Notes to Financial Statements

1. Description of Plan

The following description of The Howden North America Inc. 401(k) Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all employees of Howden North America Inc. (the “Employer”), except leased employees. Collective bargaining employees at the New Philadelphia location are also included. An employee is eligible to participate on his or her date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 13, 2012, the Employer was purchased by Colfax Corporation (“Colfax”). The Board of Directors of the Employer voted to terminate and merge the plan into a related qualified 401(k) plan as of December 31, 2012. Accordingly, net assets of The Howden North America Inc. 401(k) Retirement Savings Plan totaling \$33,974,968 were transferred into the Colfax Corporation 401(k) Savings Plan Plus on December 31, 2012.

Contributions

Contributions are equal to the sum of the following:

- a) A participant may elect to contribute from 1 to 50 percent of his or her eligible pretax compensation, as defined by the Plan, not to exceed certain limitations.
- b) Participants who have attained age 50 before year-end may elect to make catch-up contributions.
- c) Non-union participants are allowed to make Roth elective contributions. Participants under a collective bargaining agreement are not permitted to make Roth elective contributions.
- d) Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.
- e) On behalf of non-collective bargaining employees, the Employer contributes a matching contribution to the Plan equal to 100 percent of the participant’s salary deferral contribution up to 6 percent of eligible compensation for each pay period.

On behalf of collective bargaining employees, the Employer contributes a matching contribution to the Plan equal to 100 percent of the participant’s salary deferral contribution up to 2 percent of eligible compensation for each pay period.

- f) The Employer also contributes a discretionary contribution equal to 4 percent of eligible compensation per pay period on behalf of all participants who are collective bargaining employees.

Contributions are subject to certain limitations.

Notes to Financial Statements

Participant Accounts

Each participant's account is credited with the participant's contributions, the Employer matching and discretionary contributions, and an allocation of Plan earnings and expenses thereon. Allocations are based on participant earnings or account balance, as defined. The benefit to which a participant is entitled is the participant's vested account balance. Participant and Employer contributions may be invested in several investment options, as directed by the participant. The Plan currently offers a variety of mutual funds and a common/collective trust as investment options.

Benefit Payments

Upon termination of service, death, disability or retirement (age 65), a participant or the beneficiary may elect to receive the balance of his or her vested account balance in a lump-sum installment or an annuity payment, as provided by the Plan. Upon approval by the Plan administrator, participants may withdraw a portion of their vested account in the event of undue financial hardship in accordance with safe harbor guidelines. For participants who have account balances less than \$1,000 upon the distributable event date, the Employer can automatically distribute the participant's account with a lump-sum payment.

Vesting

Each participant is immediately 100 percent vested in all of his or her participant contributions and Employer contributions, plus actual earnings thereon.

Forfeiture

Forfeited non-vested accounts are used to reduce future matching contributions. For the year ended December 31, 2012, there were no forfeitures used to reduce employer matching contributions. At December 31, 2011 and 2012, there were no forfeited non-vested amounts in the Plan.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Employer. The Plan pays administrative expenses including investment and loan processing fees, as well as certain participant requested services. Administrative expenses totaled \$2,920 for year ended December 31, 2012.

Notes Receivable from Participants

Participants may borrow from their account up to an amount equal to the lesser of \$50,000 or 50 percent of their vested account balance. The minimum loan issuance amount is \$1,000. Only two loans may be outstanding at any given time. Loan terms range from one to five years, with the exception of the purchase of a primary residence. The loans are secured by the balance in the participants' accounts and bear interest at a rate commensurate with local prevailing rates at the time the funds are borrowed. Interest rates ranged from 4.25 to 10.00 percent during 2012. Principal and interest are paid ratably through payroll deductions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, by providing that inputs and measures used to value assets that fall within Level 3 of the valuation hierarchy be quantitatively presented along with enhanced descriptions of the valuation techniques of these assets. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan has adopted ASU 2011-04, which did not have a material impact on the Plan’s financial statements, as all net assets of the Plan were transferred out as of December 31, 2012. See Note 1.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). The Plan’s investment committee determines the Plan’s valuation policies utilizing information provided by investment advisors and Fidelity Management Trust Company. See Note 7 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant loans are classified as notes receivable from participants measured at the unpaid principal balance plus unpaid accrued interest. The Plan classifies all notes receivable from participants with no payments received for 6 months as in default. Defaulted notes receivable from participants are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits. During 2012, \$44,804 was recorded as deemed distributions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The Howden North America Inc. 401(k) Retirement Savings Plan

Notes to Financial Statements

Payment of Benefits

Benefit payments are recorded when paid.

