last approval letter, dated October 5, 2001, in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code. The Plan Sponsor believes the Plan is designed and is currently being operated in compliance with applicable requirements of the Internal Revenue Code and that the related trust is tax-exempt at the financial statement date.

The Plan has recognized in the financial statements the effects of all tax positions and continually evaluates expiring statutes of limitations, audits, changes in tax law, and new authoritative rulings. The Plan is not aware of any circumstances or events that make it reasonably possible that unrecognized tax benefits may increase or decrease within 12 months of the statement of net assets available for benefits date. Penalties and interest assessed by taxing authorities are included in administrative expenses, if applicable. There were no interest and penalties during 2012 and 2011.

The Plan files a Form 5500 return in the federal jurisdiction. The federal information returns prior to 2009 are closed.

NOTE E - BENEFITS PAYABLE

No participants had a pending request for withdrawal of their account balances at December 31, 2012 and 2011, respectively.

NOTE G - FAIR VALUE MEASUREMENTS

The Plan follows the fair value measurement guidance for financial assets and financial liabilities. The guidance defines fair value, establishes a framework for measuring value and expands disclosure about fair value measurements. In addition, the guidance permits an entity to measure eligible financial instruments and other items at fair value. The Plan has not made any fair value elections.

NOTE G - FAIR VALUE MEASUREMENTS - Continued

Fair value is defined to be the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-level hierarchy has been established for fair value measurements based upon the inputs to the valuation of an asset or liability as follows:

Level 1 – Valuation is based on quoted prices for identical assets and liabilities in active markets.

Level 2 – Valuation is derived from inputs, other than quoted prices included in Level 1, which are observable for the asset or liability either directly or indirectly. Investments classified as Level 2 are generally valued by benchmarking model-derived prices to quoted market prices and trade data for identical or comparable securities. The significant inputs used in this approach include interest rates, prepayment timing, yield spreads, maturities, credit losses and credit ratings of the securities.

Level 3 – Valuation is derived from unobservable inputs that are not corroborated by market data.

Fair values of mutual funds have been determined by the Plan from observable market quotations as provided by the Plan's custodian bank, when available. Fair values of collective trust funds have been determined using other observable inputs as provided by the Plan's custodian bank.

NOTE H - INVESTMENTS IN ENTITY THAT CALCULATES NET ASSET VALUE PER SHARE

As part of the Plan's investment portfolio, there are investments made in collective trust funds, in which purchases and withdrawals are not made in an open market. Instead, the purchases and withdrawals occur with the fund, and in certain circumstances, those transactions are entirely controlled and/or restricted by the fund. The fair value of this investment is determined by the management of the fund and is reported to the Plan as the Plan's proportionate share of the net asset fair value of the entity. The table below provides information relative to this type of investment. The additional information that follows the table provides information associated with this investment and whether the investment is probable of being sold at an amount different from net asset value per share.

The Wells Fargo Stable Value Fund seeks to maintain principal value, protect against market price volatility, obtain consistent income return, and provide liquidity for benefit payments and withdrawals. The Retirement Advocate Funds and Schwab Managed Funds have varying levels of risk based on retirement date and invest primarily domestic and international equities, mutual funds, exchange traded funds and other pooled funds. At December 31, 2012 and December 31, 2011, there were no restrictions on withdrawals or redemptions.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
