AND SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF PLAN

The Steel Grip, Inc. Employees' Profit Sharing and Savings Plan (the Plan) was established January 1, 1978 for the purpose of providing a deferred compensation plan under Sec. 401(k) of the Internal Revenue Code for employees of Steel Grip, Inc. The following description of the Steel Grip, Inc. Employees' Profit Sharing and Savings Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan provides deferred compensation to eligible employees of Steel Grip, Inc. It is subject to the Provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Eligible employees must meet the following requirements:

1. Attained age 21.
2. Complete one year of service.

Contributions

The Plan provides the employee an elective deferred savings up to 100% of the participant's compensation including catch-up contributions for those eligible; as defined in the Plan. The Company contributions to the Plan are made at the discretion of its Board of Directors, based on the profits of the Company. The Plan provides for no required employer contributions. For 2012 and 2011, the Company matched 100% of the employee's deferral up to 3% of eligible compensation, and contributed 3% of the employee's eligible compensation as a profit sharing contribution. Contributions are subject to certain limitations.

Participant Accounts

Each participant's fund balance is held in a separate account. Each participant's account is credited or charged with the participant's contribution and allocations of (a) the Company's contribution, (b) investment income, and (c) administrative expense. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants in the Plan shall have a vested interest in the Company contributions to the Plan based on years of service. A participant is 100 percent vested after six years of credited service for the employer match and employer discretionary profit sharing contribution.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Investment Options

Participants can direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers nineteen registered investment company funds, one guaranteed investment contract as investment options for Plan participants.

Payment of Benefits

On termination of service due to death, disability or retirement a participant may elect to receive either (a) a lump-sum amount equal to the value of the participant's vested interest in his or her account, (b) periodic installments over a period not in excess of ten years, (c) periodic installments for a specified term measured by the life expectancy of the participant or the joint life expectancy of the participant and his beneficiary, or (d) any combination of the above methods. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If a participant's account balance is less than $5,000, the participant will receive a single lump-sum distribution. If the amount of the distribution is more than $1,000 and the participant has not elected to receive or roll over the distribution, the distribution will be rolled over to an individual retirement account specified by the Plan.

Forfeited Accounts

Employer contributions for December 31, 2012 will be reduced by $2,469 and employer contributions for December 31, 2011 was reduced by $3,078 from forfeited non-vested accounts. At December 31, 2012 and 2011, forfeited non-vested accounts totaled $2,562 and $4,918, respectively.

Distributions Requested But Not Paid

At December 31, 2012 the total distributions requested not yet paid were $11,049. At December 31, 2011 there were no participants who had elected to withdraw from the Plan, who had not been paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to net assets and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Some administrative and operating expenses are paid by Steel Grip, Inc. with no charge to the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Change in Accounting Principle

In May 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, "*Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS")*," which amends current fair value measurement and disclosure guidance to converge with International Financial Reporting Standards and provides increased transparency around valuation inputs and investment categorization. ASU 2011-04 also requires new disclosures about qualitative and quantitative information regarding the unobservable inputs used in a fair value measurement that is categorized within Level 3 of the fair value hierarchy. The amendments in ASU 2011-04 are to be applied prospectively and are effective during annual and interim periods beginning after December 15, 2011. The Plan adopted this guidance effective for the Plan year ended December 31, 2012.

NOTE 3 - SUMMARY OF INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee, Principal Trust Company, has certified that the following data for 2012 and 2011 in the accompanying financial statements and supplemental schedule is complete and accurate.

a. Total investments, as shown in the accompanying statements of net assets available for benefits, of $10,128,902 and $9,903,825 as of December 31, 2012 and 2011 respectively.

b. Net investment income as shown in the accompanying statements of changes in net assets available for benefits of $800,645 and $50,020 for the years ended December 31, 2012 and 2011, respectively.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Investment Contract with Principal Life Insurance

The Principal Fixed Income Option (Principal) is a group annuity contract offered by Principal Life Insurance Company. The contract is a guaranteed benefit contract that does not have a defined maturity specified in the contract. The contract pays a stated rate of return which is reset on a semi-annual basis.

Article VI, Section 2 of the contract restricts the interest in and benefits payable under the contract to Plan participants, or their beneficiaries or contingent annuitants. Plans are not allowed to sell or assign their interest in the contract to outside parties. The contract defines the values at which Principal and the Plan may transact. Under these terms, the Plan may transact at an amount subject to a charge of 5%, restricting the sale.

Average yields:		
Based on actual earnings	2.425%	2.730%
Based on interest rate credited to participants	2.425%	2.730%

NOTE 5 - FAIR VALUE MEASUREMENTS

Generally accepted accounting principles establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability;

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. The fair value of the contract is reduced by a 5% withdrawal charge.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value As of December 31, 2012

The following is a reconciliation of the beginning and ending balance of assets and liabilities measured at fair value on a recurring basis using significant, unobservable (Level 3) inputs during the year ended December 31, 2012 and 2011:

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

Gains of $5,106 and losses of $26,373 on the Guaranteed Investment Contract included in investment income for 2011 and 2010 are attributable to the change in unrealized gains or losses relating to investments held at December 31, 2012 and 2011.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Custodial Guaranteed Investment Contract	$3,684,261	Assumed proceeds at discontinuance*	Composite Crediting Rate	**

* Fair Value is considered contract value less early withdrawal charge. The Custodial Guaranteed Interest Contracts have a 5% surrender fee should the plan discontinue the contract without proper notification as prescribed in the contract. Contracts cannot be sold or pledged to third parties per benefit plan agreement. Proceeds from discontinuation cannot be higher than the fair value amount reflected here.

** The Composite Crediting Rate history for the contract is as follows:

Time Period	Rate
January 1, 2012 – May 31, 2012	2.65%
June 1, 2012 – November 30, 2012	2.40%
December 1, 2012 – December 31, 2012	2.10%

NOTE 6 - TERMINATION OF THE PLAN

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 7 - TAX STATUS

The Plan has adopted the Principal Life Insurance Co. Prototype Non-standardized Profit Sharing Plan with CODA, which the Internal Revenue Service has determined and informed Principal Life Insurance Co.. by a letter dated March 31, 2008 that the form of the Prototype plan is acceptable for use by employers under Section 401 of the Internal Revenue Code (IRC). The Plan itself has not requested a determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 - RELATED PARTIES

Certain plan investments are shares of registered investment companies managed by Principal Investments. Principal Investments is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Amounts paid by the Plan to Principal for administration fees amounted to $0 and $4,167 for the years ended December 31, 2012 and 2011, respectively.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2012	2011
Net assets available for benefits per the financial statements	$ 10,649,328	$ 10,422,119
Excess Contributions Payable	2,472	-
Net assets available for benefits per the Form 5500	$ 10,651,800	$ 10,422,119

The following is a reconciliation of changes in net assets per the financial statements to the Form 5500:

	2012
Changes in net assets available for benefits per the financial statements	$ 227,209
Excess Contributions Payable	2,472
Change in net assets available for benefits per the Form 5500	$ 229,681

NOTE 11 - SUBSEQUENT EVENTS

Management evaluated subsequent events through July 16, 2013, the date the financial statements were available to be issued. Events or transactions occurring after December 31, 2012, but prior to July 16, 2013 that provide additional evidence about conditions that existed at December 31, 2012, have been recognized in the financial statements for the year ended December 31, 2012. Events or transactions that provided evidence about conditions that did not exist at December 31, 2012 but arose before the financial statements were available to be issued have not been recognized in the financial statements for the year ended December 31, 2012.