3. Tax Status

The Internal Revenue Service has determined and informed the Employer by a letter dated January 31, 2011, which expires on January 31, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently being designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been recorded.

In accordance with ASC 740, accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

4. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants would remain fully vested in their accounts. As discussed in Note 1, the Plan transferred all net assets to the Colfax Corporation 401(k) Savings Plan Plus on December 31, 2012.

5. Investments

Investments that represent 5 percent or more of the Plan's net assets are separately identified in the following table:

<i>December 31,</i>	2012	2011

6. Investment Information Certified by the Plan's Trustee

The plan administrator has elected the alternative method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, information certified by the Plan's trustee, Fidelity Management Trust Company, as of December 31, 2012 and 2011 and for the year ended December 31, 2012, was not audited, except for comparing such information to the related information included in the accompanying financial statements.

A summary of the Plan's financial information, which has been certified by the Plan's trustee, is presented as follows:

<i>December 31,</i>	2012	2011
Mutual funds	\$ -	\$ 23,953,031
Common/collective trust, fair value	\$ -	\$ 5,324,833
Adjustment from fair value to contract value for fully benefit responsive investment contracts	\$ -	\$ (131,331)
Notes receivable from participants	\$ -	\$ 484,858
<i>Year Ended December 31,</i>	2012	
Net appreciation in fair value of mutual funds	\$ 2,323,619	
Interest on notes receivable from participants	\$ 21,255	
Interest and dividends	\$ 1,017,133	

7. Fair Value Measurements

ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

The Howden North America Inc. 401(k) Retirement Savings Plan

Notes to Financial Statements

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the valuation methodologies used at December 31, 2012 and 2011. Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Mutual funds represent investments with various investment managers. The fair value of these investments are determined by reference to the fund's underlying assets, which are principally marketable equities and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value.

Common/Collective Trusts: Common/collective trusts ("CCTs") represent investments with various investment managers. Units held in CCTs are valued at the unit value as reported by the investment managers, with the exception of CCTs holding fully benefit responsive investment contracts. The Plan holds shares of CCTs that have investments in fully benefit-responsive investment contracts. For purposes of the statement of net assets available for benefits, these CCTs are stated at fair value with an adjustment to contract value. As provided in ASC 962, an investment contract is generally required to be reported at fair value, rather than contract value, to the extent it is fully benefit-responsive. The fair value of such investment contracts held by the CCTs are determined using the market price of the underlying securities and the value of the investment contract as determined by the trustee. The CCT held by the Plan is the Fidelity Managed Income Portfolio. The objective of the Managed Income Portfolio is to preserve principal while earning interest income by investing in short-term bonds and other fixed income securities. This CCT seeks to maintain a stable net asset value, and has no restrictions and no unfunded commitments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value Levels: The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of levels 1, 2 or 3.

The Howden North America Inc. 401(k) Retirement Savings Plan

Notes to Financial Statements

The following table sets forth by level within the fair value hierarchy the Plan's assets at fair value:

<i>December 31, 2011</i>	<i>Quoted prices in Active Markets for Identical Assets (Level 1)</i>	<i>Significant Other Observable Inputs (Level 2)</i>	<i>Significant Unobservable Inputs (Level 3)</i>	<i>Total</i>

Total investments at fair value	\$ 23,953,031	\$ 5,324,833	\$ -	\$ 29,277,864

8. Party-In-Interest Transactions

Certain plan investments consist of shares of mutual funds and units of a CCT managed by Fidelity Management Trust Company. Administrative fees paid to Fidelity Management Trust Company during 2012 totaled \$2,920. Fees paid by the Plan for the investment management are included in net appreciation/depreciation in fair value of the investments. Fidelity Management Trust Company is the trustee of the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

9. Risks And Uncertainties

The Plan invests in various investments, including mutual funds and a common/collective trust. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
